

MEMORANDUM

Date: July 24, 2007
To: Transfer 73345
From: dcarlson
Re: transfer evaluation

This transfer proposes to add 59 acres of groundwater rights to this place of use to make 2 full pivots. In 2009 the place of use for 35-7246M comes out of CRP. 35-7632A is a two acre water right in the same S1/2 of section 16 as 35-7246M out of the same well. 57 Acres comes from a portion of 35-7246F.

Authority to File:
Applicant is the owner of record as far as the SRBA decree.

Water Right Validity:
These water rights were decreed in the SRBA in 2002. Lands are in CRP. Forfeiture is not an issue.

Injury to Other Water Rights:
Inside the ESPA area and in Water District 120.
Cell changes to 17,40 from 16,38 for 57 acres/228 af of water right 35-7246F.
Changes are greater than 5% for one reach, the Ashton to Lewisville , but the increase is 0.5 af/trimester depletion for this reach. This is acceptable.
The other three reaches are less than 5% or are positive depletions.
The 2 acres/8AF from 35-7632A is in the same well before the transfer. No analysis is needed.
Watermaster will comment.
Transfer will be advertised to determine any protests.

Enlargement of Use:
There is no evidence of enlargement of use.

Local Public Interest:
No issues identified.

Beneficial Use / Conservation of Water Resources:
No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
