PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-32546

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use(s) of the water.

During my review of your proof and permit, I found that according to condition of approval paragraph no. 3 of this permit that states, "Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works." I recommend that this final condition of the permit be completed. If you disagree with this requirement, you may file a written request for waiver of this condition to the department. The department will issue a decision upon consideration of your Watermaster's review and written response.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have any questions regarding my review of your permit, call me at (208) 287-4942. If you have questions concerning the field examination, please contact the Western Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
