CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **January 01, 2005**.
2. Subject to all prior water rights.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
4. Water bearing zone to be appropriated is from 240 to 300 feet.
5. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.
6. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 7th day of January, 2004.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant Church of Jesus Christ of Latter-Day Sts. Phone 801-240-4656
Mailing address Real Estate Division, 12th Floor East, 50 E. North Temple, SLC, UT 84150
2. Source of water supply Groundwater which is a tributary of N/A
3. Location of point of diversion is Township 4 North Range 2 West Sec. 10, in the $\frac{1}{4}$,
NW $\frac{1}{4}$, SW $\frac{1}{4}$, Govt. Lot N/A, B.M., Canyon County;
additional points of diversion if any: Public Water-Supply Well (Permit No. 63-31659, June 2, 2003)
4. Water will be used for the following purposes:
Amount 3.3 cfs for Fire Protection purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount --- for --- purposes from --- to --- (both dates inclusive)
(cfs or acre-feet per annum)
Amount --- for --- purposes from --- to --- (both dates inclusive)
(cfs or acre-feet per annum)
Amount --- for --- purposes from --- to --- (both dates inclusive)
(cfs or acre-feet per annum)
Amount --- for --- purposes from --- to --- (both dates inclusive)
(cfs or acre-feet per annum)
Amount --- for --- purposes from --- to --- (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 3.3 and/or (b) N/A
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source Groundwater will be pumped from an approximate 16-inch well, as necessary, for fire suppression/testing.
 - b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet
 - c. Proposed well diameter is 16 inches; proposed depth of well is 305 feet
 - d. Is ground water with a temperature of greater than 85°F being sought? No
 - e. If well is already drilled, when? N/A; Drilling firm N/A;
Well was drilled for (well owner) N/A; Drilling Permit No. N/A
7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in kW. N/A
 - b. Stockwatering; list number and kind of livestock. N/A
 - c. Municipal; show name of municipality. N/A
 - d. Domestic; show number of households. N/A
 - e. Other; describe fully. Fire protection, including hydrants and sprinklers

**COMPLETE REQUEST IF YOU WANT YOUR APPLICATION TO BE PROCESSED USING ONE OF THE
THREE ALTERNATIVES BELOW**

Name of Applicant Church of Jesus Christ of Latter-Day Saints
Mailing Address Real Estate Division, 12th Floor East
50 E. North Temple, Salt Lake City, Utah 84150
Application No. ----
(if known)

 IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

 PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

XX **WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY**

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

RE: Permit No. 63-31786

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Comment Report

63-31786

1. scurtis 10/28/2003 Legal Notice Remarks

Comment: Water bearing zone to be appropriated is from 240 to 300 feet.
Non-consumptive use is proposed.

2. scurtis 10/28/2003 Comment/Analysis

Comment: Use is considered non-consumptive for Basin 63 processing. The request to process form, although submitted, is not necessary for this proposed well serving an LDS church on Northside Road in Nampa. The same church already obtained Permit 63-31659 for limited domestic and fire protection uses.

3. kwalker 1/6/2004 Permit Review

Comment: While preparing this application I noticed that the piont of diversion and place of use under this application and application 63-31785 had been entered and advertised backwards. Since there were no protests and the applications are identifcal except for the location I swapped the advertisements to show correct legals and recommend approval as shown by region.

**SUBJECT: Application for Permit to Appropriate
 Public Waters from the State of Idaho
 Proposed Heritage Church for the
 Church of Jesus Christ of Latter-Day Saints
 Southeast Corner of Reflection and Lansing Lanes
 Near Middleton, Idaho 83644**

Gentlemen/Ladies:

On behalf of the Church of Jesus Christ of Latter-Day Saints, American Geotechnics, Inc. is herewith submitting (1) an "*Application for Permit to Appropriate Public Waters from the State of Idaho*," (2) an accompanying Vicinity Map showing the location of the requested appropriation, (3) a completed "*Request to Process*" form, and (4) a check for \$370.00 for the application fee. The requested appropriation will supply fire suppression water to a proposed church to be located at the southeast corner of Reflection and Lansing Lanes near Middleton, Idaho. The site is approximately four acres in area, and is situated in the northwest $\frac{1}{4}$ of the northwest $\frac{1}{4}$ of the southwest $\frac{1}{4}$ of Section 10 in Township 4 North, Range 2 West (Boise Meridian).

The requested appropriation includes up to 1,500 gallons per minute (3.3 cubic feet per second) of fire suppression water for a minimum of two hours, as required by the Star Fire Protection District. The Idaho Department of Water Resources approved a previous appropriation request for the internal domestic water-supply needs of the church on June 2, 2003 (Permit No. 63-31659). The source of the requested fire suppression and domestic water is groundwater from separate, proposed on-site production wells.

We anticipate that the fire well will be drilled to an approximate depth of 305 feet below ground surface, and consist of 16-inch diameter steel casing and 10-inch diameter steel screen. We note, however, that the final well construction will be determined based on subsurface conditions encountered during drilling. The fire well will be equipped with an approved fire suppression pump that will be plumbed independently from the domestic well pump equipment.

Finally, we respectfully request that this application be processed in an expedited manner so that the proposed construction can begin as soon as possible. Please feel free to contact us at (208) 658-8700 if you have any questions or require additional information.

On behalf of our client, we greatly appreciate the Department's assistance and attention to our request.

Respectfully submitted,

American Geotechnics, Inc.

Larry Nodler, PG, CHMM
Senior Geologist

Rex Hansen, PE
Senior Geotechnical Engineer
