

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF CHANGING THE)
MEASURING DEVICE CONDITION OF)
APPROVAL FOR PERMIT NO. 63-31891)
IN THE NAME OF R. JERRELL.)
AND CAROL L GLENN)
_____)

AMENDED ORDER

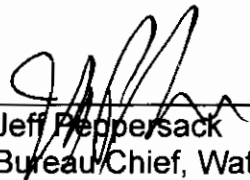

WHEREAS, the Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install and maintain a measuring device and lockable controlling works as part of the diverting works; and

The watermaster does not regulate surface water uses in that portion of the basin at this time and it is unlikely need to measure this diversion in the foreseeable future based on his location in the lower part of Basin 63 where ample surface water is generally found.

WHEREAS, the department has determined that the measuring device and lockable controlling works is not presently needed to measure the water in question;

IT IS THEREFORE HEREBY ORDERED that the condition of approval requiring the installation of a measuring device and lockable controlling works for the above captioned permit is **WAIVED**. The department retains jurisdiction to reinstate the condition in the future upon a finding of need by the department.

Dated this 18th of July, 2007.

Jeff Peppersack
Bureau Chief, Water Allocations Bureau
