

December 19, 2003
Project No. 03-C451.1

Idaho Department of Water Resources
1301 N. Orchard Street
Boise, Idaho 83706

Attention: Mr. Shelley W. Keen
Water Rights Supervisor

**SUBJECT: Request for Modification to Water Rights Appropriation Permit
Proposed Water Supply Well
Church of Jesus Christ of Latter-Day Saints
18401 Northside Road
Nampa, Canyon County, Idaho**

Dear Mr. Keen:

American Geotechnics herewith requests a modification to the existing Water Rights Appropriation Permit (No. 63-31660) granted by the Idaho Department of Water Resources (IDWR) for the above referenced site on June 2, 2003. The request is being submitted pursuant to our recent telephone conversations with Mr. Rob Whitney of IDWR and is expected to facilitate approval of a drilling permit application by Mr. Whitney for an on-site water-supply well.

This request specifically reflects a change in the anticipated groundwater-bearing zone from 50 to 150 feet below ground surface, as originally submitted and approved, to 150 to 250 feet below ground surface. The actual drilling and well installation depth will be dependent upon site-specific conditions encountered during drilling. American Geotechnics understands that the requested modification will not require re-application for the water right and will therefore not result in additional advertising or public comment requirements.

To expedite the drilling permit approval process by Mr. Whitney, American Geotechnics respectfully requests your immediate review and response of this modification request. Please feel free to contact us at 658-8700 if you have any questions or require additional information.

Respectfully submitted,

American Geotechnics

Rex W. Hansen, PE
Principal

Larry Nodler, PG, CHMM
Environmental Manager
