Re: transfer evaluation

This transfer proposes to add two existing wells at the place of use and rearranged the place of use acres and arc view shape to the present system of three pivots. The two additional wells have been in place for years. Each well is at the center of the pivot. This combines 8 water rights into one system. Each water right had the same well as its pod.

Authority to File:
Applicant is the owner of record as far as the SRBA decree.

Water Right Validity:
These water rights were decreed in the SRBA in 2002. Air photos from 2006 show it to be irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:
Inside the ESPA area and in Water District 110. The new wells are within the place of use and within the same cell, no groundwater model analysis is needed. Watermaster will comment.
Transfer will be advertised to determine any protests.

Enlargement of Use:
There is no evidence of enlargement of use.

Local Public Interest:
No issues identified.

Beneficial Use / Conservation of Water Resources:
No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
