Re: Application for Transfer on Water Right 63-3016E

Dear Applicant:

Our office received an application for transfer on the above water right on 7/7/2005. This transfer was held pending the outcome of the claim for this water right filed in the Snake River Basin Adjudication (SRBA). The SRBA has issued a partial decree on this right, which allows processing to continue. I received the transfer and have completed my initial review of your proposal.

During our office visit on 6/14/2007, I informed you that you will need to obtain a notarized letter from the lending institution carrying the loan on your property agreeing to the transfer. This letter only state that they are aware of the transfer and have no objection to changes made on the water right.

In order to properly evaluate your transfer proposal, this letter must be submitted prior to any further evaluation of your application. You may seek additional time to provide the information by making a written request to delay or interrupt processing. **Your written response including the requested information, or a request for more time to seek the information must be received by July 16, 2007.** IDWR will issue a preliminary order to reject or deny the application without a timely reply.

Respectfully,

Daniel A. Nelson
Senior Water Resource Agent
Western Region
