DEPARTMENT OF
WATER RESOURCES

TO DAVE TUTHILL
Director of State Water Rights

I hope you can help me. I am a 70 year widow, and need help for a water tracer to track my spring water, because for three days while my neighbor was digging I had no water, and I have had water rights since Aug. 9 1983. Mr. Clark installed at least two big cisterns or holding tanks. He completely cut-off all of my water, I could not flush my toilet, get a drink of water, nor water my cows. Every day they were working on his property. Putting in his water tanks I had water problems.

I called water resources and talked to Robert Haynes, he said he would have Eric Davis and Keith Franklin come to my home on June 8th to look over the situation. He ask me to take water measurements three times a day for three days inside the spring outlet. You could see by the water marks on the cement that the water level was much lower than normal. Eric Davis took some pictures. They also have large sprinklers going down both sides of their driveway spraying between 3:00AM to 4:30AM, which is using a lot of water.

I really need household water and if you could help me, I would really appreciate it.

The people that are taking my water are;

Just wanted to let you know, when you were doing your construction, putting in your water tanks, you took all of my water. I HAD NO WATER AT ALL. So I am having the matter looked into. You will be notified.
