Re: permit review

WD 75-B

No moratorium

Wild & Scenic Area - ad & spreadsheet ok

No protests

Fish & Game indicated they have no problem with 7 acres irrigation (which was done historically) but did not want the use increased to 10 acres since Williams Creek is fully appropriated. Sharla (IDWR Eastern Regional Staff) talked with the applicant and he stated that he was not enlarging the use and it actually was 7 acres of irrigation (on his 10-acre parcel).

DEQ - fish screen condition added

No overlaps

Irrigation season adjusted to standard

Recommend approval as suggested by IDWR Eastern
