RE: APPLICATION FOR PERMIT, PIONEER CREEK

Dear Ms. Pike:

Your application for permit to appropriate the waters of Pioneer Creek for power purposes was received on 8/8/2002. Processing cannot be completed without the following additional information.

Before the water right application can be approved, the enclosed Affidavit For Water Rights To Be Used For Power Purposes must be completed and returned. Note that a notarized signature is required.

A stream channel alteration (SCA) permit may be required prior to the construction of any outfall or water return structure associated with a power development. SCA permitting is not required for private diversions. For information on stream channel construction, contact Erv Ballou at our State Office at 327-5448 and Greg Martinez at the Army Corp of Engineers telephone 345-2155 or 345-2154.

Please do not hesitate to call me if you have questions or need assistance. I will process your application through the advertising of the application, but will not advance the application to our State Office for approval until the affidavit has been received.

Sincerely,

A handwritten signature in black ink that reads "Daniel A. Nelson". The signature is written in a cursive, flowing style with a long horizontal stroke at the end.

Daniel A. Nelson
Sr. Water Resource Agent
