**RE: APPLICATION FOR PERMIT FOR HYDROPOWER FROM PIONEER CREEK**

Dear Mr. Bilington:

We have been working with you on an application for permit for Hydropower use for the University of Idaho on Pioneer Creek. In our conversations, we discussed reworking the application for permit to allow some error in the legal descriptions due the remoteness of the place of use. I sent your original application for permit back to you on 11/19/2002 to allow you make some changes to the permit form, supply a diagram of the system, and supply the power use affidavit sent to you on 11/8/2002.

Even though we have been working together, we have a 30-day limitation for holding applications where additional information has been requested. You can send the needed information or a written request for an extension of time to supply the information either by mail to the above address C/O Dan Nelson or to my email at [dnelson@idwr.state.id.us](mailto:dnelson@idwr.state.id.us).

The purpose of this letter is to make a formal request for the information requested in my earlier letters. Idaho Code § 42-204 requires that this information be returned to my office within 30 days. **Our office will be required to void the application for permit if this information is not returned by 1/27/2003.** You will be able to re-file this application, but it will have a later priority date.

**If you have already sent the needed information, please disregard this letter.** Please contact me if you have any questions or concerns.

Respectfully,

Daniel A. Nelson  
Sr. Water Right Agent
