Subject: RE: 2 Workflow questions

Steve,

I looked through my notes, and I didn't find anything related to 77-14145. It looks like you should send the letter directing the applicant to submit the Rule 40.05 info, including responses from IDFG and IDEQ.

Subject: 2 Workflow questions

Shelley:

A couple items came up -

1) Programming Workflow to list DRT as interim director in legal notices - ads automatically list Karl, can edit for now to show DRT, can programmers change this to avoid continued edits? Probably worth a heads-up to regions just in case does not get overlooked in ad prep until this detail is resolved. Denise noticed this in preparing some ads today.

2) Parallel processing upper basins - we have UI Appl. 77-14145 was in the batch that your work committee was going to look at as you figured out the coordinated processing with other agencies. But it was protested at that time. Protest now withdrawn so processing can continue. Will need to fold this into parallel processing, probably start with getting formal IDFG & IDEQ comments. Question - did your committee look at this one & do anything with it during the development of parallel processing, or was it omitted since it was protested at that time?

thanks

Steve

resume normal processing for "D/S 42-111 idea"

committee review

SO test processing

3(4?) maybe re-advertise

+ e 10-15 non-data entered appls. to sort into Category 2 or 4

Status = hold per S.O. follow up

- per 5/1/06 updates
