Mr. Billington,

Thank you so much for your letter. I will hold your application for the next couple of weeks to ensure that we get the letter.

Daniel A. Nelson
Senior Agent
Western Region
Idaho Department of Water Resources

Subject: Application for Permit #77-14145

Mr Nelson,

In late January, the University received your request for information regarding the application mentioned above. Along with this request was the obligation to contact the Idaho Dept of Fish & Game and the Idaho Dept of Environmental Quality to confirm they have no objection to the application. The deadline for materials was given as March 30, 2007. Upon receipt of the letter I contacted both agencies and they indicated their familiarity with the information and the process required. On February 13 IDFG submitted a letter to you indicating that agency had no objection. In early March I checked in with my contact at IDEQ again and was told that he had reviewed the application and had forwarded a statement of no objection to someone else in that agency and that the letter would be forthcoming to your office. I submitted the University's information on March 8. Earlier today you notified me that you had not received any letter from IDEQ. I contacted that agency's regional office in Idaho Falls and learned that my contact, Mr. Troy Saffle was out of the office. I spoke with his supervisor in Idaho Falls and explained that Mr Saffle's letter had not been received by IDWR yet and that the information was due today. Later, Mr. Saffle left a message with me saying he could send the letter out when he returned to the office on Monday. With this set of circumstances, can your office delay its decision until the letter is forwarded to your office next week?

If you have any questions or need additional information from me, please let me know.
