RE: Tom Wilke Permit #57-11626

Dear Mr. Meyer:

After our conversation and your voice mail message earlier this morning, this letter will hopefully clarify questions that you had regarding the Wilke permit amendment.

-The assignment of the permit received on 12/02/06 shows the permit assigned to
"Thomas J. Wilke **and** Jenine M. Wilke **and** Northwest Farm Credit Services"
There is no **OR**, so all parties must sign the permit amendment and well drilling permit applications.

- A permit proof /report will identify each point of diversion by a specific legal description under the Location of Point(s) of Diversion heading on the report. For clarification, a water right condition of approval may also state the number of diversions in a certain 40 acre tract if greater than 1. As you know, changes or corrections to locations are routinely made prior to licensing by the amendment process

If your client wishes to file a permit amendment for an additional point of diversion, please submit the following:

-An amended permit application reflecting the changes to add another point of diversion with signatures by all parties.

*You may wish to show corrected quarter-quarter legal descriptions of the existing wells if needed.

*You may wish to add additional points of diversion location for future need to avoid filing another amendment.

-Please submit additional information regarding the current status of the 3 existing wells described on the existing permit, that is: GPS/or correct legal description location

Is the well currently part of the stock water system?

Does the well contain a pump, and is it being currently utilized ?

-A completed application for drilling permit with signatures.

Wilke
Page 2.

When the documents and information have been received, our office will review the applications and make a determination if the changes need to be advertised for public notice or the application can continue being processed. We will expedite the application process the best we can.

Should you have any questions, please contact me at the Western Regional Office, phone 334-2190.

Sincerely,

A handwritten signature in cursive script, appearing to read "John Westra".

John Westra
Western Regional Manager
