RE: Transfer No. 4122 for Water Right No. 61-02165

Dear Vic:

I have once again pulled this file out of the hold drawer to check the status of the transfer application. I am writing you in the hope that this transfer application can be processed to a final resolution.

This transfer application was filed 04-09-93 to add an additional well. Problems with the proposed new well led to an application to drill another well in a new location not included as part of the transfer application. It appears that this well has now been abandoned according to the application for abandonment received 01-16-97.

You had requested time to locate a suitable supply of groundwater and then include the confirmed, correct legal description, as part of an amended application for transfer. I have held this transfer for over 2 years and would like to resolve the matter.

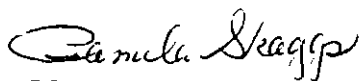

Please notify me of the current status of activity regarding this transfer application and advise me which of the following reflect your future plans regarding this transfer application.

- 1) If no new well is proposed for the near future, this transfer application should be withdrawn.
- 2) If you intend to propose a new well outside of the proposed SENE, S06, T05S, R04E, an amendment fee of \$50.00 and a written request to amend the application including the legal description should be provided.
- 3) If you wish to have the application processed with the originally proposed location, please notify me to proceed with the approval.
- 4) If no response is received within 15 days, I will assume you no longer have any interest in the transfer and will take action to void the application.

Called in response. Waiting for GPS information. HOLD. 5-97 Q8

As always, thank you for your prompt response in this matter. I hope this transfer matter can be resolved to satisfy your needs. If you require any further assistance, please contact me directly at 327-7943 and I will be happy to help you.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Skaggs".

PAMELA SKAGGS
Sr. Water Resource Agent
