Steve,
Please consider this my request to interrupt processing of Transfer No. 4122 for 30 days. It is my impression that we want to proceed with your proposed amendment, however, I need to communicate with our Farm Manager to allow him to express any concerns he may have with the proposal. I intended to complete my review before now, however, I need more time before we can respond.

Our last discussion about this one provided until early March of this year for you to decide what to do. We are past the deadline. I prefer avoiding the voiding process to save both of us some work. The application must be voided without a timely response.

Please submit (a) an amended version of the transfer sufficient to allow processing to continue, or (b) written request to interrupt processing for up to six months. Your written (email okay) reply should be made by March 19, 2001 to avoid further complications in this matter.

Thanks for your attention to this one, Vic. Please let me know if you need more information.

Steve Lester
