Re: Application for Extension of Time to Avoid Forfeiture of a Water Right

Dear Mr. Mooney:

You filed an Application for Extension of Time to Avoid Forfeiture of Water Right No. 63-10207 in 1996. That action involved a portion of the right, labeled as "63-10207A" on the application (see enclosed copy).

The application was partially processed by the Idaho Department of Water Resources (IDWR) but subsequently held pending ownership changes and other matters. IDWR can now consider a resumption of processing.

The original water right was split by an ownership change in late 1999. You retained a 14 acre portion, now identified as right no. 63-32039 (see enclosed copy of computer printout). Micron Technology holds the other portion of the original right. Micron's portion is known as right no. 63-32040 but is not part of your application.

It appears you sold the land described by 63-32039. Current ownership of the land affected by 63-32039 is held by Mr. Craig Gibson according to current Ada County tax lot information. The purpose of my letter today is to see how or if you want to proceed with the extension application as noted below.

Options to Consider

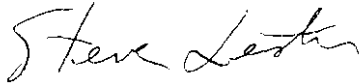

1. You can withdraw the application by completing and returning the enclosed withdrawal form.
2. You can assign the application to the current owner of the land identified in the right. This is presumed to be Mr. Gibson. The application can be assigned to him by a letter from you to IDWR. You and/or Mr. Gibson are welcome to contact me for more information if you want to pursue this option.

One of the two options should be completed within the next sixty (60) days. The application will be considered void without a timely written response.

Mooney Land Co.
