Re: Application for Permit 63-32547

Dear Mr. Mitchell:

We are in the process of reviewing the water right application you submitted in September of 2006. In order to complete the review of this application I need more information.

The application did not have a map accompanying it when submitted. I have prepared a map, using 2004 aerial photography, which depicts the area you have identified on your application. I have included the location of your well on the map pursuant to our well construction section's field inspection. Please draw the location of your home on this map and return it to my attention in the enclosed envelope at your earliest convenience.

Also, you did not identify the amount of time you need to complete the system applied for under this application. Please write the number of years (from 1 to 5) you wish to have to complete your development on this letter and return it with the map.

The system is now complete
If we don't receive the map from you within the next 30 days we will take action to void this application from our records. Please do not hesitate to contact me at 208-334-2190 if you have any questions in regard to this matter.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
