To Mr. Spackman: 8-24-06

The questions answered for the
last 2006 hearing at Salmon
are the same protests I now
ask to be considered
On Sept 26-27-06

- (1) The Board is going to
create hardship for water users
- (2) Risk of fire due to lake people
with lack of water for fire defence
- (3) Costs that can't be paid
- (4) Speculation of 3d members of the
Water Systems is Conflict of Interest.
- (5) It's not right to tax existing buildings to
pay for mans that will just sit there
while cheap lots are sold & resold
over & over.
- (6) All the other Prev. Protests still remain.
