my Fax # 360-652-6225 - Please Fax me
that you got this - Please keep for Recd
Dear Mr Warner:

This is artical from Williams lake homow
letter that I got The Day after we talked
on The Phone.

This is the guy who your Mr Wilson was
told is Water Bd. Pres. (He is not)
and he has only been at the lake about
2 1/2 yrs. he is also the member who put a 500
Plastic line in to a non permitted Barn to
water horses. he has 16 Now at foot Court
Since Sept 05 when he put in line.

Line is leaking and Steve Adams says its
to Cold to fix it. Wrong!

There are 4 homes at Lake now being lived
in and water per day an Electric Clock I
built shows 8000 gal/day Piped.

Dig a hole - put Plastic tarp on it and heater
in hole & fix it now - no waste This is Example.

This is the Home owners Paper see at

1108 meeting - we want to increase size or get more water - we just want more connections it costs more

including the direction our community wants to go with the possible addition of several water connections becoming available. I am going to have some ideas to present to the Home Owners membership at the July meeting next summer. If anyone has any ideas they would like me to add, please don't hesitate to contact me at (Redcells101@hotmail.com). I would be more than happy to discuss them with you. The Water Board has been working very hard to change our Recreational Water District to a Municipal Water District, so that a few hopeful property owners may have the ability to build in the future. The major difference between the two are; The Recreational Water District restricts water availability to the existing homes at Williams Lake only. The Municipal Water District would allow more homes to be added to the water system. At the present time, property owners who are unable to build because of the present water restrictions cannot share this beautiful

Lake with us. They have been paying taxes for many years that support and pay for the upkeep of the water system that we all use. It is only fair that our Williams Lake Water Board tries to give them the opportunity that we home owners have here. This is a very beautiful spot in our world and we need to share it with other Williams Lake property owners when possible.

See you in the spring
Richard Bors

Water with illegal connections 16 homes

The 1929
Guy Lombardo and his Royal Canadians played "Auld Lang Syne" as a New Year's Eve song for the first time. The phrase is of Scottish origin and loosely translates to "times gone by"

It Happened This Week!

In 1908
At midnight on New Year's Eve, an electrified ball was lowered for the first time from the Times Square Building in New York City. This tradition started, in part, because shooting fireworks above crowds had been declared illegal.

In 1879 Thomas Edison demonstrated his new incandescent light to the public for the first time. The Pennsylvania Railroad Company ran special trains to Menlo Park, New Jersey.

This is to the Board who spent 10 months and 100,000 dollars to get ready to go
