RE: Permit No. 02-7113

Dear Permit Holders:

We are reviewing the above referenced permit so we can issue a license for the use developed. In a review of our files, we noticed that you have not complied with a condition of approval of the permit. The condition we are referring to is on the permit as follows:

A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.

Our field examiner found no measuring device on your system and we must resolve this issue before the license can be issued. Pursuant to Idaho Code § 42-219(8), "if the conditions of approval on a permit are not complied with, we may issue an order voiding the permit or issue a license for only a portion of the use developed under the permit".

There are a couple of options that you can take to resolve this problem. The options are: submit documentation that you have complied with the condition and our examiner overlooked it at the time of the exam; install the measuring device as required on the permit; or submit a written request for removal of the condition.

We will withhold further action on this permit for 30 days from the date of this letter in order to allow you time to respond. If we do not receive a response from you within this time period we will assume you are not interested in pursuing a water right license and will take action as suggested above.

If you have any questions in regard to this matter, please do not hesitate to contact me at 334-2190

Sincerely,

KAY WALKER
Sr. Water Resource Agent
