PROOF ACKNOWLEDGMENT LETTER

Re: Permit No. 71-10902

Dear Permit holder:

The department acknowledges receipt of the proof of beneficial use ("proof") form submitted for the above-referenced permit. The next step in the process of developing a water right is for the department to conduct the field examination to determine and confirm the use of the water, and that it meets the permitted beneficial use.

According to this permit a lockable controlling works is to be installed prior to the diversion of water for the watermaster's use. If you have not installed this device it is important that you install it before the field examiner's scheduled visit. If you have any concerns on how to install this device, please contact your watermaster or the Department's regional office.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have questions about the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033.

Sincerely,

A handwritten signature in cursive script that reads "Deborah J. Gibson".

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
