DEPARTMENT OF
WATER RESOURCES

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof or beneficial use of water. There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Permit No. 65-22659

Name(s) of Permit Holder: Gene W. Gorbett

Address: 22 River Bluff Ln City Horseshoe Bend State ID Zip 83629

Telephone No. (208) 793-2674 Date Proof is Due: April 1, 2007

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

We acquired right away from private landowner between us and the river. Purchased a pump, powersole, and two electrical boxes. Contacted Idaho Power about needing new service and they came out and let us know they will need to install a new transformer on their pole. Costing \$ 500.00 approx.

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Awaiting approval from Boise County road dept. to see if we can go through a culvert that runs under the road. We have a small business that runs on a seasonal (April-Nov) schedule which takes up most of my time, therefore we have not had time to install the new system as we would like to be involved in the installation. (We cannot work on this project right at this moment because of the frost.)

Permit holder(s) request an extension to June 30, 20 08.
