Describe the reason for the proposed changes

The old headgate and ditch from the Big Wood River are no longer usable, but the Clearwater Slough runs through our property. We want a new point of diversion on the Slough in order to pump directly into sprinklers that are already fed by our irrigation well. We understand that the diversion rate will be reduced to reflect the increase in system efficiency.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change
