PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 22-13529
Drilling Permit No. D0037924

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit and the receipt for The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Also, be advised that Section 42-248, Idaho Code, requires water right owners to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

Thank you for responding to our letter of October 27, 2006, concerning additional charges for your drilling permit. Well Construction Rules of the Department require an additional drilling permit fee in some cases where an increased use of water is authorized for a well. Department records indicate that an additional drilling permit fee in the amount of \$125.00 is due based on the water use developed under your water right permit. Failure to pay this fee may be cause for cancellation of your water right permit. Please submit this fee to the Department along with a note of reference identifying the drilling permit number.

Here is a summary of charges for your water right.
