I am requesting a waiver under #7 of "Proof of Beneficial Use," form #217. Regarding maintaining a measuring device.

The concrete ditch that I irrigate out of with Farmer's Cooperative Canal water is also the same ditch that I discharge the water that this permit covers. Canal water is the main source of my irrigation water with diversion water only used to supplement. The measuring device would create an obstruction for the larger amounts of canal water.

I have access to a portable weir which can be provided if any one from your office would like to inspect or measure flow from my pump that provides the diversion for this permit.

Being below the regulated part of the district I would appreciate if I did not have to maintain a permanent measuring device, knowing that if regulations change in my part of the Boise River Project that I would have to come into compliance.

Thank you.

A handwritten signature in black ink that reads "HAROLD ROHRBACHER". The signature is written in a cursive, slightly slanted style.
