PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 85-15526

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

According to the Proof of Beneficial Use, we verified the total rate of diversion on the permit is 0.03 cfs. When the field examination takes place; they will confirm the rate of diversion.

We received a fee of $50.00 from you on January 31, 2006 for a license examination. After a second review, we noticed that a license examination fee is not required in connection with permits which use a ground water source and have a total rate of diversion of 0.04 cfs or less. Thus, we are issuing you a refund in the amount of $50.00.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have any questions concerning the field examination, please contact the Northern Regional Office of the department in Coeur D'Alene, Idaho 208-762-2800.

Sincerely,

Brian Cox
Technical Reviewer
