*Thanks Shelley,
Shelley
Dianne*

Dianne,

For a couple of years we have not been issuing very many licenses. Our priorities have been transfers and permits. When we did issue licenses, they were oldies from the SRBA area. When Kay got assigned to the SRBA effort, our licensing slowed to a trickle. Now that Erin and I also are working on SRBA recommendations, we're not issuing permits or licenses at all, unless there is an immediate need.

You have sent us field exams for about 300 permits that haven't been licensed because of the circumstances I described above. When the SRBA recommendations are all done, I anticipate that one of our first priorities will be to get ready for the North Idaho Adjudication by wiping out the licensing backlog.

Meanwhile, to resolve your issue I've prepared a license for 96-9064 and will send it to Dave for signature. If/when the ownership documentation is complete, you can send it here to be processed.

Shelley

Subject: 96-9094 - Permit

Kara, Shelley and Debbie,

Several months ago we got a change of ownership back from you on this water permit because they needed an Assignment of Permit rather than a Change of Ownership.

According to the Water Permit Report on this 96-9094 - Proof was due 9/1/2003 and was made 9/4/2003. The Field Exam was completed over 2 years ago and sent to the State Office 12/8/2004 and received at the state office 12/13/2004, almost 2 years ago. The License probably should have been issued in early 2005 unless some problem exists that we don't know about.

Water Permit Report 96-9094

Dates and Other Information:

Permit Proof Due Date: 9/1/2003
Permit Proof Made Date: 9/4/2003
Permit Approved Date: 9/6/2002
Permit Moratorium Expiration Date:
Enlargement Use Priority Date:
Enlargement Statute Priority Date:
Field Exam Date: 5/13/2004
Date Sent to State Office: 12/8/2004
Date Received at State Office: 12/13/2004

I don't understand why the License was not issued timely. Can the State Office get the License issued? - and allow the Change of Ownership to be used in this case? It seems that maybe something fell between the cracks here someplace since the License was never issued, or recorded as having been issued.

We have not had success getting the assignment of permit back, signed by Mr. Brock. Apparently Mr. Brock, one of the currently listed owners, is not happy with something - he at one point told me that he was going to mail the form to us, but we have never received it. He was apparently unhappy that the original form submitted was not sufficient.

I'm not sure, since I don't have all the paperwork from the ownership change, if only part of the property was sold to Eileen White, or if she bought it all, or if the well is on the property she bought, meaning the other owner would still have access to the well so it would be a split, maybe???? According to the report, there were two owners before - and the use is for domestic on 2 homes that are apparently next door to one another.

Please let me know what else I can do, or try to do to accomplish the ownership change on this permit. The paperwork has been on hold on my desk since last July.

Dianne
