APPLICATION FOR INST FOR APP FOR
PERMIT.DOC PERMIT 7-1-00...

Ms. Goessel,

To irrigate more than half an acre on your property, you must have a water right. I am attaching an application form and instructions. A water right permit requires you to start the project within one year and finish it within five years. For that reason, I recommend filing the application when you are sure of your plans.

I will initiate a refund of the fee paid in connection with the ownership change notice that IDWR could not process.

Please call or email if you have questions.

<http://www.idwr.state.id.us/apps/ExtSearch/RightReportAJ.asp?BasinNumber=72&SequenceNumber=10474&SplitSuffix=&TypewrWaterRight=True&>

Based on the map you show, this water right appears to go with the property belonging to the brother of the man we bought our parcel from. I know the previous owner irrigated >0.5 acres from our well. I don't know if we will do that, but would like the option.
