RE: Pending Applications for Transfer 1) Post and 2) Wolf (Water right #02-10283)

Dear Mr. Lester,

I recently received the Director's Report recommendation for water right 02-10283 and I have no objections to it. This milestone is significant because there are two pending transfers involved with this water right: 1) Jack Post, and 2) Billy Wolfe.

Through letters from you dated in late 2005, I understand that these applications for transfer have had a preliminary review by IDWR and were advertised. However, further processing was delayed until at least the Director's Report recommendations were issued to ensure objections could be made if any existed. I will not be objecting and I am not aware of any objections made toward the water right.

To give a brief history, a portion of water right 2-2268 in the name of Bell Rapids Mutual Irrigation District was eventually acquired by my family through a series of ownership changes and transfers; a new water right number was assigned to my family's portion (02-10204).

A portion of the 02-10204 was split in transfer number 70405; a new water right number was assigned to the remaining portion (02-10224).

A portion of 02-10224 was split in approved transfer 72027; a new water right number was assigned to the remaining portion (02-10283).

Water right 02-10283 has been recommended to the SRBA court with no objections to date. Water right 02-10283 will be the controlling water right for the two pending transfers.

The two pending transfers have money sitting in escrow awaiting release only after IDWR's approval of the transfers. This money has been sitting for over a year and renewal fees have already been paid once. Neither the buyers nor myself want to pay again. This delay in processing has cost money, has tied-up money, and has prevented the sale of the real property.

I request that for reasons of a very clear and valid water right and the financial delay being caused that IDWR resume processing the two pending transfers.

Regards,
