RE Wolfe Application for Transfer:

Dear Mr. Lester:

Attached, please find an Application for Transfer in the name of William and/or Victoria Wolfe. This transfer seeks to move 33 acres of water right 02-10224 to the applicant's property. Water right 02-10224 is currently owned by Arnold Estate Trust; portions of this water right have recently been sold and successfully transferred to a new place of use.

The applicant has rented water in past years to irrigate a portion of their farm. The attached transfer seeks to eliminate the need to rent water in the future.

Please note that the applicant has talked to your office regarding water right permit 02-7113. There should be 30 acres listed for the SESE section 17 T5S, R3E in addition to what is listed for a total acreage of 257. Apparently the 30-acres were inadvertently left out of the land list on the front page of the field exam. The maps included in the field exam recognize this land to be irrigated and included in the place of use. Mr. Dan Nelson has flagged this issue for the applicant. The attached transfer application takes into account that the 30-acres are indeed part of Permit 02-7113.

Included is the \$250 filing fee. If you have any questions, please call.

Regards,

Steven R. Hannula
