Re: Water Use – Permit 95-9259

Attention: Gary Spackman

I have completed and enclosed your form "Proof of Beneficial Use" and my check for \$50.00. I did not realize I had a Limited Use Permit previously, and apparently you sent a notice in February by Certified Mail of this fact. I was on vacation and the Post Office would not release the form to my daughter, who was picking up my mail. On my return on March 6th, the Post Office had returned your correspondence and I had no information about who sent it.

I understand a visual inspection will be made by your department. If it is necessary for someone to be on site, I will need adequate notice since I live in Pasco, WA. and the property is on Coeur d'Alene Lake. I have a pump installed about 20' from shore in the Lake with an above ground hose connecting to automatic control valves in a green covered box on the bank above the high water level. This is all on the west end of the property. There is an underground sprinkling system for a small grass lawn, and other sprinklers on the hillside above ground to water the ground cover and newly planted trees. All of this can probably be located without my attendance if you choose.

Please let me know your wishes. I would like to start the irrigation lines within the next few weeks as the weather gets warm. I also want to plant some additional evergreen trees on the property.

Sincerely,

Neal Smiley
