

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 65-22915)	ORDER
IN THE NAME OF DARYL HART,)	
MARCHELLE HART, FAUSTINO)	
RAMOS, AND VERLA WITT)	
_____)	

The Department of Water Resources (Water Rights) has issued the above captioned water right permit with a condition of approval requiring the permit holders to provide a means acceptable to the department to measure the amount of water entering and released from the reservoir. In addition, to install and maintain a lockable controlling device to regulate the inflow and outflow of the water as part of the diverting works.

The Department received a request from the permit holder to waive the lockable controlling devices and measuring requirements. The watermaster 65-K, has also agreed to waive these requirements.

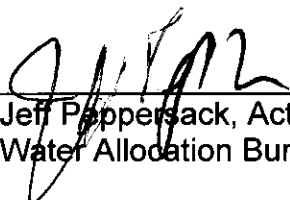

Therefore, since both parties have agreed to waive the above requirements, the department has determined that the measuring devices and lockable controlling works are not presently needed to measure the water in question.

ORDER

IT IS THEREFORE HEREBY ORDERED that the condition of approval requiring the installation of measuring devices for the above captioned permit is **WAIVED**.

IT IS FURTHER ORDERED that the department retains jurisdiction to reinstate the condition in the future upon a finding of need by the department.

Dated this 13 of April 2007.

Jeff Peppersack, Acting Bureau Chief
Water Allocation Bureau
