RE: CHANGE IN EXAMINER RECOMMENDATION

DATE: 7-MAR-1989

The rate of diversion for irrigation use, domestic use and total rate of diversion have been changed to reflect the .04 cfs limit allowed when no fee is paid. The measured diversion capacity of the system is .04 cfs. The proof of beneficial use/fee sheet indicated that .03 cfs was beneficially used, but it has been our policy to allow the maximum amount used, subject to the limits of the permit, the diversion capacity of the system or the fee schedule.
