Dear Mr. & Mrs. Calligan:

We are in receipt of the correspondence concerning ownership of the above referenced water right license.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right license, if the previous land owner did not exclude the water right from the sale. Therefore, we will place your correspondence in the file for future reference only and no further action will be taken.

If you have any questions, please let us know.

Sincerely,

Dear Ms. Fleck,

I am in receipt of the Proof of Application of Water to Beneficial Use forms and this is a request for an extension of time for the project as allowed for in Section 42-204, Idaho Code.

In the latter part of 1975, I was in an accident and partially disabled for several months. In spite of this I was able to begin accumulating materials for the project; a water pump, part of the pipe and part of the electrical wire. I intended to install the system in the summer of 1977. However, as you know, that was a drought year and the creek from which I was to pump dried up. Also in July of 1977 we discovered our son had contracted cancer which necessitated serious surgery and subsequently many treatments and medical bills. These continue today. Therefore, it didn't make sense to spend money putting a pumping system in a dry creek when we were rapidly running out of funds with medical bills.

This summer there has been water in the creek and I was able to clear and develop more of the land we are to put under water. I have about three acres seeded to hay which produced a crop this year and more in the process of development. However, due to the above circumstances, I have not had the personal health or the expected finances to complete the project by September 1.

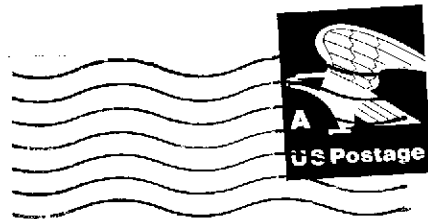

Therefore, due to circumstances beyond my control I have not completed the project and respectfully request an extension of time.

Very truly yours,

David A. Shepherd

Dear Mr. Shepherd:

One of the conditions of approval of your water Permit No. 95-7334 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Fred Eisenbarth
Northern District Manager
