Re: Permits No. G-32849 and G-32850

George E. and Osie C. Thayer

Rathdrum, Idaho

Dear Mr. & Mrs. Thayer:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~and have now submitted proof of beneficial use~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Department of Reclamation

Dear Mr. Watts:

In as much as a new permit could be issued for the added acreage, using the same well as a water source, without changing the priority date on the present permit no. D-32125; I believe this would be the way to handle it.

Please send the permit forms along with any special instructions, if any, for making this application.

Very truly yours,

George E. Thayer
