PROOF OF BENEFICIAL USE

APR 13 2001

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 86-7366 Telephone No. 1-(208)882-1902

2. Name of Permit Holder(s): CAL G. Hodges & Roxanne Hodges

3. Mailing Address: 3395 Highway #8 East

City MOscow State ID Zip 83843-8495

4. Source of Water: Runoff-springs If GROUNDWATER (well), Date Drilled: mo. N/A / yr. N/A

Well Driller: N/A Drilling Permit Number: N/A

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): ONE Stockwater (No. and type of stock): NONE - wild geese

Irrigation (No. of acres): 0.5 Other: Runoff - overflow to creek

6. Total rate of diversion and/or volume for which proof is submitted: 0.03 cfs OR 0.1 acre-feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is **not optional**. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes ☐ or No ☒

Has the measuring device been installed?

Yes ☐ or No ☒

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: CAL GRANT & Roxanne Hodges Telephone Number: 208-882-1902

Address: 3395 Hwy 8 East Moscow Idaho 83843

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

RE: License No. 86-7366 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICHAEL J. LEE
SEP 22 2003

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

APPEAL OF FINAL ORDER TO DISTRICT COURT

3. 5 Gallons per 33 seconds

E. NARRATIVE/REMARKS/COMMENTS

The pond was created through excavation in a small boggy area and is located at N46° 42' 40.6" by W116° 52' 36.6" (GPS unit, Garmin, Model GP-12, serial #36061391). The permit gives the location of the pond only to the forty (40) acre tract. By using a USGS 7½ minute topographical map and a Joel plat map, I located the springs to the ten (10) acre tract. The pond is an excavation and has no dam (*Photo 1*), although is rock lined along the lower half. The creation of the pond dried out the bog.

The pond is fed by two seasonal springs, one located in the bottom of the pond and the other located uphill about ten (10) feet from the pond. Mr. Hodges, the permit holder, pointed out the location of one other possible seasonal spring, however, it was not flowing on the day of the exam (July 18, 2001). Neither was it located where it could supply the pond; being about thirty (30) feet away and down hill from the pond. There is no stream feeding the pond. This permit states the sources of water as three (3) springs and one (1) stream. This should be changed to **two (2) springs** to reflect the findings of this exam.

The permit also states that the stream sinks. Mr. Hodges stated that early in the spring, excess water overflows the lower rock-lined bank of the pond and flows into the Middle Fork of Potlatch Creek a couple hundred yards below. I, therefore, recommend that the permit be corrected to state that the springs are **tributary to the Middle Fork of Potlatch Creek**.

A one horse-power (1HP) Cal-Pump pump recirculates the pond water through a fountain, located in the middle of the pond, and a gravel filter system, located in a box on the far side of the pond from the pump (*Photo 2*). The recirculation pump and fountain were in storage at the time of the exam.

The irrigation pump (*Photo 3*) is a one-half horse-power (½ HP) Wayne pump. It is connected to a 5/8-inch hose which is used to irrigate the lawn and garden through a variety of lawn sprinklers. Flow measurements were taken from this hose and found to be **0.02 cfs** (See Sec. D Part 2 and Sec. F) rather than 0.03 cfs as given in the permit.

The well that supplies the house is occasionally used as a supplemental source for irrigation. I was unable to positively identify the well but believe it to be identified under well permit No. 745845.

The street address given on the permit is incorrect and should read, **3395 HWY 8 E** as indicated on this report.

MICRO LINE

July 2, 2003

In summary, I recommend that the permit be corrected in the following manner to reflect the findings of this exam:

1. That the sources of water are **two (2) springs** and not three (3) springs and one (1) stream.
2. That the springs are **tributary to the Middle Fork of Potlatch Creek** and do not sink.
3. Diversion rate for irrigation should be **0.02 cfs** and not 0.03 cfs as given on the permit.
4. That the address of the permit holders is **3395 HWY 8 E**.

Have conditions of permit approval been met?

X Yes

No

F. FLOW CALCULATIONS

Measured Method:

$$\frac{5 \text{ gal.}}{33 \text{ sec.}} \times \frac{60 \text{ sec}}{\text{min}} \times \frac{ft^3 / \text{sec}}{448.83 \text{ gal / min}} \approx 0.02 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 0.5 \times 3.0 = \mathbf{1.5 \text{ afa}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.02 \times 245 \times 1.9835 \approx \mathbf{9.72 \text{ afa}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \mathbf{1.5 \text{ afa}}$$

2. Volume Calculations for Other Uses:

Irrigation Storage & Recreation Storage:

Oval pond (37' X 15') 50" deep

$$\frac{0.4\pi \left(\frac{37}{2}\right) \left(\frac{15}{2}\right) \left(\frac{50}{12}\right)}{43,560} \approx 0.0167 \approx \mathbf{0.1 \text{ AF}}$$

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use From	To	Rate of Diversion Q (cfs)	Annual Volume V (afa)
Irrigation	3/15	11/15	0.02	1.5
Irrigation Storage	1/1	12/31		0.1
Irrigation from Storage	3/15	11/15	0.02	1.5
Recreation Storage	1/1	12/31		0.1

DATE: 2/2/2013

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 86-07366

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the Northern Regional Office of the department in Coeur d'Alene at (208) 769-1450.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

FROM Debbie Gibson
TO File No. 86-7366

DATE 4/3/01

SUBJECT Changes to use.

Cal Hodges the permit holder, called me today for help filling out his Proof of Beneficial Use. It sounds to me as though the original purpose of this right has changed. The water is no longer used for irrigation, more like Aesthetics. The field examiner will need to make that determination upon exam.

PROOF DUE NOTICE

RE: PERMIT NO. 86-7366

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

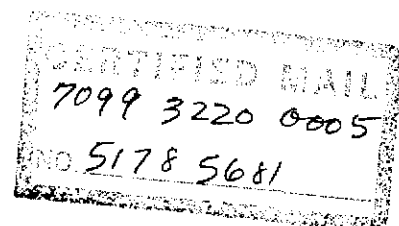

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson
Administrative Assistant

TO: File 86-07366

FROM: Kari Lynn Townsend

RE: Telephone conversation

I received a telephone call from Cal Hodges asking for the Beneficial Use form. He said that he had spoken to Shelley Keen approximately 3 weeks ago and still had not received the form.

I told him I would mail it to him today. He gave me a new address which follows:

3395 Hwy 8 E
Moscow ID 83843

He will show the new address on the B/U form that he returns to us and we can update our WR2 database when that is received.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 86-07366

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

JAN 16 2006

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Water Appropriation Application No. 86-07366

Dear Mr. and Mrs. Hodges:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the local county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State office in Boise.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

RE: Application for Permit

DWR/North

Dear Mr. Hodges:

We are returning your Application for Permit along with Receipt Number N012556 for the amount of \$50.00. *OK*

Currently, your filing is unacceptable. Please see the following items:

Item 2. We have changed "runnoff" to Unnamed streams. If the water flowing from the springs, or streams does not flow into another source of water "sinks" should be listed for the tributary. *OK cal*

Item 3. & 9. The location of the Point of Diversion and Place of Use should be listed to the nearest 40 acre tract. Please mark the enclosed map where water will be diverted and where your pond will be located. We can determine the 40 acre tracts for you, if you wish. *Time of year Specific mostly sinks*

Item 4. Based on the measurements of the pond listed on your filing we have determined that the volume is 0.02 AF (acre feet). Storage for Recreation was listed to allow the pond to be filled all year. A rate of 0.03 CFS was listed for a rate of diversion. *Great*

Please feel free to contact me at this office if you have any questions, prior to returning your filing for processing.

Sincerely,

Allen Beardslee
Sr. Water Resource Agent
