NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that City of Deary, Deary, Idaho has on June 9, 1976 submitted Application No. 86-7054 for a permit to appropriate 0.31 cubic feet per second of water from a ground water source by means of well and pump within the SE 1/4 SE 1/4, Sec. 24, T. 40 N., R. 3W., B.M., Latah County to be used from Jan. 1 to Dec. 31 for municipal purposes for the City of Deary.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, 4005 Government Way, Coeur d'Alene, Idaho 83814, on or before July 5, 1976.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE STATE OF IDAHO

IN THE MATTER OF LAPSED)
PERMIT NO. 86-7054 IN THE) **REINSTATEMENT ORDER**
NAME OF THE CITY OF DEARY)
_____)

This matter having come before the Idaho Department of Water Resources ("Department"), the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On July 12, 1977, the Department issued Permit No. 86-7054 to the City of Deary ("permit holder") authorizing the diversion of 0.31 cubic feet per second ("cfs") of ground water to be diverted for municipal use in the SESE Section 24, Township 40 North, Range03 West, B.M., Latah County. A condition of permit approval required the permit holder to submit proof of beneficial use of water ("proof") to the Department on or before August 1, 1977.

2. On May 31, 1977, the Department notified the permit holder that proof of beneficial use was due and instructed the permit holder of the steps to be taken to submit the proof or a Request for Extension of Time ("extension request").

3. On August 11, 1977, the Department sent the permit holder a lapse notice, since the Department had not received an acceptable proof or extension request.

6. On December 30, 2003, the permit holder submitted Proof of Beneficial Use with the required license examination fee to the Department. The permit holder submitted evidence to show that water has been applied to the authorized beneficial use during the development period and has shown sufficient cause why the beneficial use was not timely submitted.

CONCLUSIONS OF LAW

1. Section 42-218a.2, Idaho Code, provides as follows:

That upon receipt of proof of beneficial use after sixty (60) days after such notice of lapsing, the director shall require sufficient evidence to be submitted by the permit holder to clearly establish the extent of beneficial use made during the time authorized by the permit and any extensions of time previously approved. Upon finding that beneficial use had occurred during the authorized

period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day that proof of beneficial use was received;

2. The permit holder has provided sufficient information and reasonable cause for the Department to reinstate the permit by submitting sufficient information to show that water was beneficially used during the authorized development period.

3. The Department should reinstate the permit with the priority advanced to the date that proof and the license examination fee were received.

ORDER

IT IS HEREBY ORDERED, that Permit No. 86-7054 in the name of the City of Deary is **REINSTATED** with the priority advanced to **December 30, 2003**.

Dated this 22nd day of January, 2004.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 86-7054

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form and examination fee submitted for the above referenced permit. Enclosed is an order reinstating the permit advancing the priority since proof was submitted after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. The regional office staff will contact you when that examination is to be conducted. At the time the examination is conducted the system must be in operation, otherwise this permit will be of no force nor effect.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Northern** Regional Office of the department in Coeur d'Alene at (208) 769-1450.

Dear Mr. Haynes:

While working on the City of Deary's well head protection plan, we recently discovered that a Beneficial of Use for our second well, permit #86-7054, was never filed. I found a copy of the form with the information completed in 1976 but it evidently was never filed. Please accept the following enclosed information as proof of beneficial use:

- Uhlenkott Well Drilling well log starting July 26, 1976 and finished August 11, 1976.
- July 12, 1976 agreement that the City will pay Uhlenkott \$6,142.50 to drill a well.
- July 7, 1976 Notice of Award to Uhlenkott Well Drilling for drilling a well and test pumping.
- Council minutes:

January 1976-drilling a second well at Brush Creek was discussed.

February 1976-Marlon Brinkley and Gary Stern from DEQ were present and reviewed the proposed well site.

March 1976-Dean Weyen from Hamilton & Voeller, Inc. was present with a report on estimated cost of a second well at Brush Creek.

April 1976-Art Johnson from Hamilton & Voellner was present concerning details of the proposed new well at Brush Creek.

June 1976-Bids were opened for the new well and Uhlenkott Well Drilling's bid was accepted.

September 1976-Payment approval to Deary Mercantile for \$6,307.52 for "pump for new well".

Gentlemen:

One of the conditions of approval of your water Permit No. 86-7054 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
