PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 84-12130 Telephone No. 935-2556

2. Name of Permit Holder(s): LEWIS CLARK RESORT

3. Mailing Address: Rt 1 Box 17X

City KAMIAH State ID Zip 83536

4. Source of Water: _____ If GROUNDWATER (well), Date Drilled: mo. 05 / yr. 02

Well Driller: BURNS WELL DRILLING Drilling Permit Number: 776605

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: Commercial

6. Total rate of diversion and/or volume for which proof is submitted: 0.15 cfs OR _____ acre-feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?
Has the measuring device been installed?

Yes _____ or No X
Yes _____ or No X

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: STEVE CONANT Telephone Number: 935-2556

Address: Rt 1 Box 17X KAMIAH, ID 83536

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Linda Miller, Manager Date: 9/20/03

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 84-12130

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.state.id.us.

If you have questions, please contact the Northern Regional Office of the department in Coeur d'Alene (208) 769-1450.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 84-12130

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 01, 2003. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Administrative Assistant
Water Allocation Bureau

RE: Permit No. 84-12130

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Information written on the application for permit indicates this well is a back-up for some of the uses described. I find no other water rights on file with the department for an existing well for these uses. If this is the only recorded right you should consider amending this permit to include both wells.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

MICROFILMED
JUN 15 2004

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-5452.

Sincerely,

Sharla Curtis

Senior Water Resource Agent

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after a) the service date of a preliminary order, b) the service date of a denial of a petition for reconsideration from this preliminary order, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: October 08, 2002
To: Water Right File 84-12130
From: dgibson
Re: Permit Review

The permit is issued at .3 for each place of use since the database does not recognize .25 and automatically rounds to the next higher whole number, thus the acres approved for irrigation is now 1.8. The RV spaces have been combined to 150 RV spaces.

The applicant listed this well as a backup well for 80 RV lots. That use has been removed since the other well on this system should be included as a second point of diversion, if this well is to be a backup well. However, a telephone call to the applicant did not clarify the use or the second point of diversion. I will leave it up to the applicant to amend the permit to include the second well at a later date.

RE: Record # 1944; Proposed Well No. 2

Dear Mr. Ellis:

The Plans and Specifications for the subject project appear to meet State of Idaho standards and are approved based on the conditions listed below.

STANDARD CONDITIONS:

1. The standard conditions on the Department of Environmental Quality (DEQ) review stamp are part of this approval. This approval will expire March 29, 2003. If construction is not completed by this expiration date, plans and related documents must be resubmitted to DEQ for review and approval before further construction may proceed.
2. This approval may be rescinded if the subject project is improperly constructed, operated, or maintained; or if it fails to function as designed.
3. Any major changes or changes which would result in violations of Idaho regulations must be reviewed by this office prior to construction.
4. Construction must be done under the supervision of an Idaho registered professional engineer. Within thirty days after construction, this engineer must provide either as-built plans to DEQ, or a letter of certification to DEQ stating that the project was installed substantially according to the approved plans.

SPECIFIC CONDITIONS

1. You shall obtain and provide this office with IDWR approval for well construction prior to beginning the work.

RE: Application for Permit No 84-12130

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Cottonwood Chronicle on May 2 and 9, 2002. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Allen Beardslee
Senior Water Resource Agent

RE: Record # 1894, 1894.01, 1902; Water System Improvements; Lewis Clark Pines II Subdivision

Dear Mr. Ellis:

The Plans and Specifications for the subject project appear to meet State of Idaho standards and are approved based on the conditions listed below.

STANDARD CONDITIONS:

1. The standard conditions on the Department of Environmental Quality (DEQ) review stamp are part of this approval. This approval will expire October 26, 2002. If construction is not completed by this expiration date, plans and related documents must be resubmitted to DEQ for review and approval before further construction may proceed.
2. This approval may be rescinded if the subject project is improperly constructed, operated, or maintained; or if it fails to function as designed.
3. Any major changes or changes which would result in violations of Idaho regulations must be reviewed by this office prior to construction.
4. Construction must be done under the supervision of an Idaho registered professional engineer. Within thirty days after construction, this engineer must provide either as-built plans to DEQ, or a letter of certification to DEQ stating that the project was installed substantially according to the approved plans.

SPECIFIC CONDITIONS

1. The Pines II water system shall not be approved for connection to the existing system until the following conditions are met:

MICROFILMED

JUN 15 2004

- (a) A second well, duly approved by IDWR and this Department, is completed to provide a second supply source and is operational and connected to the L-C Park system.
- (b) An emergency operation plan is submitted that demonstrates minimum pressures in the distribution system will be maintained in case of electrical power loss.
- (c) The record drawings for Pines II show the County Record Number(s) for the utility easements needed where public water mains encroach on proposed private property.

Please don't hesitate to contact me if you have questions or comments. My phone number is 208-799-4370 and e-mail address is tmoore@deq.state.id.us.
