CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **June 01, 2008**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
5. No water shall be diverted under this right after June 15 of each year without prior written approval of the watermaster of Water District No. 67-A, Little Weiser River.
6. Diversion of water after June 15 of each year in violation of the conditions of this water right is cause for the director to cancel or revoke this water right.
7. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 67-A.

RE: Permit No. 67-14379

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

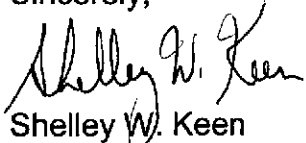

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Application to Appropriate Water nos. 67-14377, 67-14379, & 67-14380 in the name of
Leslie G. Davis

Dear Parties:

On March 18, 2003, I conducted a prehearing conference for the above applications to appropriate water. The Little Weiser Irrigation District (District) protested all three applications. Steven F. Alcock protested application no. 67-14380.

The applicant and both protestants agreed to settle the contested case provided that conditions be placed on the water right permits. The District hand-wrote its withdrawal of protest at the conference. The District agreed to withdraw its protest if the following language limits use of water under the permit:

Irrigation use of water is subject to a June 15th shut-off each year unless otherwise authorized in writing by the Watermaster of the Little Weiser Irrigation District.

After the District submitted the document, I told the District representatives that permission would only be required of the watermaster of the Little Weiser Water District not the Irrigation District. They recognized that the identity of the water district and the irrigation district is sometimes blurred in the Little Weiser River drainage, and agreed to my suggested change.

IDWR proposes the following modifications to the proposed condition in the withdrawal of protest:

No water shall be diverted under this right after June 15 of each year without prior written approval of the watermaster of the Water District no. 67-A, Little Weiser River.

July 1, 2003

Page -2-

Diversion of water after June 15 of each year in violation of the conditions of this water right is cause for the director to cancel or revoke this water right.

Steven Alcock (Alcock) agreed to withdraw his protest based on a verbal agreement that the Davis water use would not grant a right of way and that it would be subject to any prior water rights held by Alcock. I told Alcock he would need to withdraw his protest in writing, and he asked me for specific language. As a result, I wrote him a letter proposing condition language. Alcock wrote a reply letter withdrawing his protest to application no. 67-14380 provided the following language is included as conditions of the permit approval.

This right does not grant any right-of-way or easement across my land or the land of another.

This right is subject to all prior water rights.

IDWR does not feel a specific reference to "my land" is appropriate. As a result, IDWR proposes the original language of the right of way condition as follows:

This right does not grant a right-of-way or easement across the land of another.

If any of you disagree with these minor changes to the condition language, you have fourteen (14) days to object. If you object, IDWR will schedule a hearing for consideration of the protests. If you do not object, IDWR will issue permits to Leslie Davis containing the above amended conditions.

Sincerely,

Gary Spackman

MEMORANDUM

To: File nos. 67-14377, 67-14379, and 67-14380 in the Name of Leslie G. Davis
From: Gary Spackman *Gay*
Date: May 27, 2003

Re: Recommended Conditions of Approval

On March 18, 2001, I conducted a prehearing conference for the above applications to appropriate water. The Little Weiser Irrigation District (District) protested all three applications. Stevens F. Alcock protested application no. 67-14380.

The applicant and both protestants agreed to settle the contested case provided that conditions be placed on the water right permits. The District hand-wrote its withdrawal of protest at the conference. The document withdraws the protest if the following language limits use of water under the permit:

Irrigation use of water is subject to a June 15th shut-off each year unless otherwise authorized in writing by the Watermaster of the Little Weiser Irrigation District.

After the District submitted the document, I told the District representatives that permission would only be required of the watermaster of the Little Weiser **Water** District not the Irrigation District. They recognized that the identity of the water district and the irrigation district is sometimes blurred in the Little Weiser River drainage, and agreed to my suggested change.

Steven Alcock withdrew his protest to application no. 67-14380 provided the following language is included as conditions of the permit approval.

This right does not grant any right-of-way or easement across my land or the land of another.

This right is subject to all prior water rights.

Withdrawal of Protest by Little Weiser Irrigation District

Two standard conditions of approval are similar to the condition written by the Little Weiser Irrigation District:

086 - No water shall be diverted under this right after June 15 of each year without prior approval of the watermaster.

087 - Diversion of water after June 15 of each year in violation of the conditions of this water right is cause for the director to cancel or revoke this water right.

MICROFILMED

SEP 18 2003

The stipulated condition is most like standard condition no. 086, but requires written approval of the watermaster and identifies the District within which the watermaster serves.

I suggest the following modifications to standard condition no. 086 to incorporate the intent of the agreement:

No water shall be diverted under this right after June 15 of each year without prior written approval of the watermaster of the Water District no. 67-A, Little Weiser River.

I also recommend the inclusion of standard condition no. 087 in its entirety.

I believe if we make these changes, Little Weiser Irrigation District and Davis should be apprised of the changes before the amended language becomes a condition in a permit. I would be happy to write the letter.

Withdrawal of Protest by Steven F. Alcock of 67-14380

Steven Alcock (Alcock) agreed to withdraw his protest based on a verbal agreement that the Davis water use would not grant a right of way and that it would be subject to any prior water rights held by Alcock. I told Alcock he would need to withdraw his protest in writing, but he asked me for specific language. As a result, I wrote him a letter proposing exact standard condition language. As you can see by his withdrawal of protest, he added additional language to the standard right-of-way condition stating that the permit would not grant a right-of-way on his ("my") property.

I suggest we include the language of the standard condition without accepting the amendment offered by Alcock. I believe we must also communicate with Alcock despite the minor effect of the change. I am happy to write a letter to Alcock prior to permit approval.

**NOTICE OF PREHEARING
CONFERENCE**

On July 26, 2002 Leslie &/or Kathleen Davis filed with the Idaho Department of Water Resources (IDWR) an application for permit to appropriate the public waters of the State of Idaho. The application was protested by Stevens F. Alcock and Little Weiser Irrigation District.

IDWR has scheduled a prehearing conference for the protest to be held on **Tuesday, March 18, 2003 at 2:00 p.m. at the US Forest Service, 500 E. Whitely Avenue, Council, Idaho 83612.** The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Procedure of the Department of Water Resources, and Rules 40 and 45 of the adopted Rules of Water Appropriation of the Department of Water Resources.

The conference will be conducted in a facility that satisfies the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the conference, please advise IDWR at least ten (10) days prior to the conference.

Dated this 16th day of January 2003.

CONFERENCE AND HEARING PROCEDURE

APPLICATION FOR PERMIT

Section 42-203A, Idaho Code, requires the department to consider the following issues in connection with an application for permit:

- 1) Will the proposed appropriation injure other water rights?
- 2) Is the proposed water supply sufficient for the purpose for which it is sought to be appropriated?
- 3) Was the application made in good faith or for delay or speculative purposes?
- 4) Does the applicant have sufficient financial resources with which to complete the proposed project?
- 5) Is the proposed appropriation in the local public interest, which is defined as the affairs of the people in the area directly affected by the proposed use?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

BURDEN OF PROOF

The applicant has the initial burden of proof on issues 1, 2, 3, 4, & 6 above and must provide evidence for the department to evaluate these criteria.

The initial burden of proof on issue 5 above lies with both the applicant and protestant as to factors which they are most knowledgeable and cognizant. The applicant has the ultimate burden of persuasion, however, for this issue.

PROCEDURE

The department generally conducts an informal conference with the parties to determine the issues and to try to settle a protested matter before a hearing is scheduled. If a hearing is held, the department will issue a written decision based on the hearing record.

MICROFILMED
SEP 16 2003

CONFERENCE

The purpose of a prehearing conference is to provide the opportunity for the parties and the department to familiarize themselves with a contested matter and to attempt to resolve the matter. At the conference, the department may also formulate and simplify the issues, identify documents to avoid unnecessary proof, exchange proposed exhibits or prepared testimony, limit witnesses, discuss settlement offers, schedule hearings, establish procedure at hearings and address other matters that may expedite orderly conduct and disposition of the proceeding or its settlement.

HEARING

The department will tape record the hearing. Copies of a hearing tape are available upon written request and the payment of the cost of reproducing the tape.

The hearing likely will be conducted by a hearing officer appointed by the Director rather than the Director himself. If so, the hearing officer will prepare a recommended order for the Director's consideration. Parties can file exceptions to a recommended order, briefs in support of the exceptions or may request oral argument. Parties may seek judicial review of any final order issued by the Director.

Parties may, by written stipulation, waive their right to a recommended order, particularly when a shortened decision process is desirable or necessary. Such a waiver does not eliminate any rights of the parties in connection with the final order of the Director and judicial review of the order.

EXHIBITS

A party who plans to offer an exhibit as part of the hearing record must provide a copy of the proposed exhibit to the parties and to the hearing officer prior to any scheduled hearing.

AMERICANS WITH DISABILITIES ACT

Any hearing scheduled will be conducted in a facility that meets the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the hearing please advise the department within ten (10) days prior to the hearing.

Dear Sir;

The Little Weiser Irrigation District, acting through the Board of Directors, hereby protests applications 67-14383 by Mark Wagner and 67-14379 and 67-14380 by Leslie G Davis. We have previously filed a protest on application 67-14377. These applications are to appropriate irrigation, storage and stock water in Adams County from tributaries to the Little Weiser River.

This protest is because existing adjudicated irrigation water rights already exceed the natural flows of the Little Weiser River and it's tributaries during the normal irrigation season. Approval of this application would further over-obligate available stream flows and increase demands by existing irrigation rights for stored water in C. Ben Ross reservoir.

For the foregoing reason, the Board of Directors of the Little Weiser Irrigation District requests that applications 67-14383, 67-14379 and 67-14380 be denied. Our fee of \$75.00 (\$25.00 per application protested) is enclosed.
