

MEMORANDUM

Date: April 11, 2007
To: Water Right File 57-11691
From: Shelley Keen
Re: Overlapping Surface Water Right

Snake River water right 2-10311 is also appurtenant to the place of use for this right. This morning I spoke with the applicant, Alan Davis, about his plans for Right 2-10311. He said the right is a portion of an older licensed right. The neighbors between him and the river are not allowing him access to the river to divert and convey water. Because he cannot access the river, I told Mr. Davis that IDWR would not require use of the surface water right as his primary irrigation water source. He understands that the Snake River right may be forfeited if he does not use it.
