WATER RIGHT LICENSE

WATER RIGHT NO. 47-08002

Priority: May 29, 1985

Maximum Diversion Rate: 1.90 CFS
Maximum Diversion Volume: 29.5 AF

This is to certify, that RALPH SCHNELL
BOX 122

ROGERSON ID 83302 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 29, 1985; and has submitted Proof of Beneficial Use on June 14, 1989. An examination indicates that the works have a diversion capacity of 3.790 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	01/01 to 12/31	0.40 CFS	29.5 AF
FISH PROPAGATION	01/01 to 12/31	1.50 CFS	
	Totals	1.90 CFS	29.5 AF

LOCATION OF POINT(S) OF DIVERSION: NESWSW , Sec. 14, Township 14S, Range 15E
TWIN FALLS County

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.

WATER RIGHT NO. 47-08002

CONDITIONS/REMARKS:

2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.
6. Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 5G.
7. The volume of water authorized to be diverted for fish propagation purposes shall not exceed that required for a non-commercial, recreational fishery. Constant diversion for this purpose requiring a surface flow discharge of effluent from the pond is not authorized.
8. The total combined rate of diversion under this right and Right 47-07749 shall not exceed 3.79 cfs.
9. Fish ponds facility volume = 486,000 cubic feet.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 21st day of JUNE, 1994.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 47-08002 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.
6. Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 5G.
7. The volume of water authorized to be diverted for fish propagation purposes shall not exceed that required for a non-commercial, recreational fishery. Constant diversion for this purpose requiring a surface flow discharge of effluent from the pond is not authorized.
8. The total combined rate of diversion under this right and Right 47-07749 shall not exceed 3.79 cfs.
9. Fish ponds facility volume = 486,000 cubic feet.

APPLICATION FOR PERMIT

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant Ralph Schnell Phone 655-4276

Post office address Box 122 - Rogerson, Idaho 83302

2. Source of water supply groundwater which is a tributary of _____

3. Location of point of diversion is NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 14 Township 14S

Range 15E B.M. Twin Falls County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 1.50 for Fish Prop purposes from Jan 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount .40 for Livestock purposes from Jan 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

Allow 1.90 cfs per total of above amounts. kw 12/3/85

a. --1.94--* cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. _____

artesian well, casing, Existing facilities (3) ponds. (100' x 50') (40' x 60') (60' x 60')

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 20" inches; proposed depth of well is 2525 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year - maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation: Fish Prop
(1) Give the place of use of water: NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 14 Township 14S
SW NW
Range 15E B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered 2000 Range _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____

(5) If water is to be used for other purposes describe: _____

RECORDED

FEB 08 1989

This topographic map depicts a section of the Colorado Plateau, featuring a grid system with horizontal and vertical lines. The map includes several key features:

- Geographic Features:**
 - Jarvis Road:** A prominent road running vertically through the center of the map, labeled "JARVIS ROAD" in several places.
 - Jarvis Bridge:** A bridge crossing Jarvis Road, labeled "JARVIS BRIDGE".
 - Contours:** Dashed lines representing elevation contours, with labels such as 4900, 4920, 4940, 4960, 4980, and 5000.
 - Spot Elevations:** Numerous numerical values indicating specific elevations, including 4893, 4909, 4929, 4931, 4952, 4956, 4965, 4987, 4995, and 5000.
 - Other Labels:** "LATERAL" is written twice, and "ROAD" appears multiple times.
- Grid System:**
 - Horizontal Grid:** Labeled with numbers 5, 6, 7, 8, 11, 12, 13, 14, 17, and 18.
 - Vertical Grid:** Labeled with letters A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z.
- Other Markings:**
 - A large "X" is drawn on the map, possibly indicating a specific location or feature.
 - A small "well" is labeled near the bottom right.
 - A north arrow is located in the upper right quadrant, pointing towards the top of the map.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 47-8002, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 19 91.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other:
 - Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
 - Consumptive use of water under this permit shall not exceed 2.0 acre feet per day.
 - Measuring devices of a type approved by the Department shall be permanently installed and maintained at the point of diversion and the point of effluent discharge.
 - Assignment or sale of this permit is subject to a determination by the Department that the permit holder has proceeded to develop the permit with due diligence and without speculation.
 - Return flow if discharged to a subsurface system must be authorized by a separate injection well permit, and return flow if discharged to a surface water system shall meet Idaho Water Quality Standards.
 - Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 32F.
 - If it is shown that the well constructed for this right is causing sub-surface waste or contamination, the Department may require that the well be abandoned or modified.
 - The maximum rate of diversion under this permit shall not exceed 1.90 cfs.

Witness my hand this 8th day of December, 1988.

RE: WATER RIGHT NO. 47-08002

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion and the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 14 days.

If you do not concur with this information, please contact me as soon as possible.

Sincerely,

A handwritten signature in black ink, appearing to be 'Jim Johnson', written over a horizontal line.

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Grainland Flow Meter	Impeller			11799	10.25"	

2. Measurements:

Measured 170 average x 10 = 1700 gpm = 3.79 cfs. Allow amounts applied for.

See Exgm file 47-7749 for data on flow meter.

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

2. Alternate Method for Checking Purposes:

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3); Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ _____

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ _____

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$ _____

2. Volume Calculations for Other Uses:

1300 range of 12 gpd/hd + 1200 of 8 gpd/hd = 26400 gpd = 29.6 AFA

RECEIVED
JUL 26 1994

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Maximum head size has been 1200 calves & 1300 adults, = 2200 range.

$2200 \times .00022 \text{ cfs/hd} = 0.48 \text{ cfs}$. Allow 0.40 cfs applied for.

Not to exceed 3.77 cfs when combined with Lic, 47-7749.

Well maintains water level in ponds. This is not a flowing-water situation as in most fish-propagation facilities. There is no effluent discharge. Water was not flowing into the ponds during the examination. Ditch feeding the ponds was not measured, as the well produces much more than the permitted amount. Mr. Schnell stated that the ponds do a good job of maintaining their water levels.

Ponds were not photographed but are shown on aerial photo & USGS map.

Ponds are for private recreation, not for commercial production.

Well flowed under artesian pressure when first drilled, but must now be pumped.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Fish Propagation	1-1	12-31	1.5	486,000 cu.ft.
Stockwater	1-1	12-31	0.40	29.6
Totals:			1.9	29.6

2. Recommended Amendments

☒ Change P.D. as reflected above

☐ Add P.D. as reflected above

☐ None

☐ Change P.U. as reflected above

☒ Add P.U. as reflected above

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 47-08002

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please be advised that your plans for fish propagation may be subject to regulations of the Idaho Department of Fish and Game. We suggest that you check with them before starting construction.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Rights Permits Section

SUBJECT Well Seal

According to the driller, Elsing (see his letter of 1/20/86), this well is cased and sealed to 1180'. Elsing indicates pressure grouting to 1180'.

I suggest the water right include the condition:

bt "If it is shown that the well constructed for this right is causing sub-surface waste or contamination, the Department may require that the well be abandoned or modified."

Re: Application for Permit No. 47-8002

Dear Mr. Schnell:

On January 6, 1986, you contacted me relative to my letter of December 18, 1985 (copy enclosed).

To date, I have not yet received an amended well drilling report for your well in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 14, T14S, R15E. Upon receipt of the amended report, the department can further consider your pending water right application.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation

Dear Sir:

The following corrections should be made to the well log
of Ralph Schnell. The well was finished in September, 1984.
It was located in the E¹/₄ SW¹/₄ Sec. 14, T. 14S, R. 15E. 2

Correction:

Surface seal depth 60 ft.

All casings were pressure grouted with
pure cement.

Sincerely,

Arnold Elsing

Re: Application for Permit No. 47-8002

Dear Mr. Schnell:

The above-referenced application for permit has been forwarded by our Twin Falls office to this office for final review. A review of the well log for the existing well shows a total depth of 2525 feet. The well log also shows that the surface seal depth around the casing is 20 feet. If the seal is truly only 20 feet in depth, the well construction does not meet minimum well construction standards for artesian flows of water.

Enclosed is a copy of Rule 4 of the Department's rules and regulations for well construction which describes sealing requirements.

The Department will withhold final action on Application No. 47-8002 until the question of the well seal for your well has been clarified.

Please provide this office with any information you may have if different from the information shown on the well log in order that the Department may further consider the pending application. You may wish to contact the driller relative to the well seal information.

Also feel free to contact this office if you have questions.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

RE: 47-8002 (Existing Well)

Dear Mr. Elsing:

The enclosed well log submitted in 1982 indicates that the well was not finished. Did you do additional work on the well and if so, what was performed?

Also, the log indicates a 20 ft. surface seal. Was any cement used between the casing strings? If so, please provide a sketch or description of the well construction.

Sincerely,

A handwritten signature in cursive script, reading "John E. Beal", is written over the typed name.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

In order to receive payment, an affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

Mary A. Newby

Re: Application for Permit No. 47-8002

Dear Mr. Schnell:

Our office has finished processing your application for permit No. 47-8002. Since you plan to use the water for fish propagation purposes, the following items must be submitted for inclusion with your application before it can be forwarded for final action by the Director:

- 1) A plan of the proposed facility. This must be a scale drawing showing the proposed layout of the ponds on the property and giving length, width, and depth dimensions of all ponds.
- 2) Proof of possessory interest in the land upon which the water is to be used. This may be in the form of a copy of a warranty deed, title of sale, lease agreement, or tax notice giving ownership and legal description of the property.

We request that you submit these items to our office by August 15, 1985.

If you have questions regarding this matter, please feel free to contact this office.

Very truly yours,

Mary A. Newby
Sec/Office Coord.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before JULY 1, 1985.

Yours truly,

Mary R. Newby
Secretary

Encl.
