Department of Water Resources
Eastern District Office

Dear Mr Jones,

I will answer your questions to the best of my ability.

The proposed well is located approximately $\frac{1}{4}$ mi SW of the well we drilled before. The location is drawn on the back page of your letter. I marked the new well in red & the old one in Blue. There are no other existing wells or springs within a mile of our well.

We will be drilling a 16 in well with a cable tool drill & there will be NO impact on any other water rights.

We will be irrigating from the middle of May thru sometime when harvest is due in August & will use approximately 4.8 cfs per annum depending on weather situations.

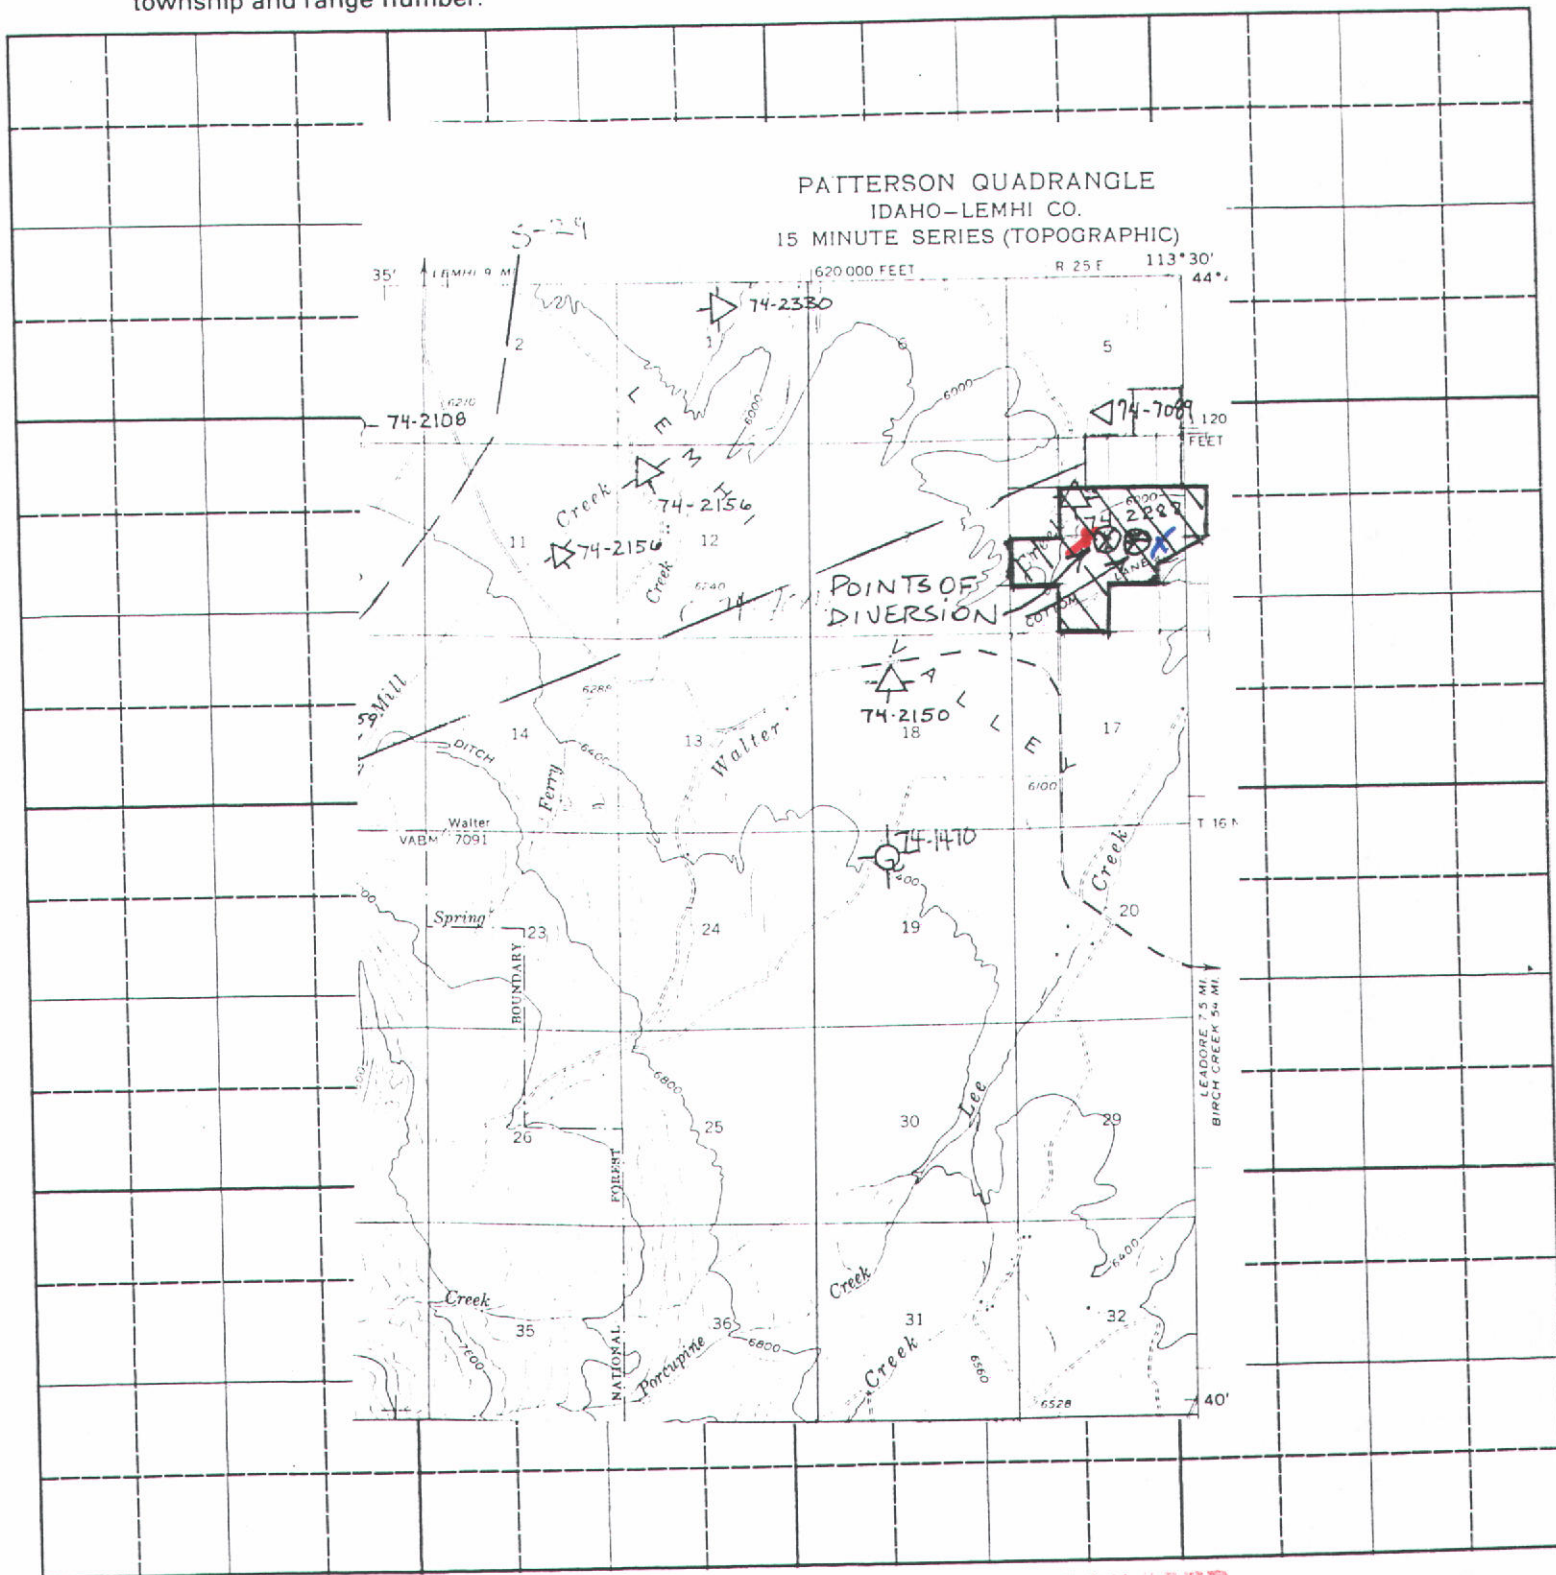

The property of the aquifers is on 6.2 m which we are filing final plat for this fall.

The estimated cost of the well if we hire it done would be approximately \$17,000.00. However, my husband is doing the work, so the cost will be greatly reduced.

If you have any further questions - let me know.

Sincerely,
Wanda Uey

(Applicant)

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 74-07290

IN THE NAME OF WANDY UDY

)
) ORDER OF
) REINSTATEMENT
)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before July 1, 1991; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

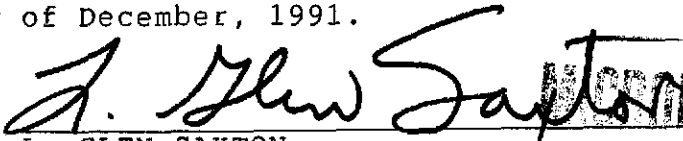

WHEREAS, the Department notified the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on November 25, 1991;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 74-07290 be REINSTATED with an advance in priority to October 18, 1990.

Dated this 9th day of December, 1991.

L. GLEN SAXTON
Chief, Water Allocation Bureau

DEC 30 1991

State of Idaho
Department of Water Resources
Permit To Appropriate Water

NO. 74-07290

Proposed Priority: May 24, 1990 Maximum Diversion Rate: 4.80 CFS

This is to certify, that **WANDA L. UDY**
P.O. BOX 184
LEADORE, ID 83464

has applied for a permit to appropriate water from: **GROUNDWATER**
and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	04/01 to 11/01	4.80 CFS

LOCATION OF POINT(S) OF DIVERSION:

NESW	Sec. 8, Township 16N, Range 25E
NWSE	Sec. 8, Township 16N, Range 25E
	LEMHI County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

			NESW 40	NWSW 40	SESW 38	
			NESE 10	NWSE 40		288

Total number of acres irrigated: 288

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 1991.
2. Subject to all prior water rights.
3. A flow measurement port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
4. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
5. The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
6. This permit is filed in connection with DLE filing #I-13750.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this

12th day of February, 1991.

FROM: KEITH C WILSON

May 16, 1997

TO: FILE 74-07290

RE: MEASUREMENT EXAM & FIELD EXAM

ON 10 SEPTEMBER 1991, AT THE REQUEST OF BLM I CONDUCTED A MEASUREMENT ON THE POINT OF DIVERSION FOR 74-07290. STEPHANIE SNOOK FROM THE SALMON BLM OFFICE ACCOMPANIED ME ALONG WITH DAVID UDY.

THE SYSTEM WAS STARTED UP AT ≈0850 HRS. MEASUREMENT WAS NOT POSSIBLE WITH THE COX-HALL METER BECAUSE THE MANOMETER WOULD NOT EQUALIZE. PRESSURE ON THE SYSTEM WAS FLUCTUATING FROM 16 TO 19 PSI.

DURING THE MEASUREMENT I TOLD DAVID UDY THAT I WAS NOT CONDUCTING A FIELD EXAM ON 74-07290 SO HE WOULD STILL NEED TO SUBMIT PROOF OF BENEFICIAL USE WHICH WAS DUE ON JULY 1, 1991.

SINCE THE DATE TO PROVIDE PROOF OF BENEFICIAL USE WAS JULY 1, 1991, & I HAD JUST COMPLETED A MEASUREMENT OF THE SYSTEM I OBTAINED AN AERIAL PHOTO (ASCS OFFICE SALMON) TO DETERMINE THE ACRES ON THE PLACE OF USE. AT 1415 HRS I RETURNED TO THE PLACE OF USE WITH THE AERIAL PHOTO. THE SYSTEM WAS STILL, AT THAT TIME, PUMPING WATER. BY THE TIME (@ 1515 HRS) I HAD COMPLETED A REVIEW OF THE PLACE OF USE, THE DIESEL MOTOR WAS STILL OPERATING THE GEAR DRIVE FOR THE PUMP, BUT NO WATER WAS COMING OUT OF THE SPRINKLERS.

ON 12 MAY 1997, I CALLED THE BLM OFFICE TO ASK ABOUT THE STATUS OF THE DLE. STEPHANIE SHOOK WAS NOT IN THE OFFICE THIS WEEK, AND THE INDIVIDUAL I TALKED WITH (GLORIA) COULD NOT DETERMINE THE STATUS.

KEITH C WILSON
SENIOR RESOURCE AGENT

Item C.1.

System Description

74-7290

Flow Calculations:

Assume Flow THROUGH NOZZLE AT 100% EFFICIENCY

$$Q_{cfs} = AV = \frac{\pi d^2}{4} \sqrt{2gh} = \frac{\pi (\frac{d}{12})^2}{4} \sqrt{2g(PSI \times 2.308)}$$

A = area
d = diameter in inches
g = 32.2 ft/sec²
h = head =

$$Q_{cfs/nozzle} = 0.0665 d^2 \sqrt{PSI}$$

Line #1 5 - 5/32" nozzles, at 18.5 psi average pressure (PSI x 2.308)

$$Q_{cfs/nozzle} = 0.0665 \left(\frac{5}{32}\right)^2 \sqrt{18.5} = 0.00698 \text{ cfs/nozzle}$$

$$Q_{cfs} = (5 \text{ nozzles})(0.00698 \text{ cfs/nozzle}) = 0.0349 \text{ cfs} \\ = 15.67 \text{ gpm}$$

Line #2 30 - 5/32" nozzles, at 19.0 psi average pressure

$$Q_{cfs/nozzle} = 0.0665 \left(\frac{5}{32}\right)^2 \sqrt{19} = 0.00707 \text{ cfs/nozzle}$$

$$Q_{cfs} = (30 \text{ nozzles})(0.00707 \text{ cfs/nozzle}) = 0.212 \text{ cfs} \\ = 95.28 \text{ gpm}$$

$$\text{Total } Q_{cfs} = 0.0349 \text{ cfs} + 0.212 \text{ cfs} = 0.2469 \text{ cfs} \approx 0.25 \text{ cfs}$$

$$\text{Total } Q_{gpm} = 15.67 \text{ gpm} + 95.28 \text{ gpm} = 110.95 \text{ gpm}$$

$$\text{Total } Q_{cfs} = 0.25 \text{ cfs}$$

$$Q_{gpm} = 110.95 \text{ gpm}$$

74-7290

Flow Calculations: (cont.)

According to Mr. Jensen, before the clutch went bad the previous system would run 50 sprinklers.

∴ If 35 sprinklers produced 110.95 gpm, determine flow rate for 50 sprinklers. Assume pressure (average) is the same for 35 sprinklers as for 50 sprinklers.

$$\frac{50 \text{ sprinklers}}{35 \text{ sprinklers}} = \frac{x \text{ gpm}}{110.95 \text{ gpm}}$$

50 sprinklers would produce 158.5 gpm

$$Q = 158.5 \text{ gpm} = 0.35 \text{ cfs}$$

74-7290

ANALYSIS:

Acres cultivated at time of exam = 60 ac

Measured $Q_{35} = 0.25 \text{ cfs}$ (110.95 gpm)

Calculated $Q_{50} = 0.35 \text{ cfs}$ (158.5 gpm)

@ One (1) miners inch/acre (0.02 cfs/ac) irrigated acres:

Acres irrigatable @ $Q_{35} = 0.25 \text{ cfs} / 0.02 \text{ cfs/ac} = 12.5 \text{ acres}$

@ $Q_{50} = 0.35 \text{ cfs} / 0.02 \text{ cfs/ac} = 17.5 \text{ acres}$

@ One-half ($1/2$) miners inch/acre (0.01 cfs/ac) irrigatable acres:

Acres irrigatable @ $Q_{35} = 0.25 \text{ cfs} / 0.01 \text{ cfs/ac} = 25 \text{ acres}$

@ $Q_{50} = 0.35 \text{ cfs} / 0.01 \text{ cfs/ac} = 35 \text{ acres}$

@ Current flow rate (0.25 cfs) the rate/acre:

$$\frac{0.25 \text{ cfs}}{60 \text{ ac}} = 0.004166 \text{ cfs/ac}$$

$$\# \text{ miners inch per acre} = (0.004166 \text{ cfs/ac}) \div (0.02 \text{ cfs/ac})$$

$$= 0.208 = 0.21 \text{ miners inch per acre}$$

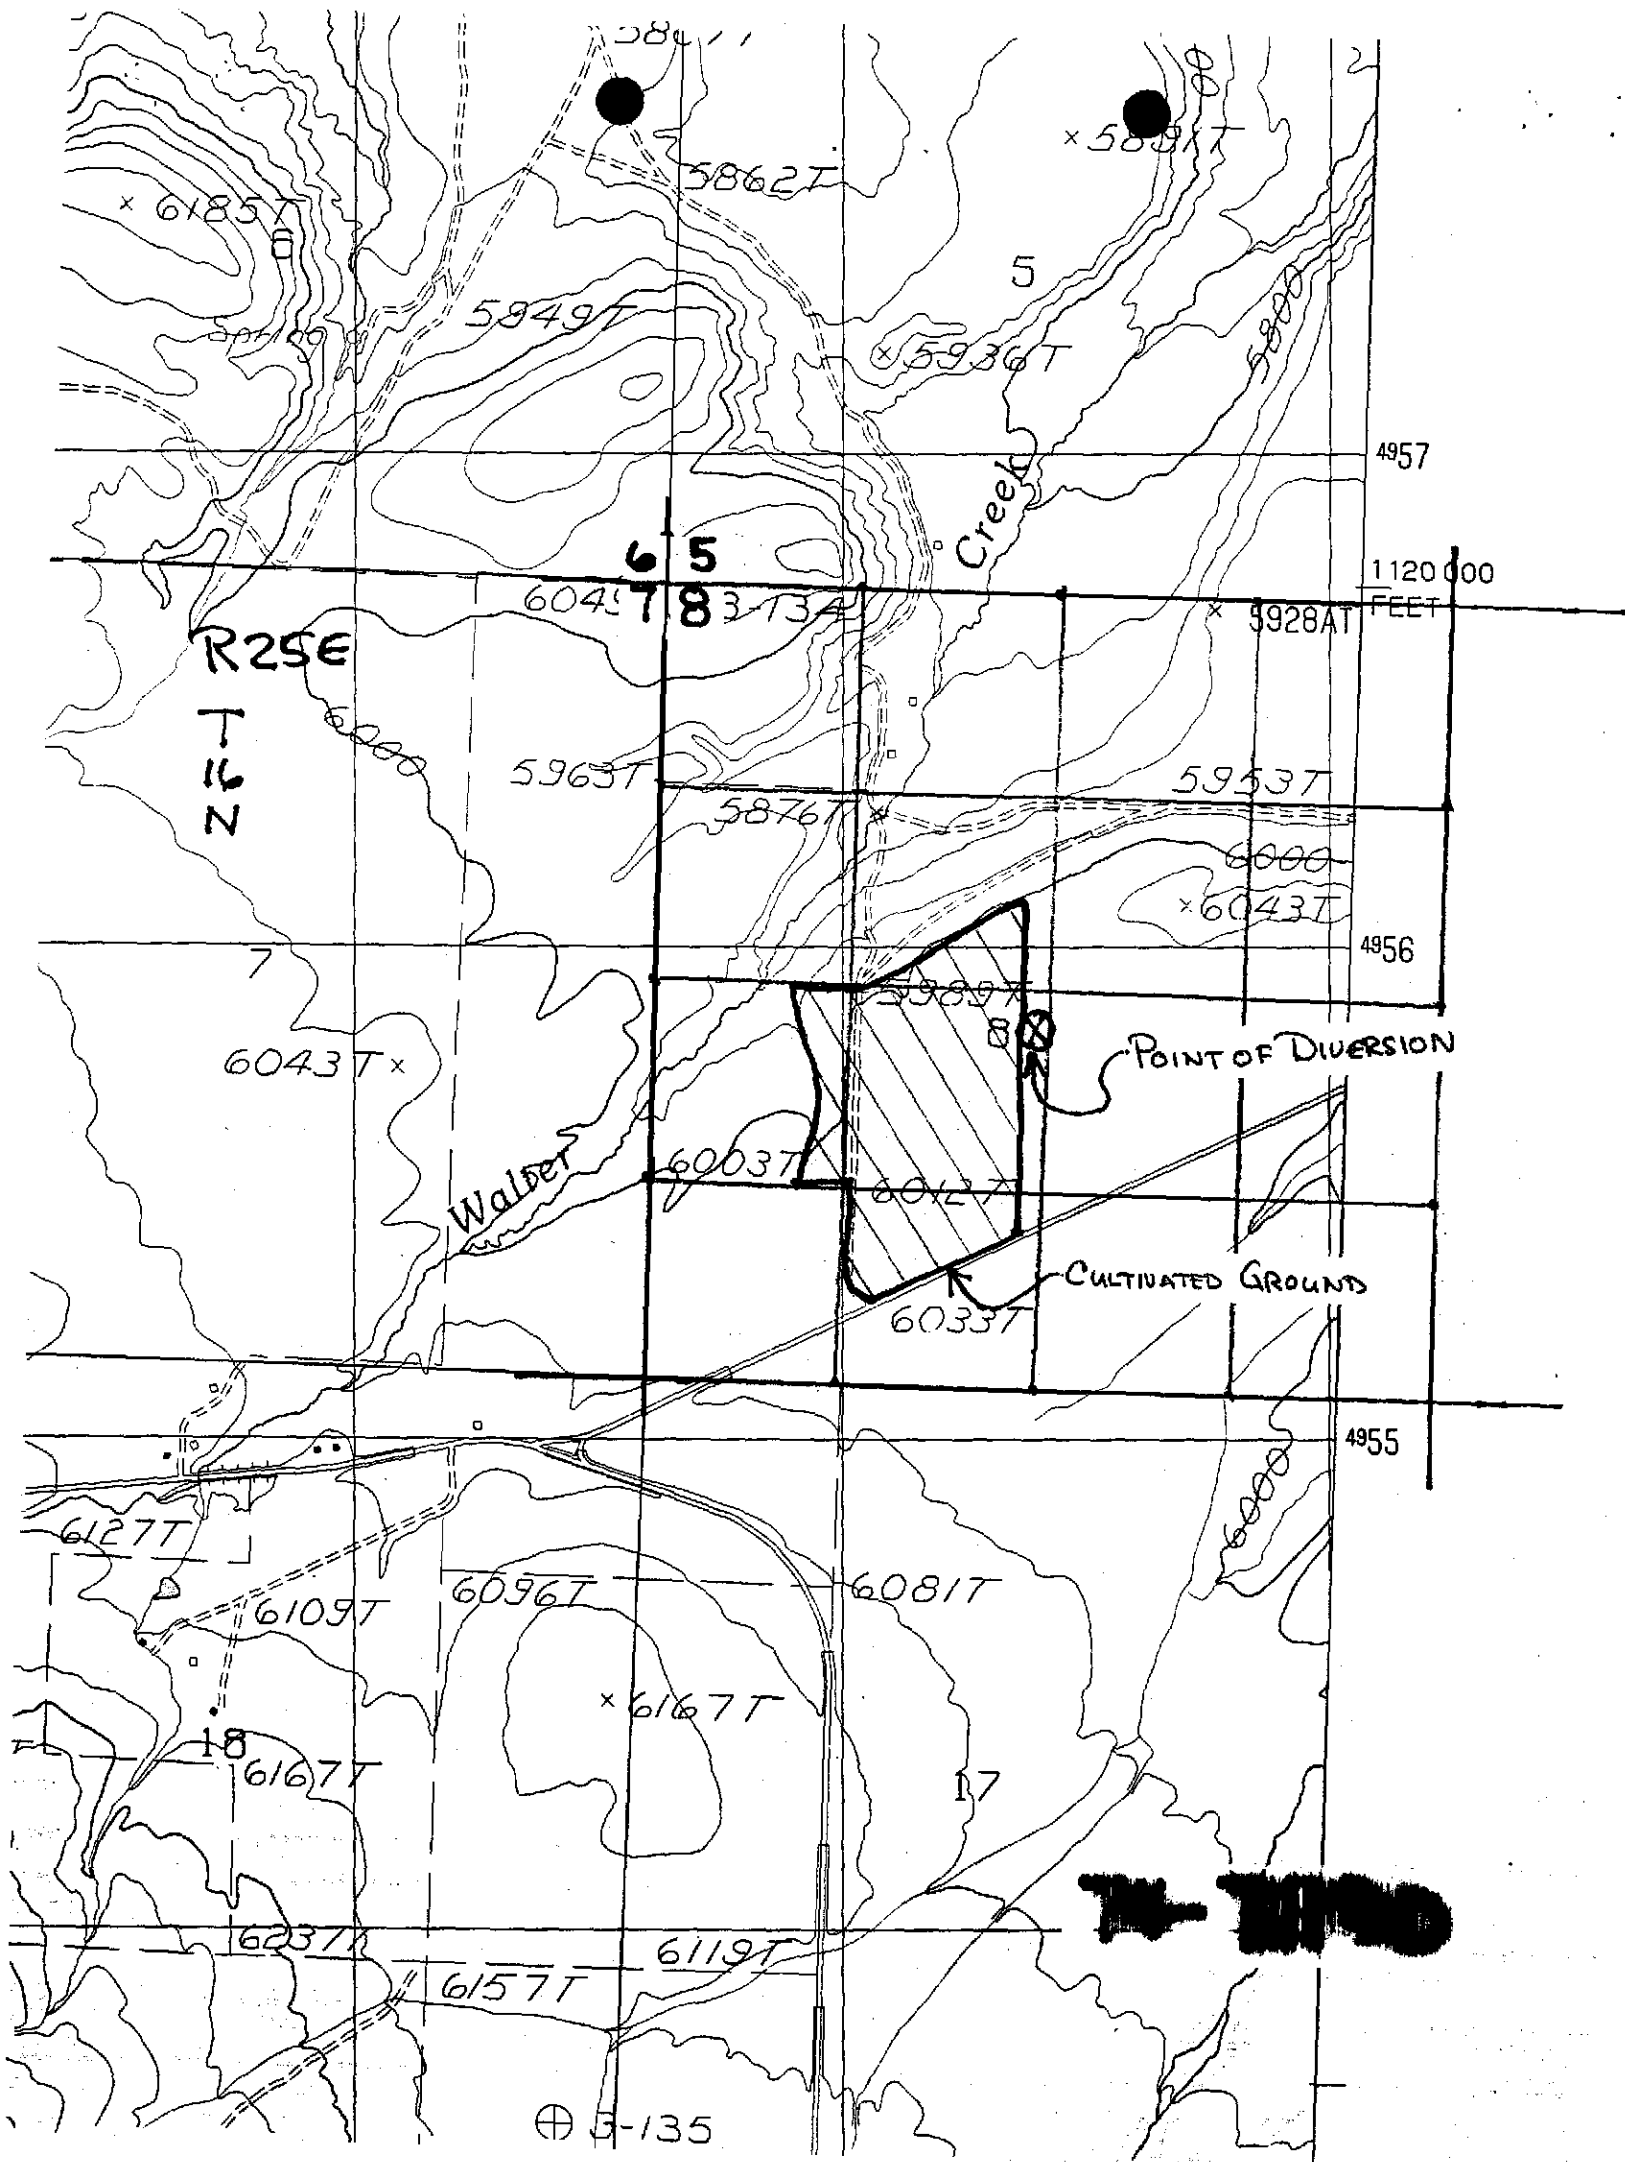

@ Calculated flow rate (0.35 cfs) the rate/acre:

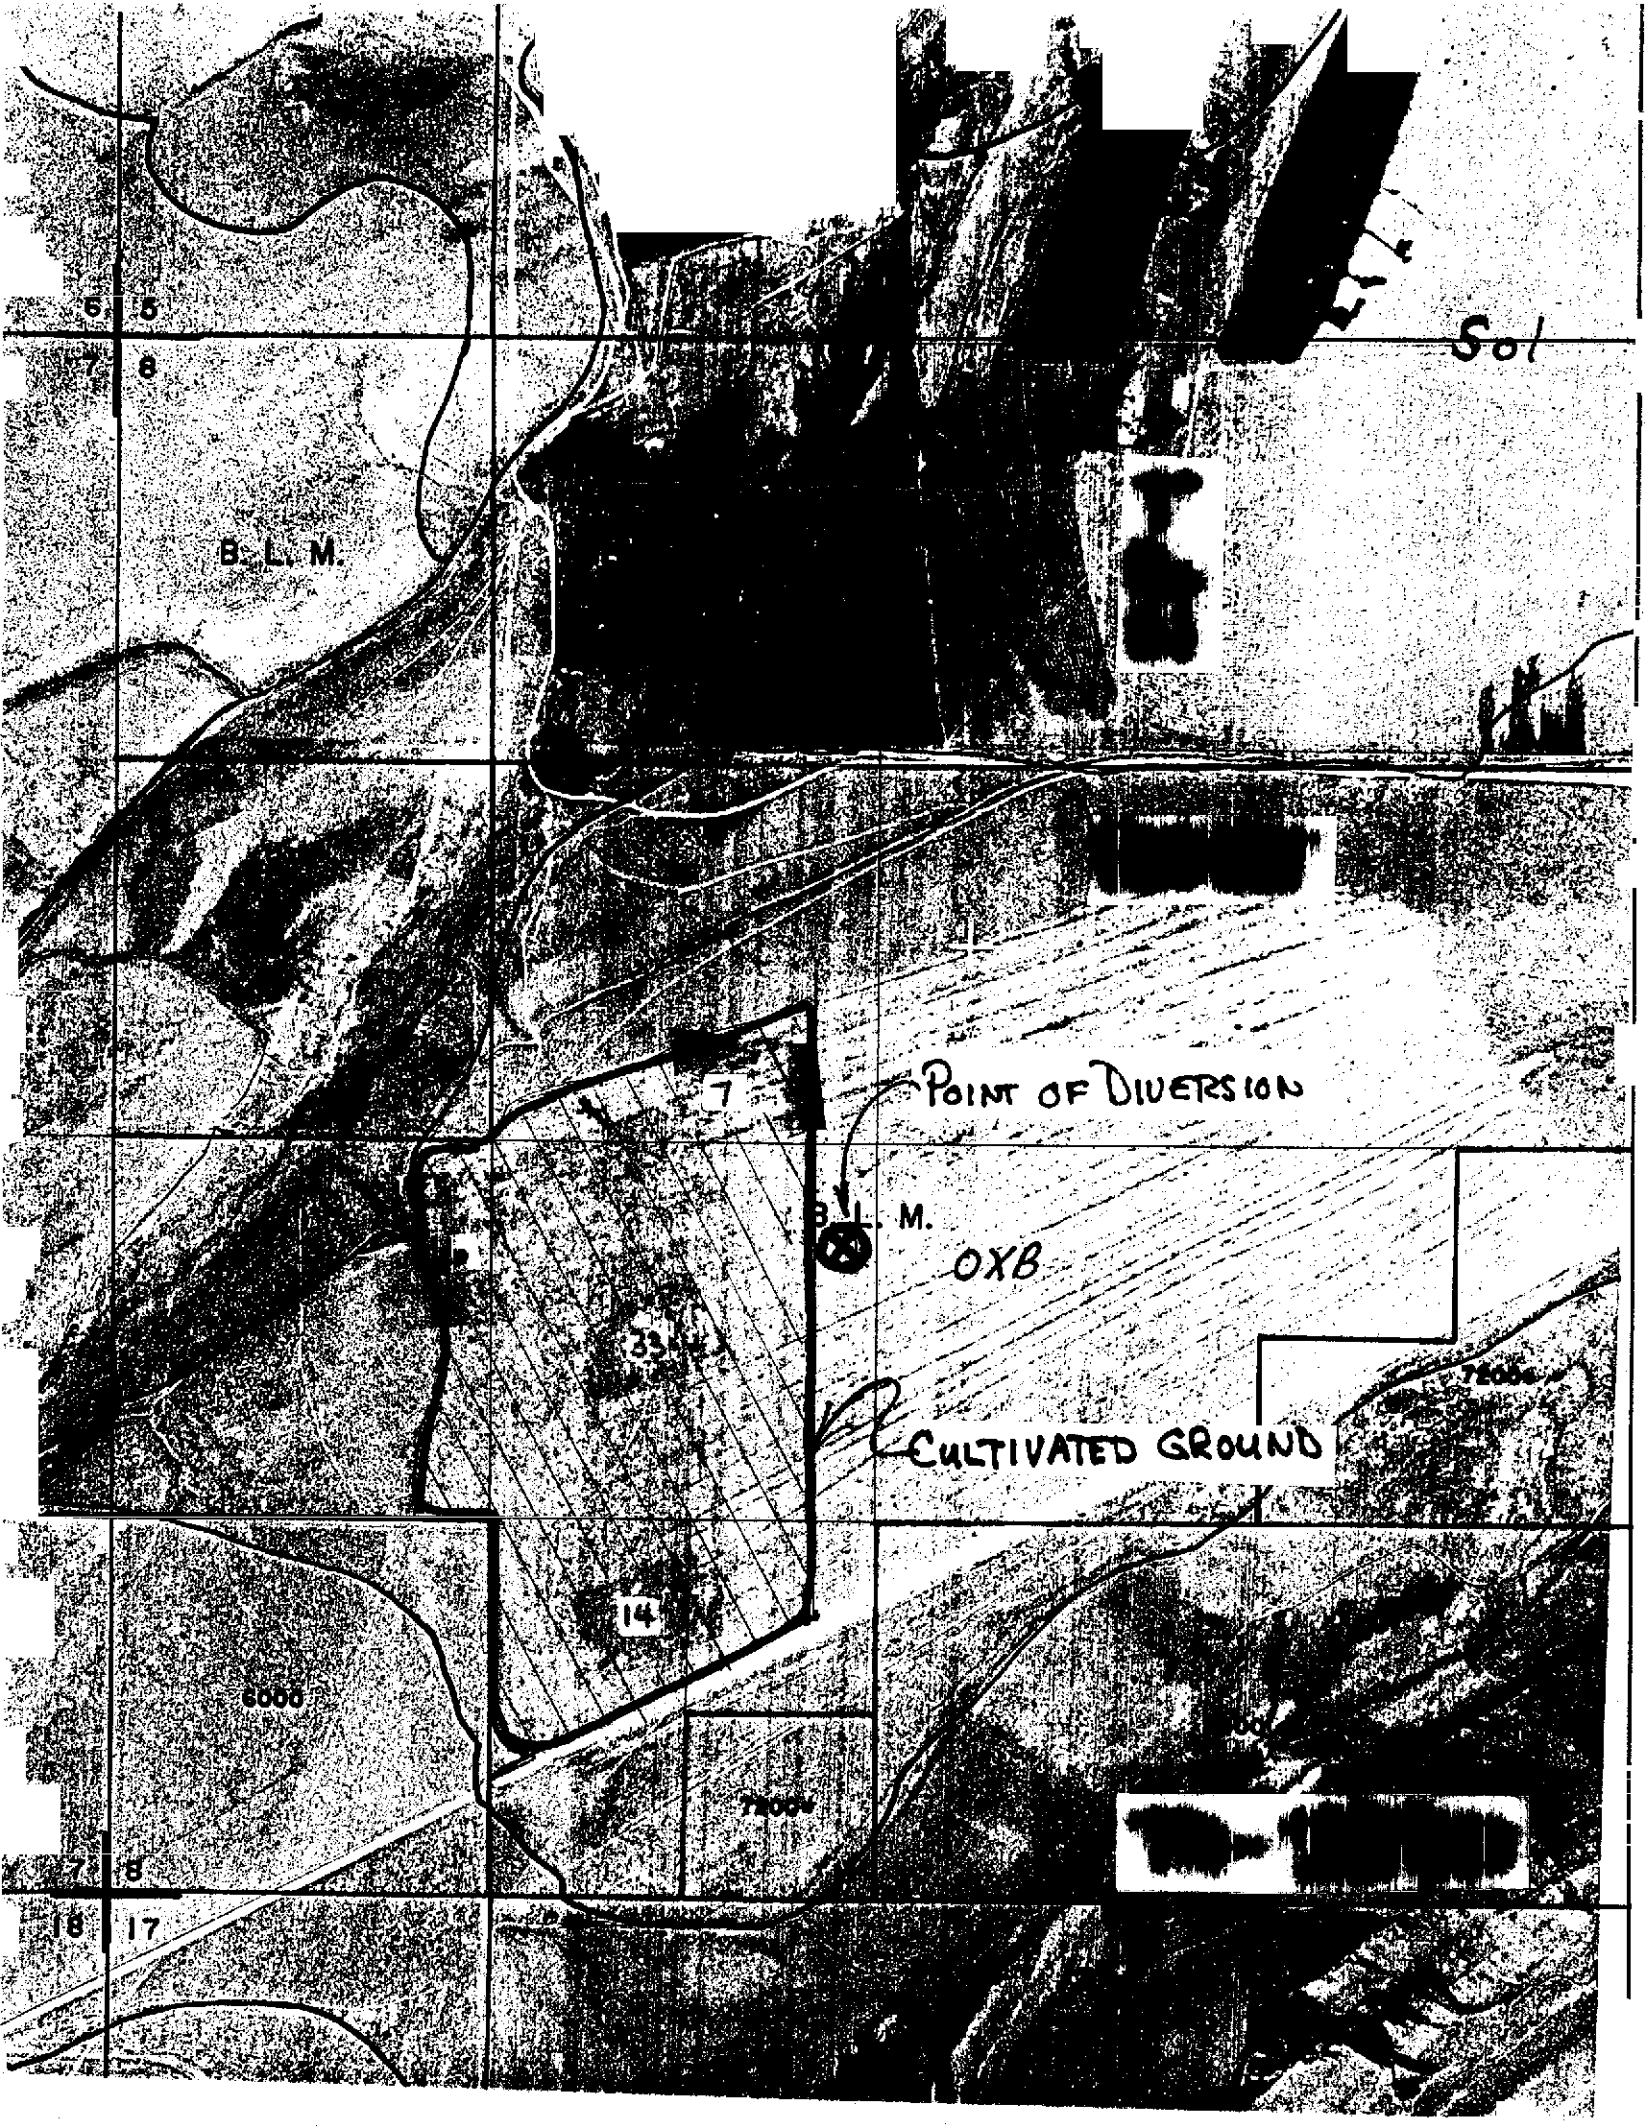

$$0.35 \text{ cfs} / 60 \text{ ac} = 0.005833 \text{ cfs/ac}$$

$$\# \text{ miners inch per acre} = (0.005833 \text{ cfs/ac}) \div (0.02 \text{ cfs/ac})$$

$$= 0.291 = 0.29 \text{ miners inch per acre}$$

MEMORANDUM

To: Keith Wilson
From: L. Glen Saxton *LS*
RE: FIELD EXAM - 74-7290 - UDY
Date: February 28, 1992

I have looked for the field report information you forwarded to this office in November 1991 and have not been able to locate it. The water right file does contain some information, however, that may allow you to reconstruct the field report without actually going to the field again.

Information which may assist you includes the following:

- You and Stephanie Snook of the BLM in Salmon conducted the exam on September 19, 1991
- You determined that the rate of flow being diverted was about 0.25 cfs and that a maximum of about 60 acres were being irrigated.

United States Department of the Interior

BUREAU OF LAND MANAGEMENT

IMPORTANT DOCUMENT ENCLOSED

PATENT NO. 11-92-0004

Boise Meridian, Idaho

T. 16 N., R. 25 E.,

sec. 8, NE $\frac{1}{4}$ SW $\frac{1}{4}$.

Containing 40.00 acres.

RECEIVED

JAN - 8 1992

Mrs. Wanda L. Udy
P. O. Box 184
Leadore, Idaho 83464

Department of Water Resources
Eastern District Office

Dear Mrs. Udy:

We are happy to transmit to you the enclosed patent for the land described above.

This is the original document conveying title to the described land from the United States. We strongly recommend that this document be recorded in the county recorder's office for the county in which the lands are located for the purpose of preservation.

Sincerely,

Jerry L. Kidd
Deputy State Director for Operations

Enclosure

cc:

Lemhi County Assessor

✓DM, I-4

The United States of America

To all to whom these presents shall come, Greeting:

IDI-13750

WHEREAS

Wanda L. Udy

is entitled to a land patent pursuant to the Desert Land Act of March 3, 1877, as amended and supplemented; 43 U.S.C. 321, et seq., for the following described land:

Boise Meridian, Idaho

T. 16 N., R. 25 E.,
sec. 8, NE $\frac{1}{4}$ SW $\frac{1}{4}$.

Containing 40.00 acres.

NOW KNOW YE, that there is, therefore, granted by the UNITED STATES, unto the above-named claimant the land above described; TO HAVE AND TO HOLD the said land with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, thereunto belonging, unto the said claimant, her successors and assigns, forever;

EXCEPTING AND RESERVING TO THE UNITED STATES:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States. Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.
2. All the oil and gas in the land so patented, and to it, or persons authorized by it, the right to prospect for, mine, and remove such deposits from the same upon compliance with the conditions and subject to the provisions and limitations of the Act of July 17, 1914, 38 Stat. 509, as supplemented; 30 U.S.C. 121-124.

SUBJECT TO those rights for road purposes granted to Robert Carlson, his successors or assigns, by Right-of-Way No. IDI-20170, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

IN TESTIMONY WHEREOF, the undersigned authorized officer of the Bureau of Land Management, in accordance with the provisions of the Act of June 17, 1948 (62 Stat. 476), has, in the name of the United States, caused these letters to be made Patent, and the Seal of the Bureau to be hereunto affixed.

GIVEN under my hand, in Boise, Idaho
the NINETEENTH day of NOVEMBER
in the year of our Lord one thousand nine hundred and
NINETY-ONE and of the Independence of the
United States the two hundred and SIXTEENTH

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 74-07290

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 74-7290 Telephone No. 768-2483
2. Name(s) of Permit Holder(s): Wanda L. Udy
3. Post Office Address: Box 184 - Leadore, Idaho 83464
4. Source of Water: Well Dept Water Resources - Idaho Falls
 (permission by Dennis Dunn)
- a. If ground water, well driller's name: David Udy Date drilled: July 1, 1991
- b. Pump horsepower: 50 Pressure (psi): 35 Dynamic pumping level (ft.): 170
5. Extent of Use:

Domestic _____ (No. of households)

Irrigation 40 (No. of acres)

Stockwater _____ (No. and type of stock)

Other _____

6. Total rate and/or volume for which proof is submitted 0.25 cfs _____ acre/feet see report from Keith Wilson
12/9 11/29/91
7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? Yes ☒ No Installed? Yes ☐ No

OR

Flow Measurement Port: Required? Yes ☒ No Installed? Yes ☐ No

8. Fee Enclosed: \$ 100.00 (See License Examination Fee Schedule)

9. Person to contact to accompany the Department representative during the field examination: completed by Keith Wilson Dept of Water Resources
Wanda L. Udy Name Telephone No. _____

Address _____

10. The above information is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the state of Idaho.

MEMORANDUM

To: Karen
From: Glen *JS*
RE: PROOF SUBMITTAL - 74-7290
Date: November 29, 1991

I called Eastern Region to find out what was going on with this file, since the policy of the department is to not conduct a field examination until the permit holder files an acceptable with us.

As it turns out, the development is in connection with a Desert Land Entry and the BLM asked the department to look at the development with them and to determine the rate of flow.

The region measured the rate of flow as 0.25 cfs and determined that a maximum of about 60 acres were being irrigated. Apparently there is a problem with well construction.

There is enough information on the exam to make a flow calculation but in general I prefer not to do this since the calculation seldom is close to what the actual output is.

Whatever the region determined or wrote down in connection with their field trip to the well should not be considered as the required field examination which the department conducts after proof is filed.

Let's accept the proof if otherwise acceptable and show 0.25 cfs on the proof form. We should show our initials and date when we change something on a document or add something such as the rate on the proof so we will have some record of the change and/or addition. Another way to document changes and/or additions to a file is to write a memo to the file.

Boise, Idaho 83720 - 9000

Dear Mr. Saxton:

Re: Permit No. 74-7290

On September 19, 1991, Mr. Keith Wilson, from the Dept. Of Water Resources, and Stephanie Snook, from the BLM office came out to the well for a field examination. Mr. Wilson's instruments were not working properly that day, but he thought that he could get a fairly good estimate.

The clutch on the motor that ran the pump was out the day that Mr. Wilson was to be there, so we set up a temporary engine that was belt driven. The belts were slipping so we were unable to pump the volume of water that we had been pumping. When Mr. Keith Wilson left, he stated that he would submit a copy of his report to Mr. Dennis Dunn, from the Dept. of Water Resources in Idaho Falls, and that Mr. Dunn would send us a copy. To date we have not received a copy of this report.

I talked to Stephanie Snook from the BLM office and she showed me a copy of the report that Mr. Keith Wilson had sent her. It stated that we could irrigate approximately 40 acres. This was based on the information that he found in his field examination.

I am sending in a proof of Beneficial Use Form based on the information I saw in this report.

Sincerely,

Wanda L. Udy

Dear Ms. Udy:

Re: Permit No. 74-7290

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time to our letter of July 1, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

Your permit cannot be reinstated unless you submit the proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal including the examination fee or a completed field examination report or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 74-07290

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

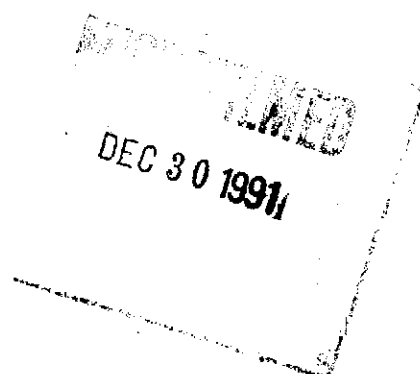

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

This Permit is

APPROVEDDate June 18, 1990

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

IF THE WELL FOR ANY REASON CANNOT BE UTILIZED BENEFICIALLY, THEN THE OWNER SHALL BE RESPONSIBLE FOR PROPERLY ABANDONING THE WELL AND SHALL CONTACT THE DEPARTMENT PRIOR TO COMMENCING SUCH ABANDONMENT.

MAR 21 1991

MEMORANDUM

TO: File No. 74-7290
FROM: Gary Spackman *Gary*
DATE: December 27, 1990

RE: Approval of the Application

Application for permit to appropriate water no. 74-7290 was filed by Wanda L. Udy after a proof of beneficial use for a prior water right filing, permit no. 74-7166 was found to have been fraudulently filed because the permit holder had not developed the property as represented.

The Department approved an expedited drilling permit because the applicant's DLE entry authorization expired in September, 1990.

I had hoped that BLM would not extend the period of time for entry, and that the application could be voided from our records. A BLM decision dated December 14, 1990, grants an extension of time until June 30, 1991. The extension of time states that the irrigation system must be fully installed and operable so that all of the irrigable land can be irrigated.

I prefer not issuing this application, but cannot find a legal reason to do so. I propose we approve the application, but require that proof be submitted to the Department on or before July 1, 1991. I also request that Eastern Region conduct the field examination as soon thereafter as possible.

RE: Water Rights Filed by David V. Udy and Wanda L. Udy

David and Wanda Udy in Leadore, Idaho have requested expedited approval of their drilling permits. For purposes of refreshing your memory, I will sketch our past involvement with the Udys. Dennis Dunn responded to a report of an illegal well being drilled in the Leadore area, and upon investigation, found that a well was being drilled by a member of the Udy family who was not licensed as a well driller. Furthermore, a drilling permit had not been obtained. After receiving the report from Dennis, I checked for possible water rights, and discovered a permit for which proof of beneficial use had been filed. The proof form stated that irrigation was complete, when in fact, no irrigation had occurred. Udys were told that they must file for a water right, and obtain a drilling permit following the filing for a water right. They were scheduled to visit Dennis Dunn in the Eastern Regional office, but instead showed up at Western Region, and asked for two drilling permits without explaining any of the history to the Western Regional staff. As a result, drilling permits were issued to Udys. Rob Whitney felt that they had misrepresented facts in order to obtain the drilling permits.

Once we discovered the issuance of the drilling permits, we attempted to contact Mr. Udy. By coincidence, Udy visited the state office to find whether he had passed a drillers license examination. At that time, I asked him to surrender the previously issued drilling permits, and told him that he must file applications to appropriate water. I also told him that he must file new drilling permit applications.

Udys have requested expedited approval of their drilling permit applications. Eastern Region has informed me that the Udy applications for permit have just been reviewed, and will be prepared for advertisement on approximately June 21, 1990.

Udys are seeking to drill their wells immediately because they have been granted entry to the proposed place of use which expires on September 1, 1990. I have been told by Dennis Dunn, and also by BLM, that an entryman must show that an irrigated crop is being grown and is likely to be harvested from the property prior to the date set for final development.

MAR 21 1991

no staged development requirement for DLE projects.

I do not understand how Udys can complete their project by September 1, 1990. Natural sagebrush still grows on the land, and they must clear the land, break it up, drill a well, establish a distribution system, and plant a crop that must be harvestable this year. All of this activity must be complete by September 1, 1990.

The most likely supply of power for operation of the wells is a diesel motor.

At least with respect to the Wanda Udy drilling permit, Dennis Dunn has represented that all of the surrounding land is marginal pasture ground for cattle, which will not qualify for a growing harvestable crop. He seriously doubts whether Udys will be able to develop the parcel that Wanda Udy is seeking to drill a well on.

The David Udy parcel may be a more viable parcel, because it is already partially developed.

I do not believe that Udys can develop the property pursuant to their DLE entry approval. I do not have cause, however, to refuse issuance of the drilling permits. I recommend that we issue the drilling permits, but require that construction be completed before September 1, 1990. In addition, I suggest that we ask Eastern Region to expedite processing of the applications, and that we set proof due date, if possible, on or about September 1, 1990. I do not believe our approval should be the springboard for a plea with BLM to grant some extension if it is available.

DECISION

Wanda L. Udy

:
:
:

Desert Land Entry

Extension of Time Granted

On November 27, 1990, the above-named entryman made application for an extension of time within which to make final proof on desert land entry, IDI-13750.

The request has been examined and considered, and the reasons given appear to be adequate to justify an extension of time.

Pursuant to the Act of April 30, 1912, (37 Stat. 106; 43 U.S.C. 334) an extension until June 30, 1991, from the date final proof would have been due is hereby granted. Final proof will, therefore, be due on June 30, 1991. No further extensions of time beyond the one hereby granted should be contemplated by the entryman.

Substantial compliance with your plan of irrigation and reclamation will be required at the time of final proof. The irrigation system must be fully installed and operable so that all of the irrigable land can be irrigated. You will probably be required to have your irrigation system in operation at the time our district personnel make their field inspection for final proof compliance.

RE: Application for Permit to Appropriate Water No. 74-7290

Dear Ms. Udy:

In May, 1990, you filed an application to appropriate water with the Department of Water Resources, proposing to drill a well in Lemhi County for the purpose of irrigating 288 acres. At that time, the Department issued a drilling permit, numbered 74-90-Z-007. The drilling permit was issued prior to approval of the application for permit on the basis that approval from BLM for desert land entry would expire in September, 1990, and you needed to complete the work prior to the expiration of your entry approval.

As part of the application process, Harold Jones of our Eastern Regional office requested, on August 23, 1990, that you submit information required by our rules and regulations for any application proposing irrigation of more than 200 acres. You submitted some information but there are other items in the rules you must submit.

1. The Department has been informed that you have not satisfied BLM entry requirements. Please submit copies of approvals from BLM that allows you to continue development of your DLE. By this question, the Department is not encouraging BLM to extend your entry approval. This application will not be approved unless you can show that you are presently authorized by BLM to enter the lands and irrigate them.

2. Please submit a current financial statement showing that you are able to finance the construction and completion of the proposed project.

RECEIVED

MAR 21 1991

Upon satisfactory submittal of the above listed information, the Department will act on your application. Failure to submit the information within thirty (30) days, however, will result in the voiding of your application, and refusal to issue a permit.

Respectfully,

GARY SPACKMAN, Manager
Water Right Permits Section

Department of Water Resources
Eastern District Office

Dear Mr Jones,

I will answer your questions to the best of my ability.

The proposed well is located approximately $\frac{1}{4}$ mi SW of the well we drilled before. The location is drawn on the back page of your letter. I marked the new well in red & the old one in blue. There are no other existing wells or springs within a mile of our well.

We will be drilling a 16 in well with a cable tool drill & there will be NO impact on any other water rights.

We will be irrigating from the middle of May thru sometime when harvest is due in August & will use approximately 4.8 cfs per annum depending on weather situations.

The proximity of the aquifers is **MICROFILMED** ^{1 m} which we are filing final **MAR 21 1991** this fall.

The estimated cost of the well if we hire it done would be approximately \$17,000.00. However, my husband is doing the work, so the cost will be greatly reduced.

If you have any further questions - Let me know.
Sincerely,
Wanda Lee

Mr Jones,

*Dennis Dunn has been out to this
property several times & we have gone over
these same questions with him, so maybe
he can help you answer any questions you
may otherwise need.*

Thanks,

Wanda Udy

He has also seen the drill.

RECEIVED

MAR 21 1991

which to submit the information upon request by the applicant and upon a showing of good cause.

Failure to submit the required information within the time period allowed will be cause for the director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. The director will provide opportunity for hearing as provided in Section 42-1701A, Idaho Code.

- 4,5,2. For protested applications or protested permits being reprocessed, the information required by Rule 4,5,3. may be requested by the director to be submitted within 30 days after notification by the director, may be made a part of the record of the hearing held to consider the protest, or may be made available in accordance with any pre-hearing discovery procedures.

Failure to submit the required information within the time period allowed will be cause for the director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late.

- 4,5,3. Information to be submitted

The following information shall be submitted for applications to appropriate unappropriated water or trust water and for permits being reprocessed for trust water. The additional information submittal requirements of this rule are waived for filings which seek to appropriate five (5) cfs or less or storage of five hundred acre-feet (500 A-F) or less and for filings seeking reallocation of trust water which the director determines will reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than 200 acres will be irrigated. However, the director may specifically request submittal of any of the following information for any filing, as he determines necessary.

- 4,5,3,1. Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows:
- 4,5,3,1,1. For applications appropriating springs or surface streams with 5 or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted.
- 4,5,3,1,2. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all

existing wells and springs and permitted wells within a one-half mile radius of the proposed well.

- 4,5,3,1,3. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights.
- 4,5,3,2. Information relative to sufficiency of water supply, Section 42-203A(5)(b), Idaho Code, shall be submitted as follows:
 - 4,5,3,2,1. Information shall be submitted on the water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that water is required, and the volume of water that will be consumptively used per year.
 - 4,5,3,2,2. Information shall be submitted on the quantity of water available from the source applied for, including, but not limited to, information concerning flow rates for surface water sources available during periods of peak and average project water demand, information concerning the properties of the aquifers that water is to be taken from for ground-water sources, and information on other sources of supply that may be used to supplement the applied for water source.
- 4,5,3,3. Information relative to good faith, delay, or speculative purposes of the applicant, Section 42-203A(5)(c), Idaho Code, shall be submitted as follows:
 - 4,5,3,3,1. The applicant shall submit copies of deeds, leases, easements or applications for rights-of-way from federal or state agencies documenting a possessory interest in the lands necessary for all project facilities and the place of use or if such interest can be obtained by eminent domain proceedings the applicant must show that appropriate actions are being taken to obtain the interest. Applicants for hydropower uses shall also submit information required to demonstrate compliance with Sections 42-205 and 42-206, Idaho Code.
 - 4,5,3,3,2. The applicant shall submit copies of applications for other needed permits, licenses and approvals, and must keep the department apprised of the status of the applications and any subsequent approvals or denials.
- 4,5,3,4. Information Relative to Financial Resources, Section 42-203A(5)(d), Idaho Code, shall be submitted as follows:
 - 4,5,3,4,1. The applicant shall submit a current financial statement certified to show the accuracy of the information contained

MAR 21 1991

therein, or a financial commitment letter along with the financial statement of the lender or other evidence to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the beneficial use proposed.

- 4,5,3,4,2. The applicant shall submit plans and specifications along with estimated construction costs for the project works. The plans shall be definite enough to allow for determination of project impacts and implications.
- 4,5,3,5. Information Relative to Conflict with the Local Public Interest, Section 42-203A(5)(e), Idaho Code, shall be submitted as follows:
 - 4,5,3,5,1. The applicant shall seek comment and shall submit all letters of comment on the effects of the construction and operation of the proposed project from the governing body of the city and/or county and tribal reservation within which the point of diversion and place of use are located, the Idaho Department of Fish and Game, the Idaho Department of Health and Welfare, Division of Environment, and any irrigation district or canal company within which the proposed project is located and from other entities as determined by the director.
 - 4,5,3,6. The following information Relative to the Public Interest Criteria of Section 42-203C(2), Idaho Code, shall be submitted by an applicant seeking reallocation of trust water for a project which the director determines will reduce the flow of the Snake River by more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than 200 acres will be irrigated. The director may request any or all of the following information for any filing seeking the reallocation of trust water.
 - 4,5,3,6,1. A project design and estimate of cost of development shall be submitted. For applications appropriating more than 25 cfs, or 10,000 AF of storage, or generating more than 5 megawatts, the information shall be prepared and submitted by a qualified engineer licensed under the provisions of Chapter 12, Title 54, Idaho Code, unless waived by the director. The design shall be definite enough to reflect the project's impacts and implications as required in subsequent rules.
 - 4,5,3,6,2. If the project proposes development for irrigation purposes, information shall be submitted on crop rotation, including acreages, for lands when newly developed.
 - 4,5,3,6,3. Information shall be submitted concerning the number and kinds of jobs that will be created or eliminated as a direct result of project development, including both the

RE: Application for Permit No. 74-07290

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Recorder-Herald on JULY 5 & 12, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
