Dear Sir:

I have reference to the Bureau of Land Management letter of Feb. 9, 1966, advising me that certain desert land had been classified as suitable for entry upon a further showing of the availability of irrigation water and that I should first obtain a State water appropriation permit from your office before I begin any well drilling.

This letter is a request for that permit. Also, BLM has requested a copy of the drill permit sent to their office.

We have contacted a well driller in the area, Ron Hiddleston, Rupert, who is now drilling $\frac{1}{4}$ mile from this property. He has agreed to move to our property when he finishes his present job if we can get the permit in time. Will you please expedite this permit.

Thank you.

Sincerely,

RULON RAMSEY

Subject: License Action on 61-2188

A review of the information concerned in licensing 61-2188 is listed below:

1. Proof of beneficial use was due February 17, 1971.
2. Proof of beneficial use was filed February 16, 1971.
3. Inspection was made May 24, 1971. Cancellation recommended.
No use in last 3 years.
4. Cancellation notice sent May 22, 1972, deadline July 2, 1972.
5. Memo June 14, 1972, Mr. Poteet stated beneficial use had been made and objected to cancellation notice.
6. Affidavit September 6, 1972.
330 - 3/16" nozzles on 220 acres in 1967 and 1968.
7. Statement:
5/32" nozzles at 85 p.s.i.
(Note: system was later changed to reduce pressure
and increase efficiency.)
8. Affidavit June 12, 1972.
330 - 3/16" nozzles at 6 g.p.m. on 220 acres in 1967.
330 - 3/10" nozzles at 6 g.p.m. on 210 acres in 1968.
9. Aerial photo showing 163.8 acres minimum being irrigated in
1968. (SCS photo May 9, 1969)

A review of the Rainbird sprinkler specifications indicate a 5/32" nozzle at 85 p.s.i. would deliver over 6 g.p.m. Also, a 3/16" nozzle operating at a lower pressure, 60 p.s.i., would easily deliver 6 g.p.m. The reason for the change from 5/32" to 3/16" was to reduce the high pressure problems.

I recommend that the license be issued based on these statements, affidavits, memos and SCS photo as follows:

Department of Water Administration

Department of Water Administration
Camp 2 Station
Base, Idaho

Gentlemen -

I am writing to confirm the amount of water that was used on the Herbert Potet farm near the Mt Home Air Base, Blaine County, during 1967 and 1968.

In 1967 I farmed the ground and used two two-water systems and two hand lines that used 1980 gpm through 330 $\frac{3}{16}$ " nozzles. I farmed about 220 acres.

The following year I'm Potet used 10 hand lines using the same total gpm (1980) through 330 $\frac{3}{16}$ " nozzles.

This land has not been farmed since 1968.

O Mr. Herbert W. Poteet

Rupert, Idaho 83350

Dear Mr. Poteet:

P We are in receipt of the affidavit submitted by Mr. Raddekopp, describing the amount of water used under the above numbered permit. We wish to advise you, however, that this will not suffice our requirements for a field examination for licensing purposes. We will need to know how you determined the rate of flow from each nozzle to be six (6) gallons of water per minute and the number of acres irrigated in each 40 acre tract. This information should be supported with aerial photos from the local SCS office, if at all possible.

Y Sincerely,

File No 61-2188

Gentlemen:

This letter will confirm the amount of water used on Mr. Herb Potett's farm in Blaine Co. near Mt. Home Ida in 1967 & 1968. He irrigated his beets the last time for harvest near the middle of November 1968. Since then the farm has been idle.

In 1967 Richard Johnson irrigated the place with two Trimeatic sprinkler systems and two hand lines. This constituted 330 $3\frac{1}{16}$ " nozzles each producing 6 g.p.m. or a total of 1980 g.p.m. He farmed 220 acres in potatoes.

In 1968 Herb Potett farmed 210 acres and used 10 hand lines with 330 $3\frac{1}{16}$ " nozzles @ 6 g.p.m. each or 1980 g.p.m.

I have lived neighbors to these two farmers for many years and know the above information to be correct.

Mr. Poteet was in the office on June 8, 1972, in reference to the above numbered permit. He indicated that the well as described in this permit had, in fact, pumped enough water to irrigate approximately 240 acres of beets and potatoes during the irrigation season of 1969 and 1970. He also indicated that he could get affidavits from qualified individuals to prove the amount of development that took place during 1969 and 1970, as well as substantiate water measurements, so that the Department could license that portion of the project that has already been completed.

Dear Mr. & Mrs. Poteet:

It appearing to the Department of Water Administration that the terms and conditions of Permit 32740/61-2188 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit adequate proof of beneficial use of water,

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before July 2, 1972, why said permit should not be cancelled.

Permit 32740/61-2188 claims the use of 6.4 cubic feet per second of water from a ground water source, the point of diversion was to be located within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ & NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 24, Twp. 4 S, Rge. 5 E, B. M. and the permit was approved February 17, 1966.

One of the conditions of the approval of your Permit No. G-32740/61-2188 was that proof of application of the water to beneficial use be submitted to this office on or before February 17, 1971.

Enclosed is an affidavit form which must be used to submit proof of beneficial use. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended.

Either the proof affidavit or a request for extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Mr. and Mrs. Herbert W. Poteet

Dear Mr. and Mrs. Poteet:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

On September 21, 1966, the above entryman(assignor) was allowed desert land entry, Idaho 017023, on the following lands:

T. 4 S., R. 5 E., Boise Mer., Idaho
Sec. 24: E₁

On February 14, 1967, the entryman (assignor) filed a deed assigning all of his right, title and interest in the entry to the assignee named above. The assignee has filed an affidavit showing that he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so far as the record shows. However, this office does not attest to the full compliance with the desert land laws as presently reflected by the case record.

The Secretary, Department of the Interior, has set out certain criteria which are now applicable to each entryman. As the assignee is now the entryman of record these criteria are applicable to him. The entry must be reclaimed for his own benefit; the entry may not be assigned to a corporation; the entryman may not, before receiving patent, enter into any arrangement to transfer title to the land after patent is issued; the entryman may not enter into any arrangement which has the effect of permitting anyone to hold more than 320 acres of desert entry land; and the entryman must expend his own money on the necessary irrigation, reclamation and cultivation of the entry or incur a personal liability for any money so expended.

The assignment is hereby approved and the records of this office are noted to show that the assignee is the entryman for the lands assigned under the above-identified desert land entry. The remaining compliance to be met on this entry and the due dates are shown below:

NOTICE OF ALLOWANCE

Mr. Rulon Ramsey
200 East Baseline
Rupert, Idaho 83350

SEP 21 1966

Dear Mr. Ramsey:

Your Desert Land Entry, Serial No. Idaho 017023,
Receipt No. 107443, for E4

Section 24,

Township 4 S., Range 5 E., Boise Meridian, Idaho, containing 320 acres, is hereby allowed, subject to any valid existing rights and your further compliance with laws and regulations applicable thereto. The acceptability of final proof is contingent upon development and reclamation of the land in accordance with your plan of development which is on file in the Boise Land Office. Any substantial change in source of water or deviation in the construction of the irrigating facilities must have the approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 320 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to the Act of July 17, 1914, which will require the reservation of all oil and gas deposits to the United States.

Sincerely yours,

/S/ EUGENE E. BABIN

Special Permit Ida. 017084
Land Application Ida. 017023

Dear Sir:

I have reference to the Bureau of Land Management letter of Feb. 9, 1966, advising me that certain desert land had been classified as suitable for entry upon a further showing of the availability of irrigation water and that I should first obtain a State water appropriation permit from your office before I begin any well drilling.

This letter is a request for that permit. Also, BLM has requested a copy of the drill permit sent to their office.

We have contacted a well driller in the area, Ron Hiddleston, Rupert, who is now drilling $\frac{1}{4}$ mile from this property. He has agreed to move to our property when he finishes his present job if we can get the permit in time. Will you please expedite this permit.

Thank you.

Sincerely,

RULON RAMSEY
