RE: License No. 45-7689 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

E. NARRATIVE/REMARKS/COMMENTS

TO: FILE 45-07689

FROM: AMANDA FOLSOM

DATE: 23 JULY 1999

Henry Sellers was the previous owner of the property in the SENW 1/4 of Sec 29, Twn 10S, Rng 22E. This is a description of his actions beginning in 1991:

Feb 25, 1991

The department received Mr. Sellers' Application for Permit, indicating he was going to irrigate nine acres.

Sep 21, 1993

The department received Mr. Sellers' Proof of Beneficial Use still indicating he was irrigating nine acres.

July 9, 1998

Representing the West East Snake Plain Aquifer Measurement District, Dan Nelson preformed a measurement of the irrigation well. He collected the information for the well and measured with the Tyme Flyte. Dan indicated that Mr. Korb was irrigating 7 acres.

July 27, 1998

The department received an Assignment of Permit for Lonnie and Loveina Korb, with Henry Sellers signing over the water right permit.

June 8, 1999

The department received a Notice of Change of Water Right Ownership added only to the adjudication file. A Warranty Deed is also in the adjudication file showing the purchase of the property on April 28, 1995. A copy of the ownership documents have been added to the Water Right File.

June 25, 1999

Water Right Field Exam was conducted by me. I spoke with Mr. Korb, and he informed me that he was not irrigating nine acres and had no idea where that figure had come from. He stated he was irrigating between 5 and 7 acres. The GIS Shape File shows 6.3 acres of pasture and 0.6 acre of lawn for a total of 7.0 acres. Looking around the property, I observed Mr. Korb's home and lawn. To the east of the house is the pasture, the 6 acres being irrigated, and to the west of the house is a trailer home, another house, and a horse stable.

I questioned Mr. Korb about the trailer and he said that it belonged to the brother of Henry Sellers along with the horse stables. He rents the pasture from Mr. Korb. From what I could gather from Mr. Korb, all three homes and the horse stable are connected to the domestic/stockwater well located in the SWSE 1/4 of Sec 29, Twn 10S, Rng 22E. The well is associated with the adjudication claim 45-10845, belonging to Mr. Korb. Pictures and a brief description will be added to the adjudication file.

The irrigation well in the SESE 1/4 of Sec 29, Twn 10S, Rng 22E is used only for irrigation. There are 4 risers with 7 sprinklers on each riser. The risers run south from the well with hand lines running perpendicular. Mr. Korb waters every 5 days for 12 hours at a time. All developments were completed as stated on the permit. Dan's measurement in 1998 was 114 gpm. My measurement in 1999 was 112 gpm. Although the capacity of the well is 0.25 cfs, I am recommending 0.14 cfs considering 7.0 acres are being irrigated.

RE: ASSIGNMENT OF PERMIT 45-07689

Dear Mr. & Mrs. Korb:

We acknowledge receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our computer records to reflect this change in ownership. A computer generated report is enclosed for your information.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address **PRIOR** TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

JIM JOHNSON, Manager

RE: Permit 45-07689

Dear Mr. Sellers:

We are in receipt of a Notice of Change of Water Right Ownership form changing ownership of the above-mentioned permit from yourselves to Lonnie & Lovenia Korb.

Since this water right is still in the **permit** stage it is considered personal property and change of ownership for a permit is done with an Assignment of Permit form. I have enclosed an assignment form for your convenience. Please note that there is a \$25.00 filing fee required.

Receipt of the completed assignment form and filing fee in our office will enable us to complete this transaction for you.

If you have any questions regarding this matter, you may telephone me at 208-327-7941.

Sincerely,

A handwritten signature in cursive script, reading 'Kari Lynn Townsend'.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 45-07689

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

PROOF DUE NOTICE

RE: PERMIT NO. 45-07689

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 45-07689

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Re: Application for Permit No. 45-07689

Dear Mr. Sellers:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the South Idaho Press on 5/3 & 5/10/91. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,
