Harry L. Mai
(Applicant)

WATER RIGHT LICENSE

License of Water Right No. 45-7164 Priority January 17, 1974 Amount 1.20 cfsTHIS IS TO CERTIFY, that LARRY L. MAI

of Burley, Idaho, has complied with the terms and conditions of Permit
 No. 45-7164 issued pursuant to Application for Permit dated January 17, 1974
 and has submitted proof to the Department of Water Resources on January 31, 1979
 that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
 capacity for the diversion of 1.67 cfs of water from a groundwater source
 tributary to _____, and that the permit holder has applied to a beneficial use an
 established a right to use water as follows

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>November 15</u>	at <u>1.20</u> cfs and	<u>240.0</u> acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 1.20 cfs of water be diverted at any one time, and
 that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
 aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
240.0 acre feet per year, said waters to be diverted within the SE 1/4, Sec. 29, Twp. 10S,
Rge. 22E, B.M. in the County of Cassia

Description and location of place of use.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO.)
45-07603 IN THE NAME OF)
DAVID MARK HOBSON AND/OR)
LISA SUE HOBSON,)
_____)

REINSTATEMENT ORDER

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted to the Department on or before October 1, 2001, and,

WHEREAS, Permit No. 45-07603 lapsed on October 1, 2001, since the permit holder did not submit the proof of beneficial use or an extension of time request; and

WHEREAS, Section 42-218a, Idaho Code, provides that the Department may reinstate a permit upon a showing of reasonable cause by the permit holder within sixty days of the date of the lapse; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on October 3, 2001;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 45-07603 is **REINSTATED** with an advance in priority to **July 09, 1986**.

DATED this 9th day of October, 2001.

RE: Verification of water use prior to 1987

Dear Mr. Freitag:

In 1986, in T10S, R22E, S30, SESE, I was watering everything except two narrow draws and one small area where we had a pig shed. We used siphon tubes to water the land. The water was supplied from the pump in the southwest via concrete ditches which are mostly still present.

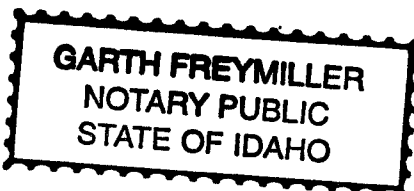

In 1986, in T10S, R22E, S30, NESE, I was watering everything except a rock pile on the north border. We had to adjust how much of the rock pile we farmed on row crop years because of the rock hazard. We had a pump set at the end of concrete ditch in the south east corner of SESE. The flanged suction pipe and the control panel are still there. The water was pressurized and delivered by portable mainline north to the NESE, and then west across the south border of the NESE. We were also watering the corner of the pivot directly west of the NESE. There was also a concrete ditch running along the east border of the NESE at this time from an older irrigation system.

This can be verified from a print made from a 1986 ASCS slide that is attached to this letter.

Sincerely,

Larry L Mai

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 45-07603

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form and examination fee submitted for the above referenced permit. Enclosed is an order reinstating the permit advancing the priority since proof was submitted after the proof due date.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033.

Sincerely,

Deborah J. Gibson

SUBJECT: WATER RIGHT FIELD VISIT

As per your request I visited with David Mark Hobson and inquired about water right number 45-07603. The location and total acres as listed on the permit are correct. The well is in the Idaho Power Company buy-out this irrigation season and was not used. I was not able to measure the discharge for field verification. I will do so as early as possible next irrigation season. Please call if I can answer any questions or be of any further help.

PROOF DUE NOTICE

RE: PERMIT NO. 45-7603

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

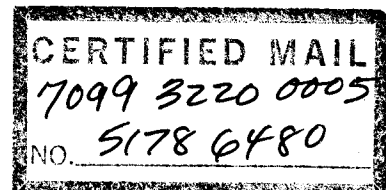

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Asst.

RE: Permit No. 45-7603

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Please note that one of the conditions of approval on your permit requires that you measure your diversion and record other important hydrologic and physical features and report them annually to the Department. The Department will shortly send you further information about measuring devices, flow estimation using power records, and annual reporting forms. If you have questions about the measuring and reporting requirements, please call the Department at (208) 327-7900 and ask for someone in the Water Distribution Section.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
OCT 19 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

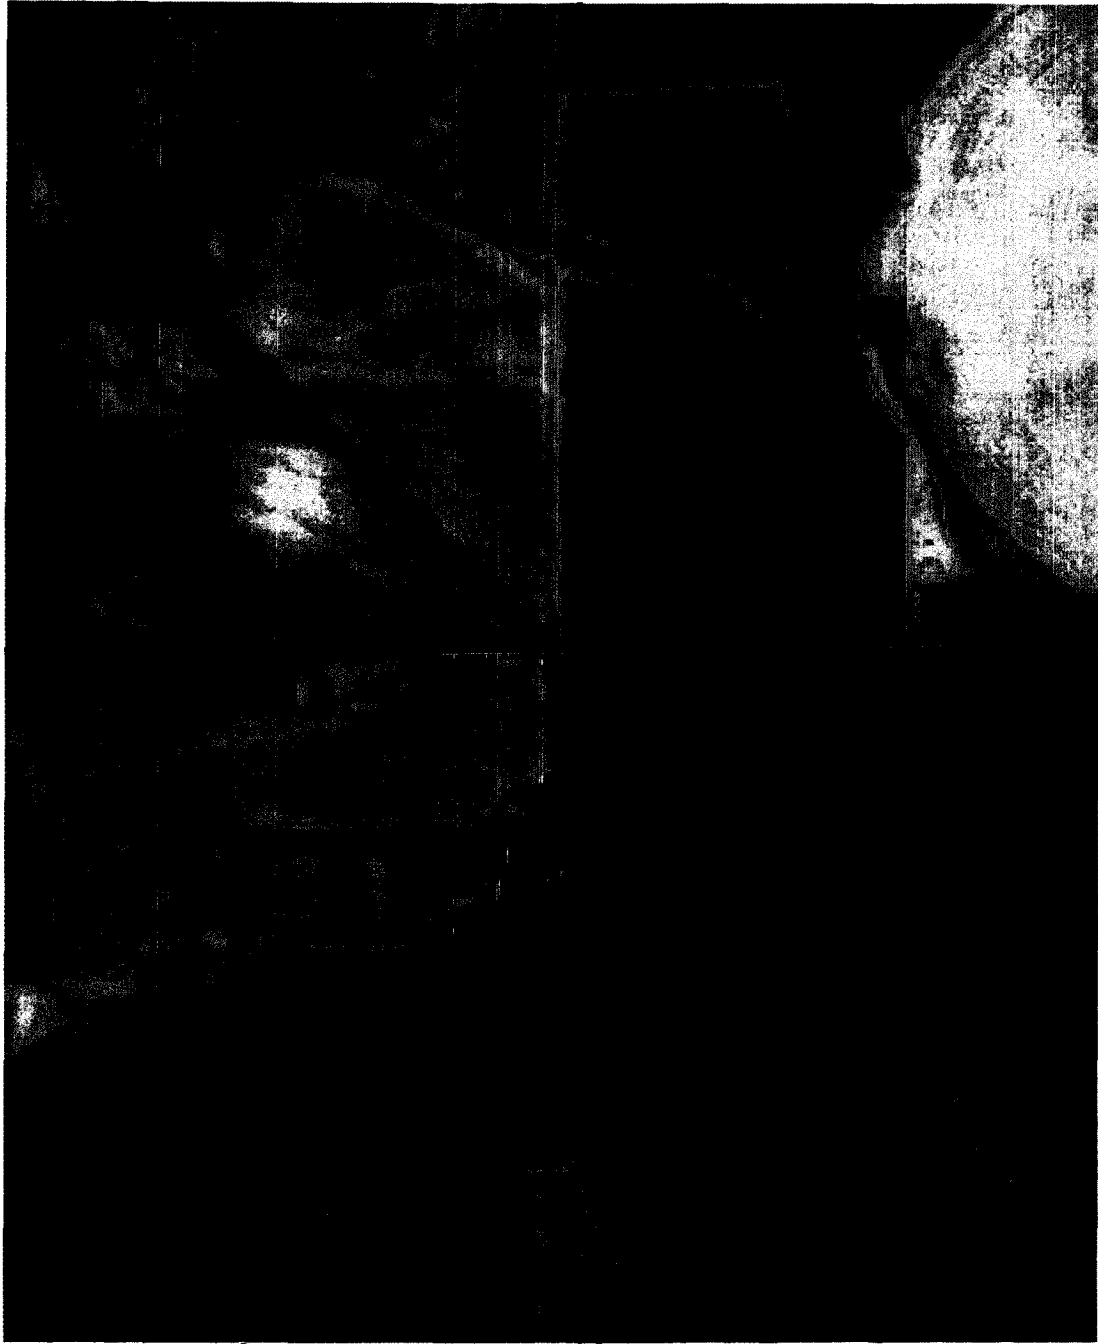

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

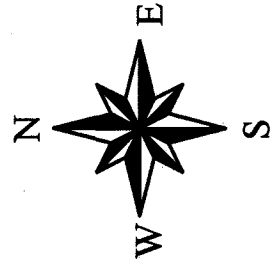

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Irrigated Acres

Mr. Hobson contacted me regarding my letter of May 2. He spent several hours at the ASCS office looking at photography and talking to the agents there concerning the number of acres developed in the SESE, S30. In my previous letter I informed Mr. Hobson that we were recommending 23 acres in the SESE under this permit rather than 32 as requested. Mr. Hobson disagreed with this recommendation.

Mr. Hobson told me that around 1986-1987, Mr. Mai was going broke and so he discontinued irrigation of some of his acres which could explain why the photography from those years don't solidly confirm irrigation of the entire SESE. He feels that the entire 72 acres should be given credit for development and thus permitted. On June 8, I called Mr. Hobson and told him that he would need to furnish proof (preferably in the form of aerial photos and/or CFSA records/statements) that 72 acres were irrigated *within the same irrigation season*. I told him that I would hold the file for two weeks to allow him to gather such proof and that if I did not hear from him within those two weeks, the permit would be sent forward for approval of 63 acres of irrigation.

Re: Measurement Records

Yesterday I spoke with Burke Scholer, asking for copies of any measurement/reporting they may have so that we can document these files with the data that can then be compared with data collected by the department's field examiner when the inspection is made.

Burke said they have nothing for 2000 and the 1999 form was submitted but is totally blank. He suggested that we send a copy of the permits when issued to Brian Higgs who is the consultant for Magic Valley Ground Water District and Southwest Irrigation District. He said that when we send the copies we should ask Brian to go out and make an inspection ASAP and then forward his info to us for the files. I will make a note to have KariLynn send the copies with a note requesting the data.

RE: Application for Permit No. 45-⁷⁶⁰³~~13400~~

Dear Mr. and Mrs. Hobson:

The department is ready to issue a permit on the above referenced application. Before we do so, however, I want you to be aware that the number of acres being recommended for permit approval is less than the number of acres identified in the application and advertised in the paper.

The reduction is due to our review of aerial photography for determination of the development that occurred prior to November of 1987. Although your application was held under the Eastern Snake Plain Aquifer moratorium, we are able to process your application because the development occurred before the moratorium was put in place. The aerial photos we collected allow us to approve the permit for 63 acres rather than the 72 acres requested.

If I do not hear from you within ten (10) days, I will assume you agree with our assessment and will forward the permit for approval. If you have any questions, please call me.

Sincerely,

Sharla Curtis
Senior Water Resource Agent

MEMO

RECEIVED

APR 24 2001

FROM: Allen Merritt

DATE: April 24, 2001

TO: Permit No: 45-07603 part

45-13400

In the Name of: HOBSON

CLAYTON

SUBJECT: **Review and Recommendation**

These two applications should be reviewed together. Both stem from the original application 45-07603 filed in the name of MAI. That application was protested. Subsequently the land was ultimately split and sold to Hobson and Clayton. During some inquiry of water rights it was discovered that the land was being watered without a right. This resulted in the current owners working to get things straightened around. The current owners were able to get the protest resolved and the original application split up. They requested that the applications be processed since the lands had been irrigated prior to November 1987.

The electronic record is somewhat confusing. Original application 45-07603 for 1.50 cfs and 75 acres has been split two ways. 1.44 cfs and 72 acres has replaced the old record 45-07603 and probably should have been re-numbered part A but was not. 0.06 cfs for 3 acres was data entered under 45-13400.

Review of Historical Use

The files contain aerial photos for the years: 1968, 1986, 1987 and 1992. Note that 6 acres are licensed in SESE under 45-07261.

My estimate of the acres irrigated are as follows:

Tract	Potential Acres	1968	1986	1987	1992
NESE	40	28	34	39	40
SESE	<u>34</u>	<u>27</u>	<u>26</u>	<u>26</u>	<u>32</u>
	74	56	60	65	72

Since the permits can only be issued for pre-Nov 1987 development then they should be limited to 65 acres total.

The 65 acres should be split as follows:

45-13400 for 2 acres within SESE.

45-07603 for 39 acres in NESE and 24 acres in SESE for total of 63 acres.

MICROFILMED

OCT 19 2001

Recommendation

I recommend that the applications be approved subject to the following conditions:

45-13400

- Limited to 0.06 cfs for irrigation of no more than 2.0 acres.

45-07603

- Limited to 1.26 cfs for irrigation of no more than 63 acres.
- May need to have number modified to show parent type relationship.
- Measuring device required.
- Measure and report use in West Measurement District or through Southwest Irrigation District as appropriate.

BOTH

- Use limited to historical use established by November 1987. No additional capacity or acreage allowed beyond historical limit.

RE: Application for Permit No 45-7603

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the South Idaho Press on 04/02 & 04/09/01. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

**Mary A. Baldwin
Administrative Assistant**

Re: Assignment of Applications for Permit

Date: 03/02/01

Larry Mai originally filed application for Permit 45-7603 in 1986. It was advertised by mistake (should have been held due to Swan Falls Moratorium) and was protested by Farm Credit Services in 1986. Farm Credit Services withdrew their protest on September 07 2000.

There have been two assignments of application for permit filed on 45-7603. One in the name of David Mark Hobson and Lisa Sue Hobson for 1.44 cfs and 72 acres of irrigation. The other is in the name of Douglas M. and Carrie Clayton for .06 cfs and 3 acres of irrigation. Both parties have included pre-1987 proof in order to process their applications through the current drought moratorium.

In order to enter both assignments on the database it required modifying the current information already existing in the database to reflect the Hobson's portion of 45-7603 and then entering a brand new application for permit (now known as 45-13400) to reflect the Clayton's portion of 45-7603.

Both of the assignments will need to be re-advertised per Norm Young's recommendation.

Re: Application for Permit No. 45-07603

Dear Mr. Mai:

This office recently received a withdrawal of the protest filed against the above referenced application by the Farm Credit Services; a copy is enclosed for your information. Further file review has prompted this office to inquire whether you are still interested in pursuing this application.

If the **development of your irrigation system was completed by November 19, 1987** your application may qualify for an exception from the Snake River Basin Moratorium on approval of new consumptive-use permits.

In order for processing to proceed, we need additional documents to support your claim of prior development; production records, power records, statements from knowledgeable individuals, etc. may be sufficient.

Note that the application can only be approved for the water usage that existed in 1987; any increases since then would not be exempt from the Moratorium.

If you wish to **withdraw the application for permit, please sign and return the enclosed withdrawal form** at your earliest convenience. This action will classify the Application for Permit as null, void and of no further consideration by the Idaho Department of Water Resources.

Applications that have not been advertised may qualify for a refund of the initial filing fee. In order to obtain a refund of the filing fee, please indicate on the withdrawal form. Refund requests are processed by our State Office in Boise within four to six weeks.

If you have any questions or if this office can be of further assistance, please feel free to contact us.

Sincerely,

Allen D. Merritt, P.E.

Re: Application for Permit No. 45-07603 (Larry L. Mai)

Dear Ms. Johnson:

This office acknowledges receipt of the withdrawal of your protest against the above referenced application.

Since you were the only protestant, the issue of the protest has been resolved and the Department is now prepared to proceed with the normal processing of the application which includes regional review prior to being forwarded to our State Office.

The Department will continue review of the application without further contact with you unless information is requested.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Allen D. Merritt, P.E.
Southern Region Manager

Dear John:

As we discussed, by letter dated July 28, 1986, Farm Credit Services filed a formal protest against the pending Application for Permit 45-07603. Northwest Farm Credit Services hereby withdraws this formal protest.

If you have any questions, please contact me by telephone at (509) 838-9412. Thank you for your cooperation.

MEMORANDUM

RECEIVED

OCT 12 1990

Department of Water Resources
Southern Region Office

TO: LOREN HOLMES

FROM: TIM LUKE

RE: APP. NO. 45-7603

DATE: 10-10-90

LOREN,

The attached application was sent to me along with other trust water filings from your office for which we had planned to send questionnaires. I noticed that the attached filing was inadvertently advertised (for one week only) and also protested. I am returning the application to you so that you can address the protest.

This filing would normally be re-advertised by our office since it was advertised inadvertently and not advertised as a trust right. Also, it appears we may need to re-advertise since the first run wasn't for the required two week period. Due to the pending protest, I thought it would be appropriate to route back to you before we took any action.

*Doc # 856
is pending list.*

Dear Mr. Bryan:

Re: Application for Permit 45-7603, Larry L. Mai

Your protest against the approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

At the present time, it is not possible to say when processing of the application will be completed under the Rules and Regulations for Water Appropriation now being adopted.

If the protest has not been resolved by the time advertising under the rules is complete, the matter will be scheduled for conference and/or hearing. The following are the principal items which can be considered in approving or denying an application for permit (Section 42-203, IDAHO CODE):

- 1) Will the proposed use reduce the quantity of water under existing rights?
- 2) Is the proposed water supply insufficient for the purposes intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the project?
- 5) Will the proposed use conflict with the local public interest?

If this office can be of further assistance, please contact us.

Very truly,

Dear Mr. Mai:

Your application, No. 45-7603, is being held by this office pending adoption of rules and regulations for water appropriation.

A notice of the application was published by mistake on July 7, 1986. The notice will have to be published again for two weeks once rules are adopted and we proceed with processing. At the present, it is not possible to say when this will happen.

On August 4, 1986 we received a protest against your application, a copy of which is enclosed. We suggest that you contact the protestant directly to attempt to resolve the protest.

If the protest has not been resolved by the time advertising of the application under the Rules & Regulations has been completed, the matter will be set for conference and/or hearing. The following are the principal items which the Department can consider in approving or denying an application for permit (Section 42-203, IDAHO CODE).

- 1) Will the proposed use reduce the quantity of water under existing rights?
- 2) Is the proposed water supply insufficient for the purposes intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the project?

Dear Director Dunn:

Re: Application for Permit 45-7603, Larry L. Mai

The Federal Land Bank of Spokane is filing a formal protest against Application for Permit 45-7603. Our protest is based on the following:

1. The quantity of water under the existing licensed water right 45-7164 on our security will be reduced.
2. The application is speculative in nature since the applicant does not have legal access to all the property described.

Thank you for your consideration of this matter. Please advise me at the above address of any developments regarding this Application for Permit.

Sincerely,

Charles W. Bryan
Engineer-Appraiser

Re: Application for Permit No. 45-7603

Dear Mr. Mai:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 45-7603. Please refer to this number in all further correspondence.

Because your application proposes to appropriate water which has been identified as "trust water" in the Swan Falls agreement, we cannot begin processing until rules and regulations for water appropriation have been adopted as required by law.

Rules and Regulations have been adopted but are currently the subject of litigation which, for the time being, prevents the processing of any applications subject to the rules.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Loren O. Holmes, P. E.
Southern Region Supervisor
