Re: Contested Case for Amendment of Permits 75-7052 and 75-7589

Dear Mr. Merritt,

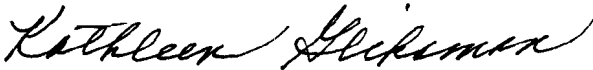

Under Rule 201 of the Idaho Department of Water Resources Rules of Procedure, I am formally requesting the presence of Mr. Gary Spackman at the hearing on the above case to be held in Salmon, Idaho on June 26th and 27th of this year.

Because of his length of service with IDWR and his current position as head of the Water Allocation Bureau, Mr. Spackman's testimony during this hearing would prove essential for all parties involved.

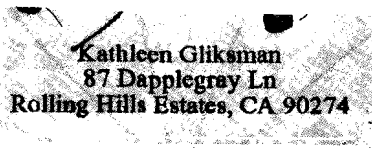

I would expect Mr. Spackman to testify regarding the rights and responsibilities of different classifications of water districts; the terms under which Idaho grants water rights to districts and the State's expectations related to district compliance; the consequences of non-compliance with regard to water rights limited by imposed conditions; the ongoing restrictions on water right 75-7589; speculation as defined by those current conditions; current water standards; and IDWR's responsibility to the water district patrons.

Mr. Spackman would not be questioned with regard to evidence presented, arguments made or the decision in the 1993 hearing regarding 75-7589 at which Mr. Spackman presided as hearing officer. Any questions arising would involve how the decision has been, or was expected to have been, implemented in the opinion of Mr. Spackman in his capacity as Administrator of the Water Allocation Bureau and not in his capacity as the former hearing officer.

Thank you for your consideration in this matter.

Kathleen Gliksman
