

State of Idaho

License and Certificate of Water Right

Water License No. 15182
Water District No.

Amount 1300 Sec. Ft.
Priority May 14, 1921

THIS IS TO CERTIFY that United States of America, U. S. Reclamation Service of Boise, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated May 14, 1921; that Permit No. 15182 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 1300 second feet, was issued thereunder on September 3, 1926, showing that said works were completed on the 1st day of June, 1926; and that on the 1st day of June, 1936,

United States of America, U. S. Bureau of Reclamation of Boise, State of Idaho, made proof to the satisfaction of the Commissioner of Reclamation of Idaho, of the right to use the waters of Payette River, a tributary of Snake River, for the purpose of developing power, under Use Permit No. 15182 of the Commissioner of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7 of Licenses, at page 5680, on the 17th day of August, 1937;

The right hereby confirmed dates from May 14, 1921;

The Point of Diversion is located in Lot 1, in the ~~14~~ Sec. 22, Tp. 7 N., R. 1 W., B. M., Gem County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 1300 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			This license does not authorize the appropriation of any water for irrigation purposes.		

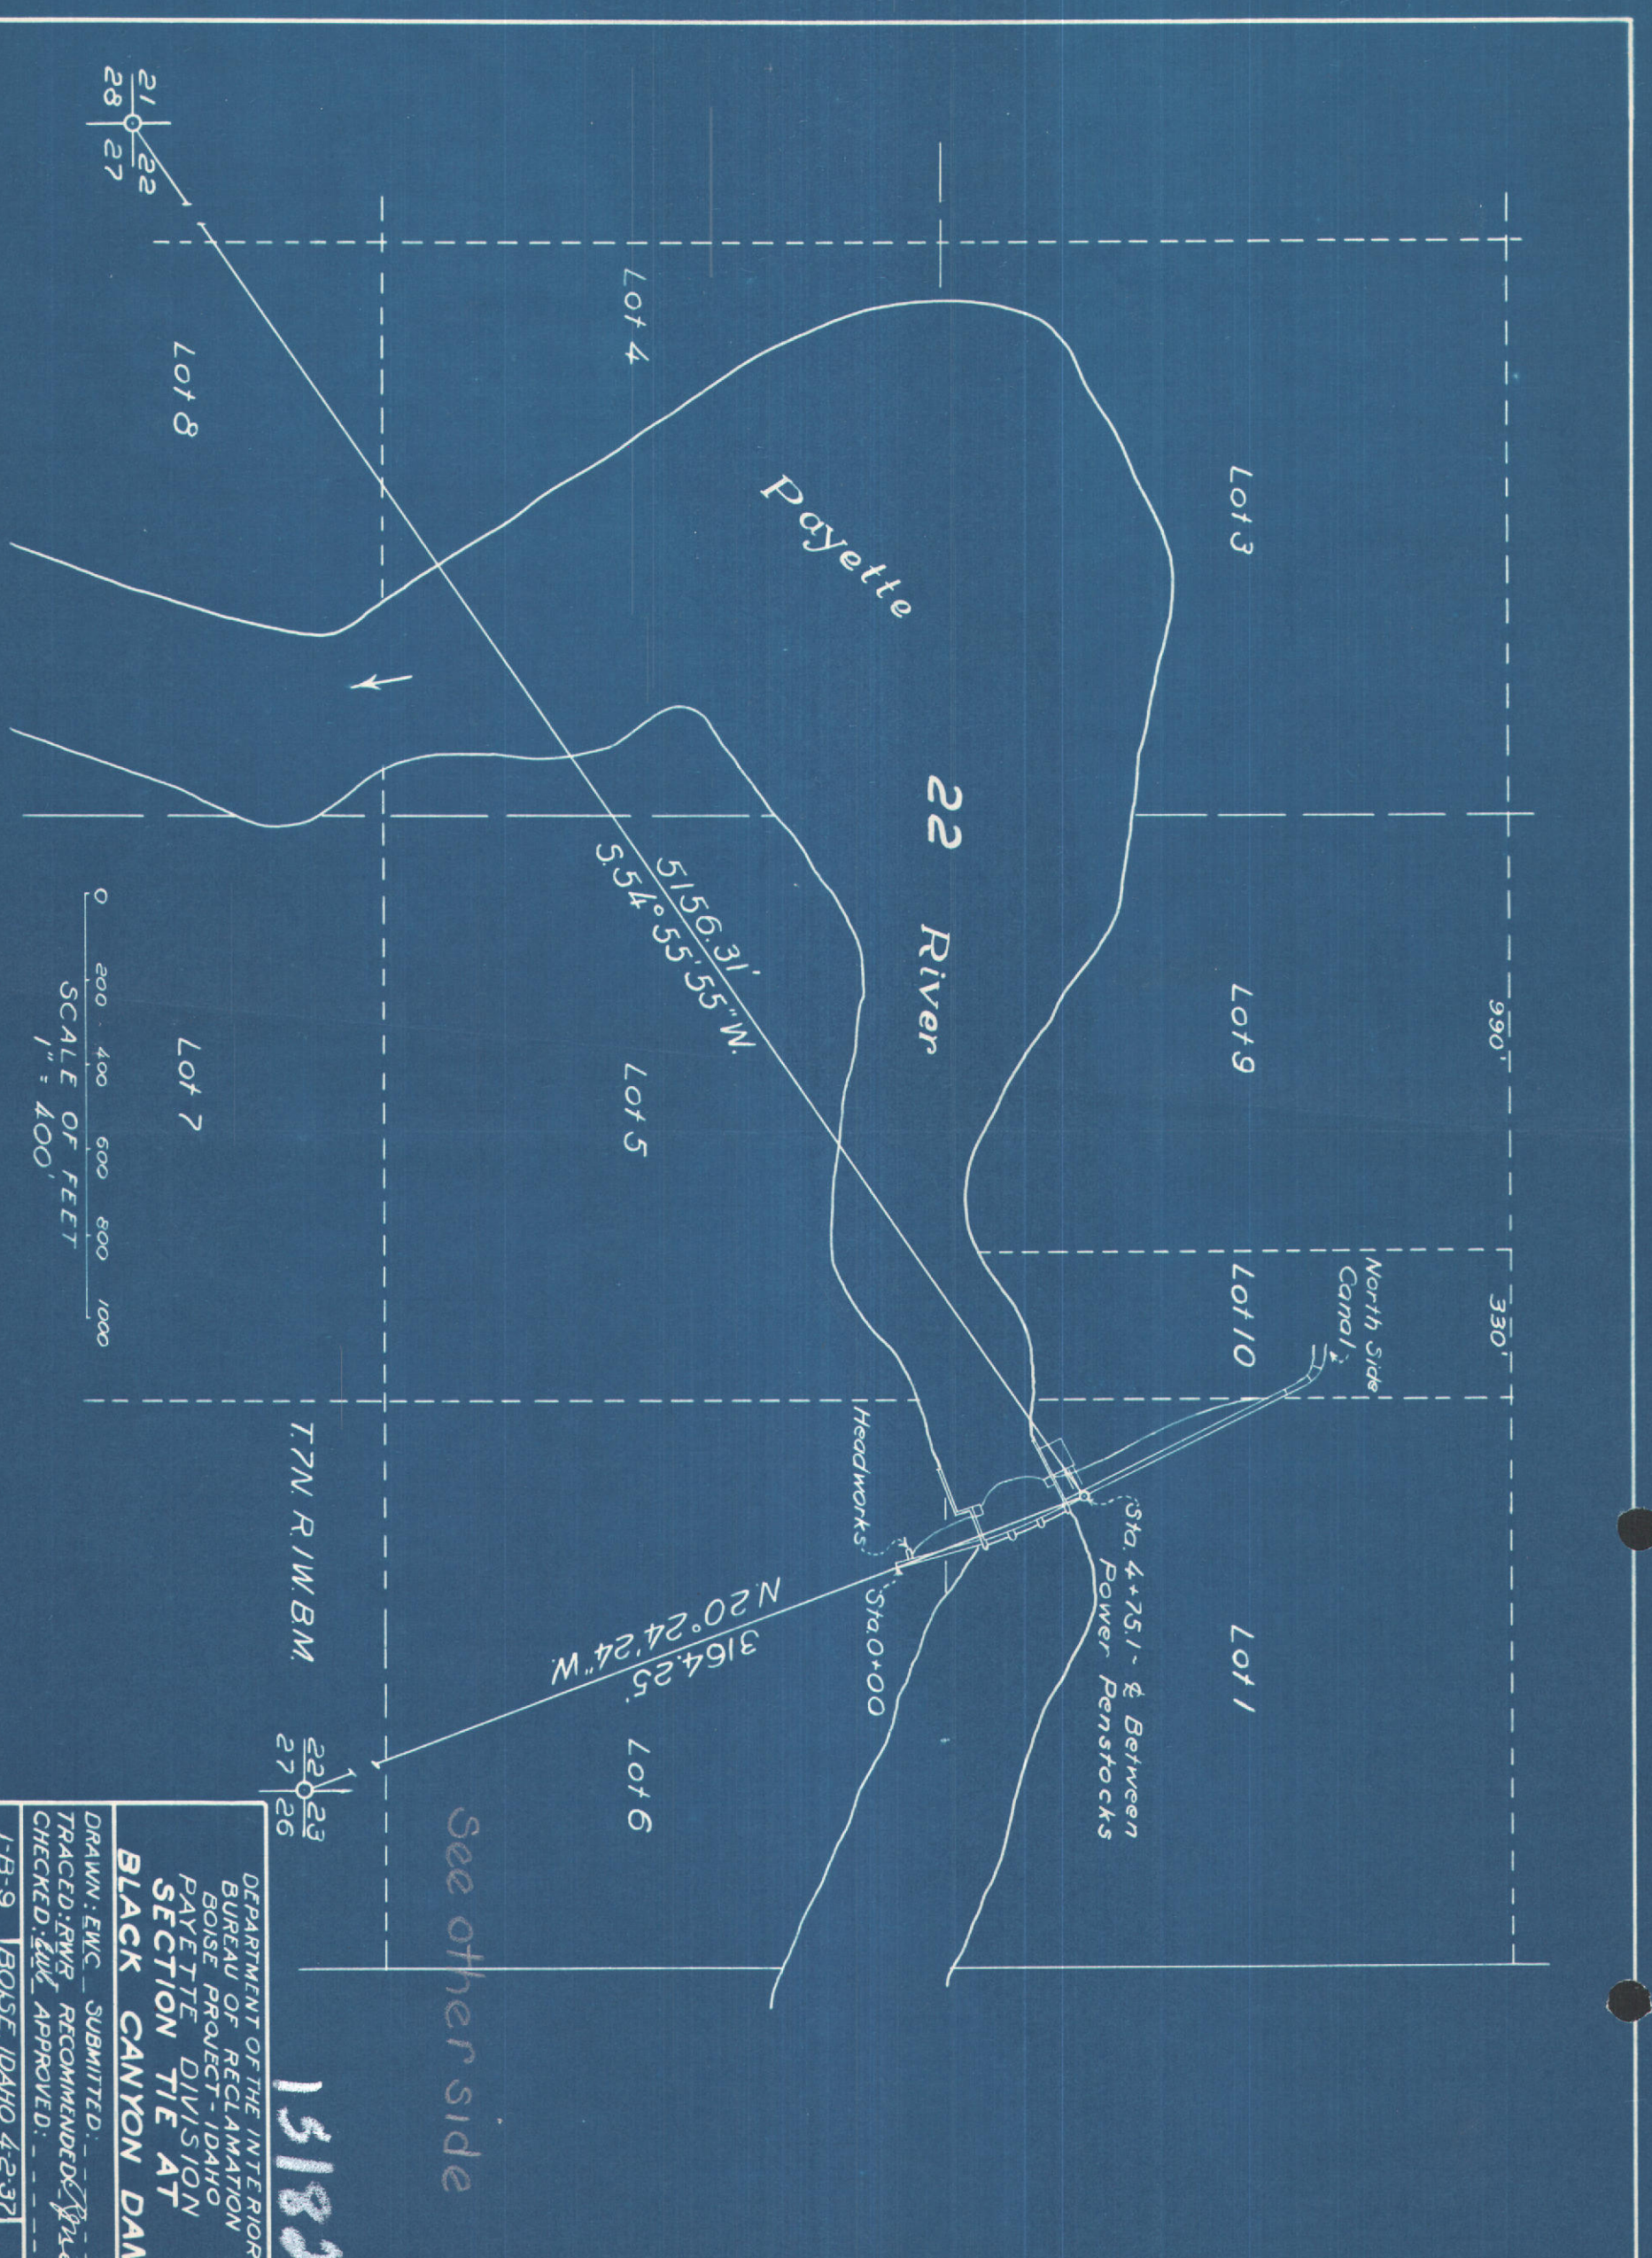

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho, this 17th day of August, 1937

R. W. FARIS
Commissioner of Reclamation

603 Postoffice Building,
Portland, Oregon

April 8, 1936

Dear Sir:—

I enclose herewith blank notice of proof of application of water to beneficial use under your permit No. 15182....., which should be filled out and returned to this office at least 60 days before the date upon which you wish to make proof. The date for proof, as set out in your permit, is June 1, 1936....., and, if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Yours truly,

R. W. FARIS

~~GEO. N. CARTER~~

Commissioner of Reclamation.

NOTE:—This permit claims 1200 second feet of water for irrigation purposes and 1300 second feet of water for power purposes to be diverted from the Payette River in Lot 6, Sec. 22, T. 7 N., R. 1 W., B. M., County of Gem.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

**J. B. Bond, Superintendent,
Bureau of Reclamation,**

**c/o I. W. Stoddard,
Boise, Idaho.**

BOISE, IDAHO, **May 20, 1926**

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works under Permit No. **15182** -----

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On **June 1, 1926** -----, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at **Boise, Idaho, before I. W. Stoddard, notary public.** -----

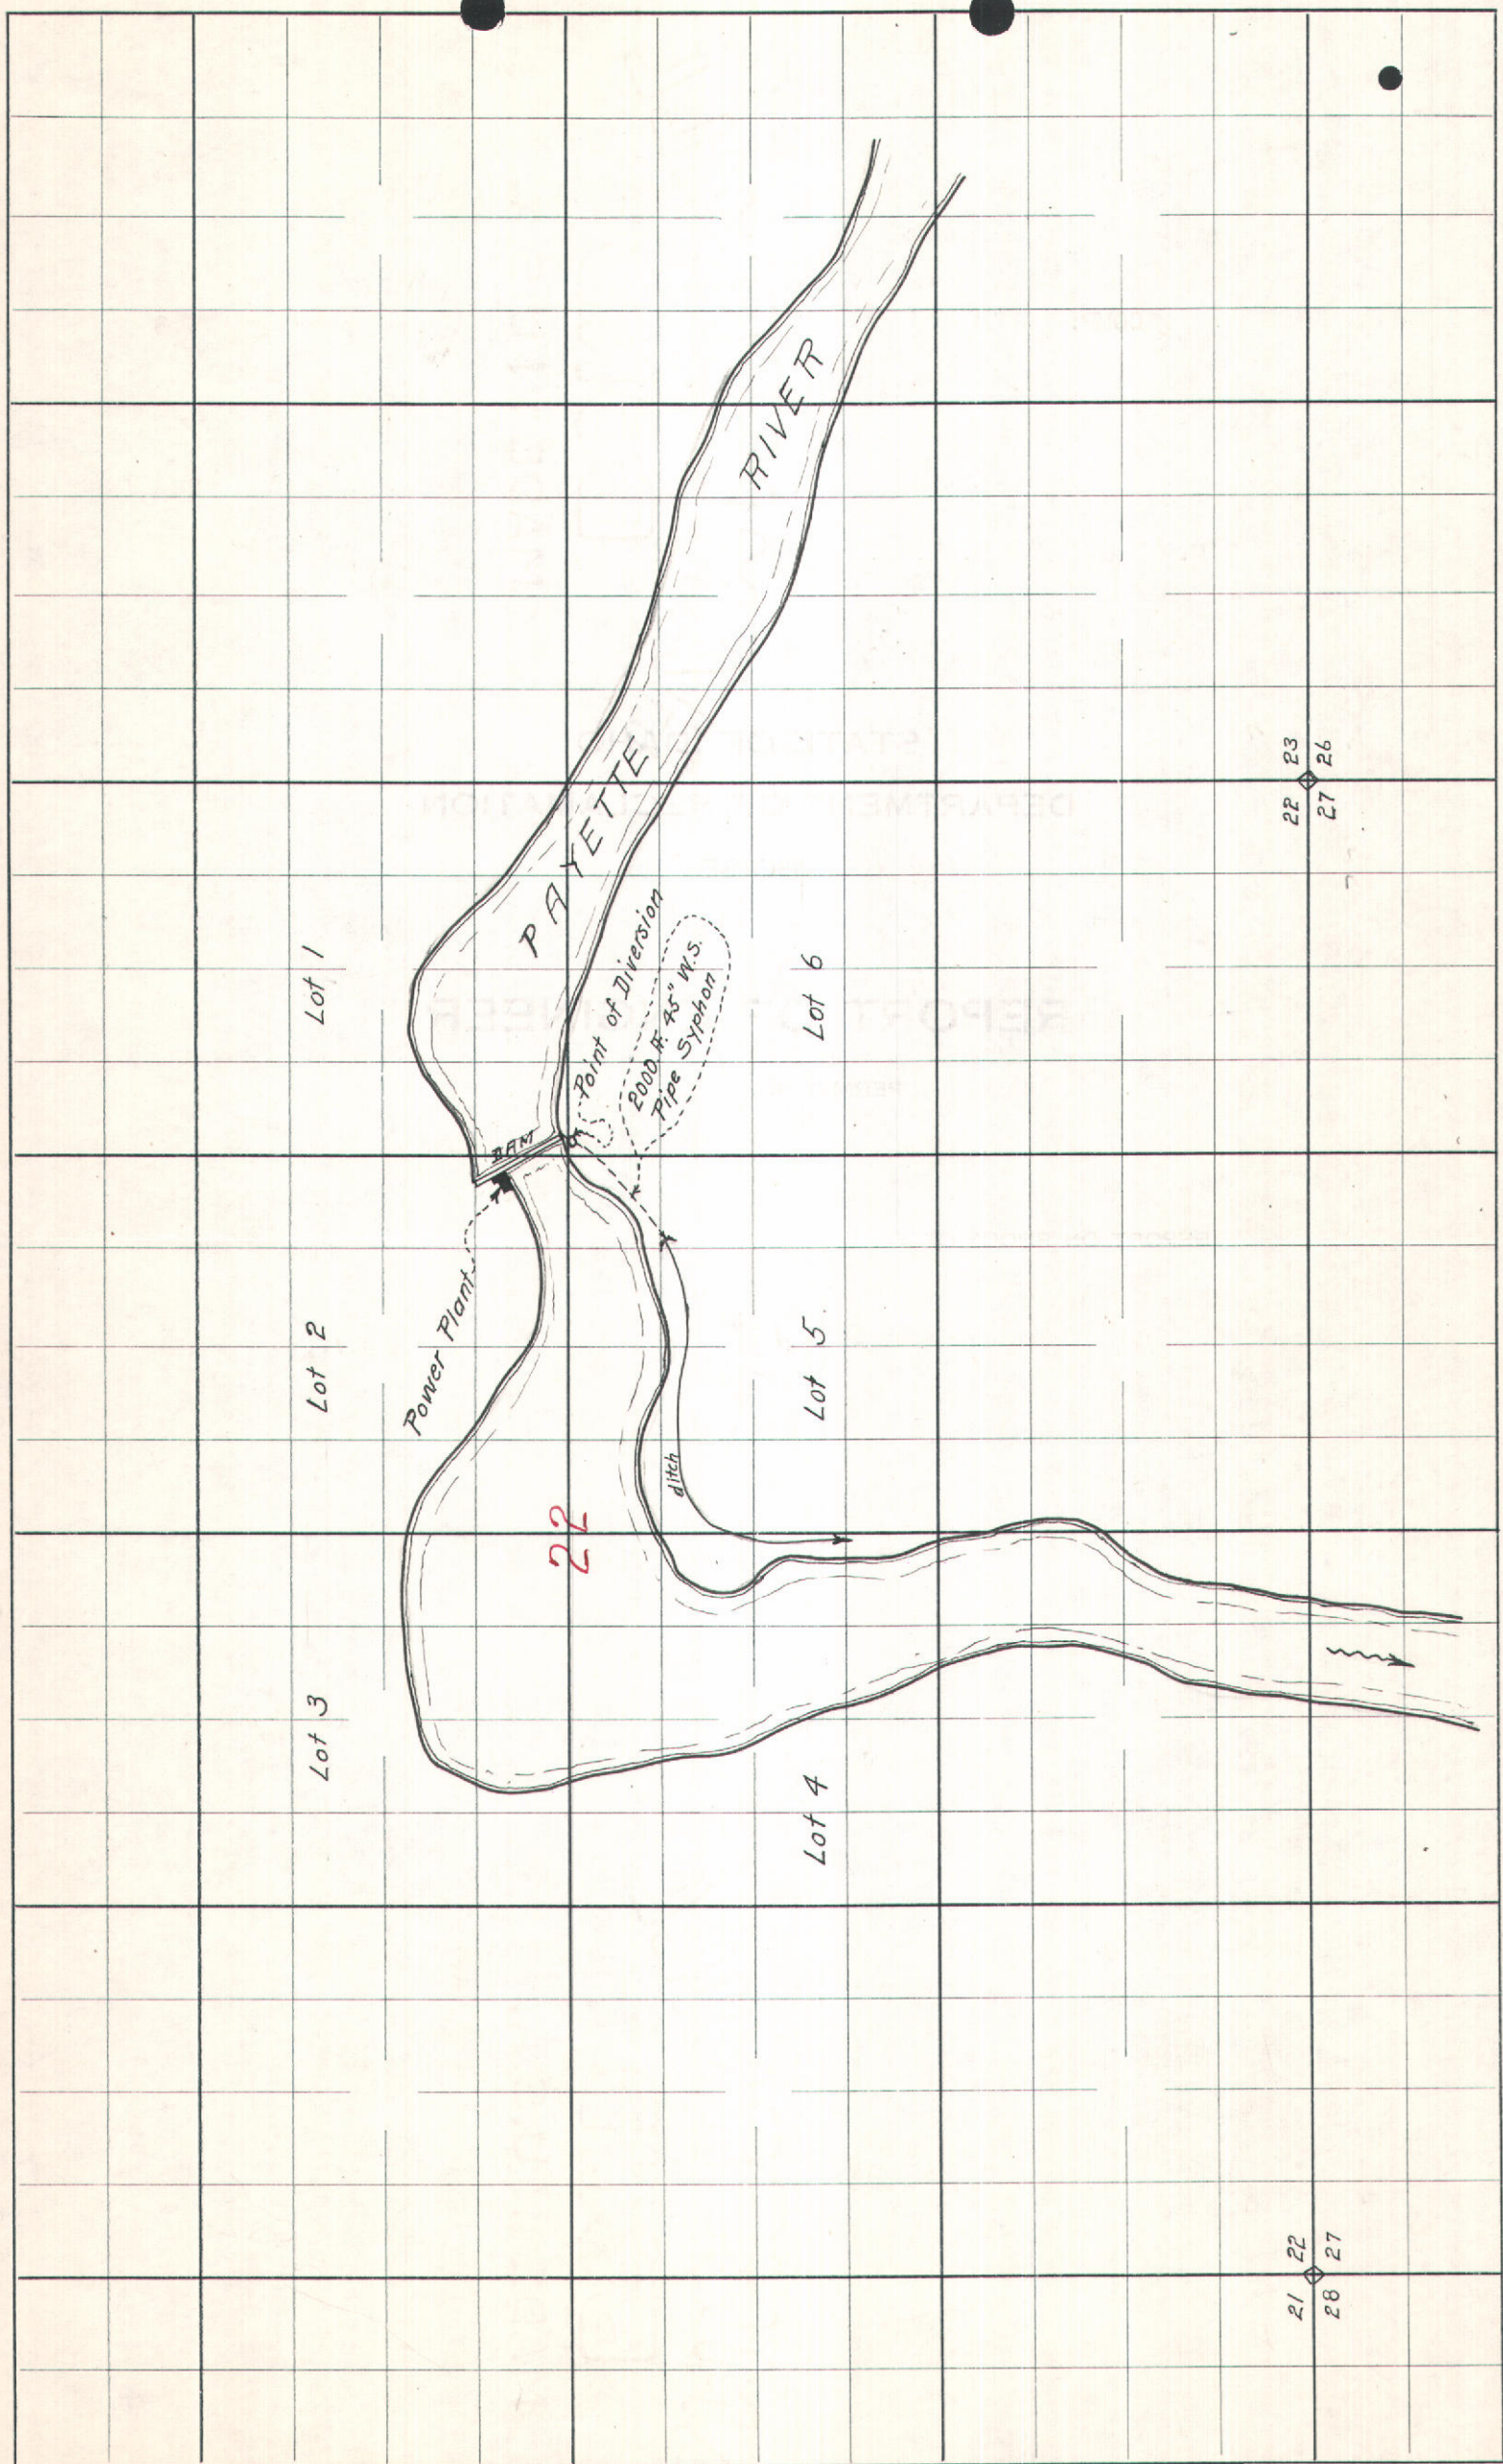

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

W. G. SWENDSEN,
Commissioner of Reclamation,
State Engineer.

65-2288

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 21578
Permit No. 15182
District No. 20-B

1. Name of Applicant: **United States of America, acting through B.E. Stoutemyer, District Counsel, U. S. Reclamation Service.**
Postoffice address: **Boise** County: **Ada** State: **Idaho.**
 - I. If applicant is a corporation, give:
 - (a) Date and place of incorporation:
 - (b) Amount of capital stock:
 - (c) Amount paid in:
 - (d) Names and addresses of directors:
 - II. The financial resources of the applicant are:
 - (a) Cash on hand:
 - (b) Treasury stock:
 - (c) Bonds to be issued:
 - (d) Other resources: **Receipts from sale of public lands and all repayments into Reclamation fund under Federal Reclamation Act, Warren Act, etc. (2500)**
2. Quantity of water claimed: **Twenty-five Hundred /** cubic feet per second.
Twelve Hundred (1200) second feet for irrigation. Thirteen Hundred (1300) second feet for power.
3. Source of water supply: **Payette River** which is a tributary of **Snake River.**
4. Location of point of diversion: **N. 27° 50' W. 2693'** feet distant from the **Southeast** corner of Section 22, T. 7 N., R. 1 W., B. M., and is in ~~the~~ Lot 6 of Section 22, T. 7 N., R. 1 W., B. M., County of **Gem.**
5. Water is to be used for: **Irrigation and power development.**
6. If for mining, milling, power or manufacturing purposes, give:
 - (a) Point of use of water: **S. 27° 35' W. / 2808'** feet distant from **NE** corner of Section 22 T. 7 N., R. 1 W., B. M., in ~~the~~ Lot 1 of Section 22, T. 7 N., R. 1 W., B. M.
 - (b) Amount of power generated: **6700** H. P., under **92** feet head.
 - (c) Water is to be returned to **Payette River** at a point **S. 27° 35' W. 2875'** feet distant from the **NE** corner of Section 22, T. 7 N., R. 1 W., B. M., in ~~the~~ Lot 2 of Section 22, T. 7 N., R. 1 W., B. M.
7. Estimated cost of works: **\$6,162,131.00**
8. Kind of works: **Reservoir, diversion dam, concrete lined and earth canal.**
9. Height of dam **104** feet; length of dam at top **1088** feet; length of dam at bottom **200** feet; material used in dam **Concrete.**
10. Size of headgate: width **20** feet; height **12** feet
11. Ditch: Width at bottom **40** feet; width at water line **71.5** feet; depth of water **9** feet; dimensions of flume
Diameter of pipe inches; length of conduit **178** miles.
Average grade per mile **1.05** feet
12. The time required for the completion of such work is **five** years.
13. The time required for the complete application of the water to the proposed use is **ten** additional years.
14. The land to be irrigated is described in the following tabulation: **See Remarks.**

15. (a) Is reservoir to be used? Yes. If so, fill in (b) and (c) below.
 (b) Name of reservoir and number of Storage Permit: Little Payette Lake No. R-270.
 (c) Date of filing of Application for Storage Permit and Name of Applicant: May 14, 1921.
 United States of America.

BE IT KNOWN THAT the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

United States of America, Applicant.

By B. E. Stoutemyer, Agent.
 Dist. Counsel, U. S. Rec.Serv.

Date of first receipt at Department of Reclamation. 11:40 A.M. May 14, 1921.

Returned to applicant for correction. May 16, 1921.

Corrected application received. May 19, 1921.

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is 15182
 Recorded in Book 54 Page 15182 Approved June 1, 1921.
 This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:
 Bond in the sum of \$ 5000.00 to be filed on or before July 31, 1921.
 Work to begin on or before and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.
 One-fifth of the work above specified to be completed on or before December 1, 1923.
 The whole of said work to be completed on or before June 1, 1926.
 Beneficial use of water appropriated in accordance herewith, to be made on or before June 1, 1936.

Witness my hand this 1st day of June, 1921.

W. G. SWENDSEN,
 Commissioner of Reclamation.

Permit No. 15182

CERTIFICATE OF COMPLETION OF WORKS

To All Whom It May Concern:

This is to certify that the United States of America, acting through B. E. Stoutemyer, District Counsel, Bureau of Reclamation, of Boise, County of Ada, and State of Idaho, the holder of Permit No. 15182, issued upon Application No. 21578, bearing date of priority of May 14, 1921, authorizing the diversion of 2500 second feet of the waters of Payette River, County of Gem, State of Idaho, for irrigation, domestic and power purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 1300 second feet of the waters of Payette River for development of power; that the point of diversion of said waters is in Lot 6, Section 22, Township 7 North, Range 1 West of Boise Meridian; and that the place of use of said water for such power development is in Lot 1, Sec. 22, Twp. 7 N., R. 1 W., B. M.

Witness my hand this 3rd day of September, A. D. 1926.

W. G. SWENDSEN
Commissioner of Reclamation

By Geo. M. Carter
Assistant.

AFFIDAVIT FOR CHANGE OF POINT OF DIVERSION

OF WATER RIGHT

Permit No. 15182

STATE OF IDAHO)
) ss.
COUNTY OF GEM)

B. E. Stoutemyer, being first duly sworn, deposes and says: That his postoffice address is Portland, Oregon. That he represents the United States, which is the owner of and user of a certain water right, for 1300 cubic feet per second of the water of Payette River, County of Gem, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho, No. 15182, issued by the Idaho Commissioner of Reclamation, dated June 1, 1921, bearing date of priority of May 14, 1921, for the purpose of generating electric power at Black Canyon plant, situate, lying and being in Water District No. _____, in the County of Gem and State of Idaho, and is the person (or representative of the person or persons) to whom such right was so issued. That point of diversion of said waters from said stream was originally described as in the Lot 6, Sec. 22, Twp. 7 N., Range 1 W, and conducted to the above described lands through the ditch, as per map filed herewith and of this affidavit made a part; That affiant desires to change the description of the point of diversion of said waters from the point above described to a point located in Lot 1 of Sec. 22, Twp. 7 N., R. 1 W., and thereafter conduct same to the above described power plant through the steel penstocks, as per map above referred to; That his reasons for desiring to make such change are as follows: Point of diversion for power water under above permit was erroneously described in the original application as the same as the irrigation diversion and this Affidavit for Change is for the purpose of correcting the error.

That no one will be injured by such change and that such change will be made at affiant's own risk.

B. E. STOUTEMYER
Affiant.

Subscribed and sworn to before me this 22 day of April, 1937.

(SEAL)

DARWIN G. TYREE
Notary Public for Oregon
My commission expires Jan. 19, 1940

NOTE: If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit.

Received and filed for record in the Department of Reclamation at Boise, Idaho, at 11:00 A. M., May 5, 1937.

R. W. FARIS
Commissioner of Reclamation

Re: License #15182 and License #R-403(Deadwood)

Dear Mr. Van Slyke:

The License (#15182) has a priority of May 14, 1921, and can demand water of that priority whenever the water is available. It is permanent so long as it is used for that purpose at that place. It is subject to forfeiture by abandonment. Power use is inferior to domestic and agricultural and theoretically can be condemned and purchased for either of the superior (domestic or agricultural) uses but being a non-consumptive use, it is questionable if a condemnation and purchase for a consumptive use would retain the original priority.

The Deadwood License (#R-403) is for storage for power purposes and like License #15182, is permanent as long as used and is subject to forfeiture by non use. It is non-consumptive and probably could not be transferred to Cascade except through exchange of water as has been formerly done with the Lake Reservoir Company for Payette Lake Storage.

The Deadwood Storage License is for storage of water from Deadwood Creek and there could be instances when Deadwood would not fill and Cascade would fill, or when Deadwood would fill and there would not be storage space in Cascade above the already appropriated capacity.

Both Licenses are transferrable by the holder to any other individual or organization and can be transferred by deed or contract.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Department of Reclamation

Mr. Mark R. Kulp,
State Reclamation Engineer
State House, Boise, Idaho

Dear Mr. Kulp:

Re: License #15182-1300 SF for power

The question has several times arisen as to the status of this filing for the production of power at Black Canyon Dam--that is, how does it stand in relation to the filings for irrigation and domestic use? Is it such that it would always be a permanent right regardless of what might in the future be done for storing and diversion of Payette water for irrigation elsewhere?

Deadwood Dam was built in connection with power at Black Canyon--is the storage right secure for power purposes for all time to come? Could those storage rights be transferred to Cascade Reservoir?

Both the above filings are in the name of the federal government I assume, but could they be transferred to the Black Canyon Irrigation District through agreement in the District's proposed new contract?

Your opinion on these matters will be greatly appreciated.

Yours very truly,

H. W. Van Slyke

Re: Permit 15182,
U. S. Bureau of Reclamation.

Mr. R. J. Newell, Construction Engineer
U. S. Bureau of Reclamation
South Broadway
Boise, Idaho

Dear Mr. Newell:

I am enclosing herewith, License and Certificate of Water Right granting to the U. S. Reclamation Service the right to the use of 1300 second feet of water at what is known as Black Canyon Dam in Gem County, for power purposes.

You will recall that the permit included not only the 1300 second feet for power purposes, but in addition, 1200 second feet for irrigation purposes on the Black Canyon Project. However, at the time when final proof was offered, the Government made no claim to the right to the use of any of the waters at the Black Canyon Dam for irrigation purposes.

This certificate will serve to complete the file under this permit.

Very truly yours,

Deputy Commissioner of Reclamation

Re: Permit 15182

Mr. B. E. Stoutenyer
District Counsel
U. S. Bureau of Reclamation
Federal Building
Portland, Oregon

Dear Mr. Stoutenyer:

Several months ago I advised Mr. Newell that a fee of \$390.00 was due under the above permit in connection with completion of works proof. I also advised him that an additional fee of \$5.00 was due in connection with beneficial use proof.

In June we received two warrants from the Government Disbursing Officer in Portland for sums as above stated.

Since that time I have made a thorough examination of the file on the above permit, and I find that the fee for completion of works was paid several years ago. I am therefore returning the check in the amount of \$390.00 to you for cancellation.

I have issued our regular office receipt for the \$5.00 fee, and a license will be issued to you soon under Permit 15182, which covers water used at Black Canyon Dam for power purposes.

Very truly yours,

Deputy Commissioner of Reclamation

FLH:jl
Encl.
Check for \$390.00.

Mr. R. J. Newell, Construction Engineer
U. S. Bureau of Reclamation
South Broadway
Boise, Idaho

Dear Mr. Newell:

I am returning herewith both copies of your voucher for payment of the fee due in connection with beneficial use proof under Permit 15182.

I presume that you will mail these forms to the fiscal agent, who will in due time issue the regular warrant. Upon receipt of this fee, we shall issue the license, as outlined in our previous letter.

Very truly yours,

Deputy Commissioner of Reclamation

Re: Permit No. 15182

R. J. NEWELL, Construction Engineer
U. S. Bureau of Reclamation
South Broadway
Boise, Idaho

Dear Mr. Newell:

This will acknowledge receipt of your affidavit for change of point of diversion under the above permit, together with a tracing and blueprint showing a section tie to the diversion.

Mr. Tolman's report shows this diversion in Lot 2, but then, I know that he did not run out the survey while you had it very carefully checked. The affidavit and maps are therefore undoubtedly correct, and they have been made a matter of record in this office.

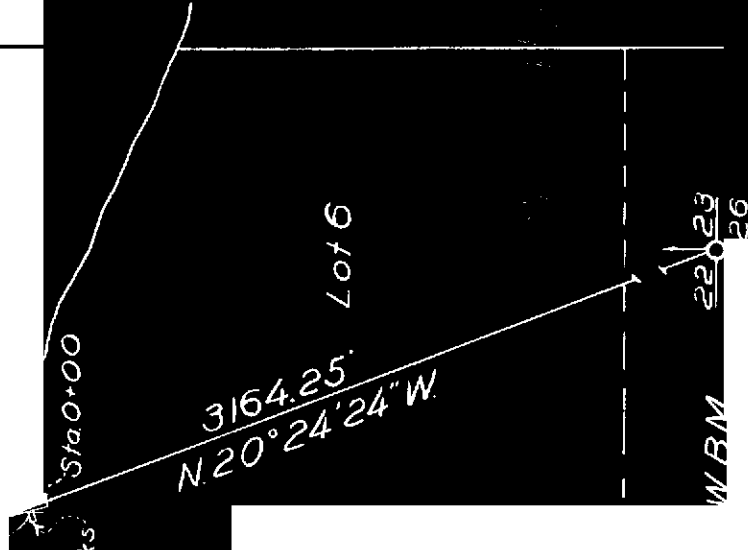

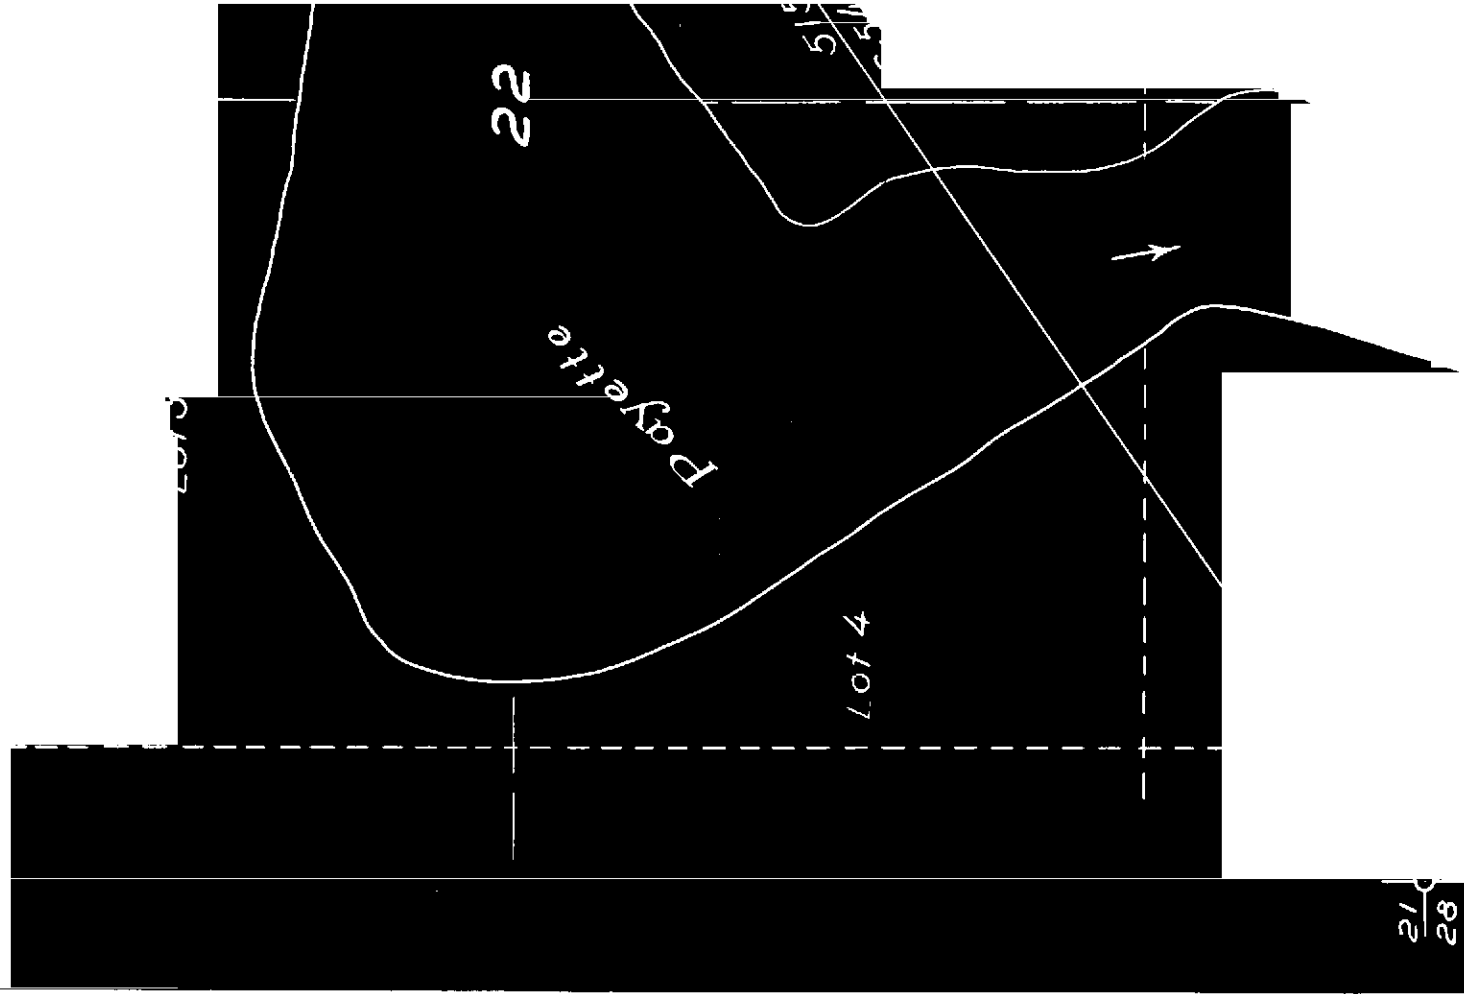

If you will remit a fee of \$5.00 in connection with final proof, a license will be issued to the government covering this water.

Very truly yours

Deputy Commissioner of Reclamation

Mr. R. W. Faris, Commissioner
Department of Reclamation
State of Idaho
Boise, Idaho

Dear Sir:

Reference is made to letter of January 22, 1937, from your office requesting a correction in the point of diversion of the water used for power at the Black Canyon Dam.

This matter has been delayed for considerable time until a really accurate location could be made of this point of diversion.

There is now being submitted herewith affidavit for change of point of diversion of water right duly executed and accompanied by tracing and one blueprint of the map showing the section tie in question.

If this is satisfactory it is assumed that license will issue.

Very truly yours,

R. J. NEWELL
Construction Engineer

AFFIDAVIT FOR CHANGE OF POINT OF DIVERSION

OF WATER RIGHT

Permit No. 15182

STATE OF IDAHO)

COUNTY OF GEM)

ss.

B. E. Stoutemyer, being first duly sworn, deposes and says: That his postoffice address is Portland, Oregon. That he represents the United States, which is the owner of and user of a certain water right, for 1300 cubic feet per second of the water of Payette River, County of Gem, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho, No. 15182, issued by the Idaho Commissioner of Reclamation, dated June 1, 1921, bearing date of priority of May 14, 1921, for the purpose of generating electric power at Black Canyon plant, situate, lying and being in Water District No. _____, in the County of Gem and State of Idaho, and is the person (or representative of the person or persons) to whom such right was so issued. That point of diversion of said waters from said stream was originally described as in the Lot 6, Sec. 22, Twp. 7 N., Range 1 W. and conducted to the above described lands through the ditch, as per map filed herewith and of this affidavit made a part; That affiant desires to change the description of the point of diversion of said waters from the point above described to a point located in Lot 1 of Sec. 22, Twp. 7 N., R. 1 W., and thereafter conduct same to the above described power plant through the steel penstocks, as per map above referred to; That his reasons for desiring to make such change are as follows: Point of diversion for power water under above permit was erroneously described in the original application as the same as the irrigation diversion and this Affidavit for Change is for the purpose of correcting the error.

That no one will be injured by such change and that such change will be made at affiant's own risk.

B. E. Stoutemyer
Affiant.

Subscribed and sworn to before me this 22 day of April, 1937.

Darwin Tyne
Notary Public for Oregon
My commission expires Jan. 19, 1940

NOTE: If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit.

Re: Permit No. 15182

R. J. NEWELL, Construction Engineer
U. S. Bureau of Reclamation
Broadway
Boise, Idaho

Dear Mr. Newell:

Under date of July 24, 1936, Fred A. Tolman, field engineer for this department, made an examination of the Bureau's development on Payette River in connection with your proof of application of water to beneficial use under the above permit.

As you know, this permit was issued several years ago, authorizing the appropriation of 2500 second feet of water, 1200 of which amount to be used for irrigation purposes, and the remaining 1300 second feet to be used for power purposes. At the time when the government offered proof, however, the quantity for irrigation purposes was omitted purposely, due to the fact that none of that water has been applied to beneficial use, and proof was confined to the 1300 second feet which has been used for the development of power.

Mr. Tolman verifies in his report the fact that this quantity of water has been applied to beneficial use for power purposes, showing the total usage per month of 4,968,203 KWH. The point of diversion as described in the permit is in Lot 6, Sec. 22, T. 7 N., R. 1 W., B. M., in Gem County. Mr. Tolman shows it as being located in Lot 2 of Sec. 22. Will you kindly check up on this matter and if you agree, prepare an application on the enclosed blank for a change of point of diversion and submit it to this department with a map showing the old diversion, and likewise the new one.

When this matter has been taken care of, a license will be issued to the government for 1300 second feet of water for power purposes at the point in question, upon receipt of a fee in the amount of \$390.00 which, according to law, is calculated at the rate of 30¢ per second foot.

Very truly yours

Chief Clerk & Office Engineer

BOISE, IDAHO

REPORT OF ENGINEER

Permit No. 15182

This proof is for Beneficial Use

In Water District No.

1. Name of applicant U. S. Bureau of Reclamation
2. Source of water supply: Payette River
3. Location of point of diversion: Is in ~~the~~ Lot 6 of Section 22
T. 7 N. R. 1 W. County of Gem

4. Describe works as they exist, giving dimensions and capacities of same: Gravity type concrete

dam approx 1050' long x 180 ft high, 2 steel penstocks 200 ft
long x 8 ft diameter. Power house 32' x 132'. Two 4000 K.W.
generators driven by 2-6000 H.P. turbines

5. Water is used for: Power

6. State whether or not water has been turned into works of diversion: yes constantly

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): Several thousand acres of land were to have been irrigated under the
terms of this permit. However, no water has been applied to irrigation, and
the permittees only claim to the waters in question is for power purposes.

Power use as of Mo. of June 1936, by Gem Irig. Dist, Ontario-Nyssa Dist,
Owyhee Project (construction), Payette Oregon Slope Dist, Arrowrock-Boise
River diversion, Connolly Const Co, Snake River Irig Dist,
Crystal Irig Dist, Advancement Tract, Black Canyon "C+S" Owyhee
Ditch Camps, ^{and} Emmett Irig Dist. Total use for month = 4,968,203 K.W. Hours
(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River

Remarks: Point of diversion named in Permit only applied to
water formerly taken into W.S. siphon and canal at south end
of dam ^{and} now abandoned. The present point of
diversion is at the power house near the north
end of dam in Lot 2.

This examination was made on the 24th day of July, 1936

(Signed)

Edw. A. Dolman
Examiner.

Permit No. 15182

Examination for Beneficial Use

County Gem

INSTRUCTIONS TO EXAMINERS

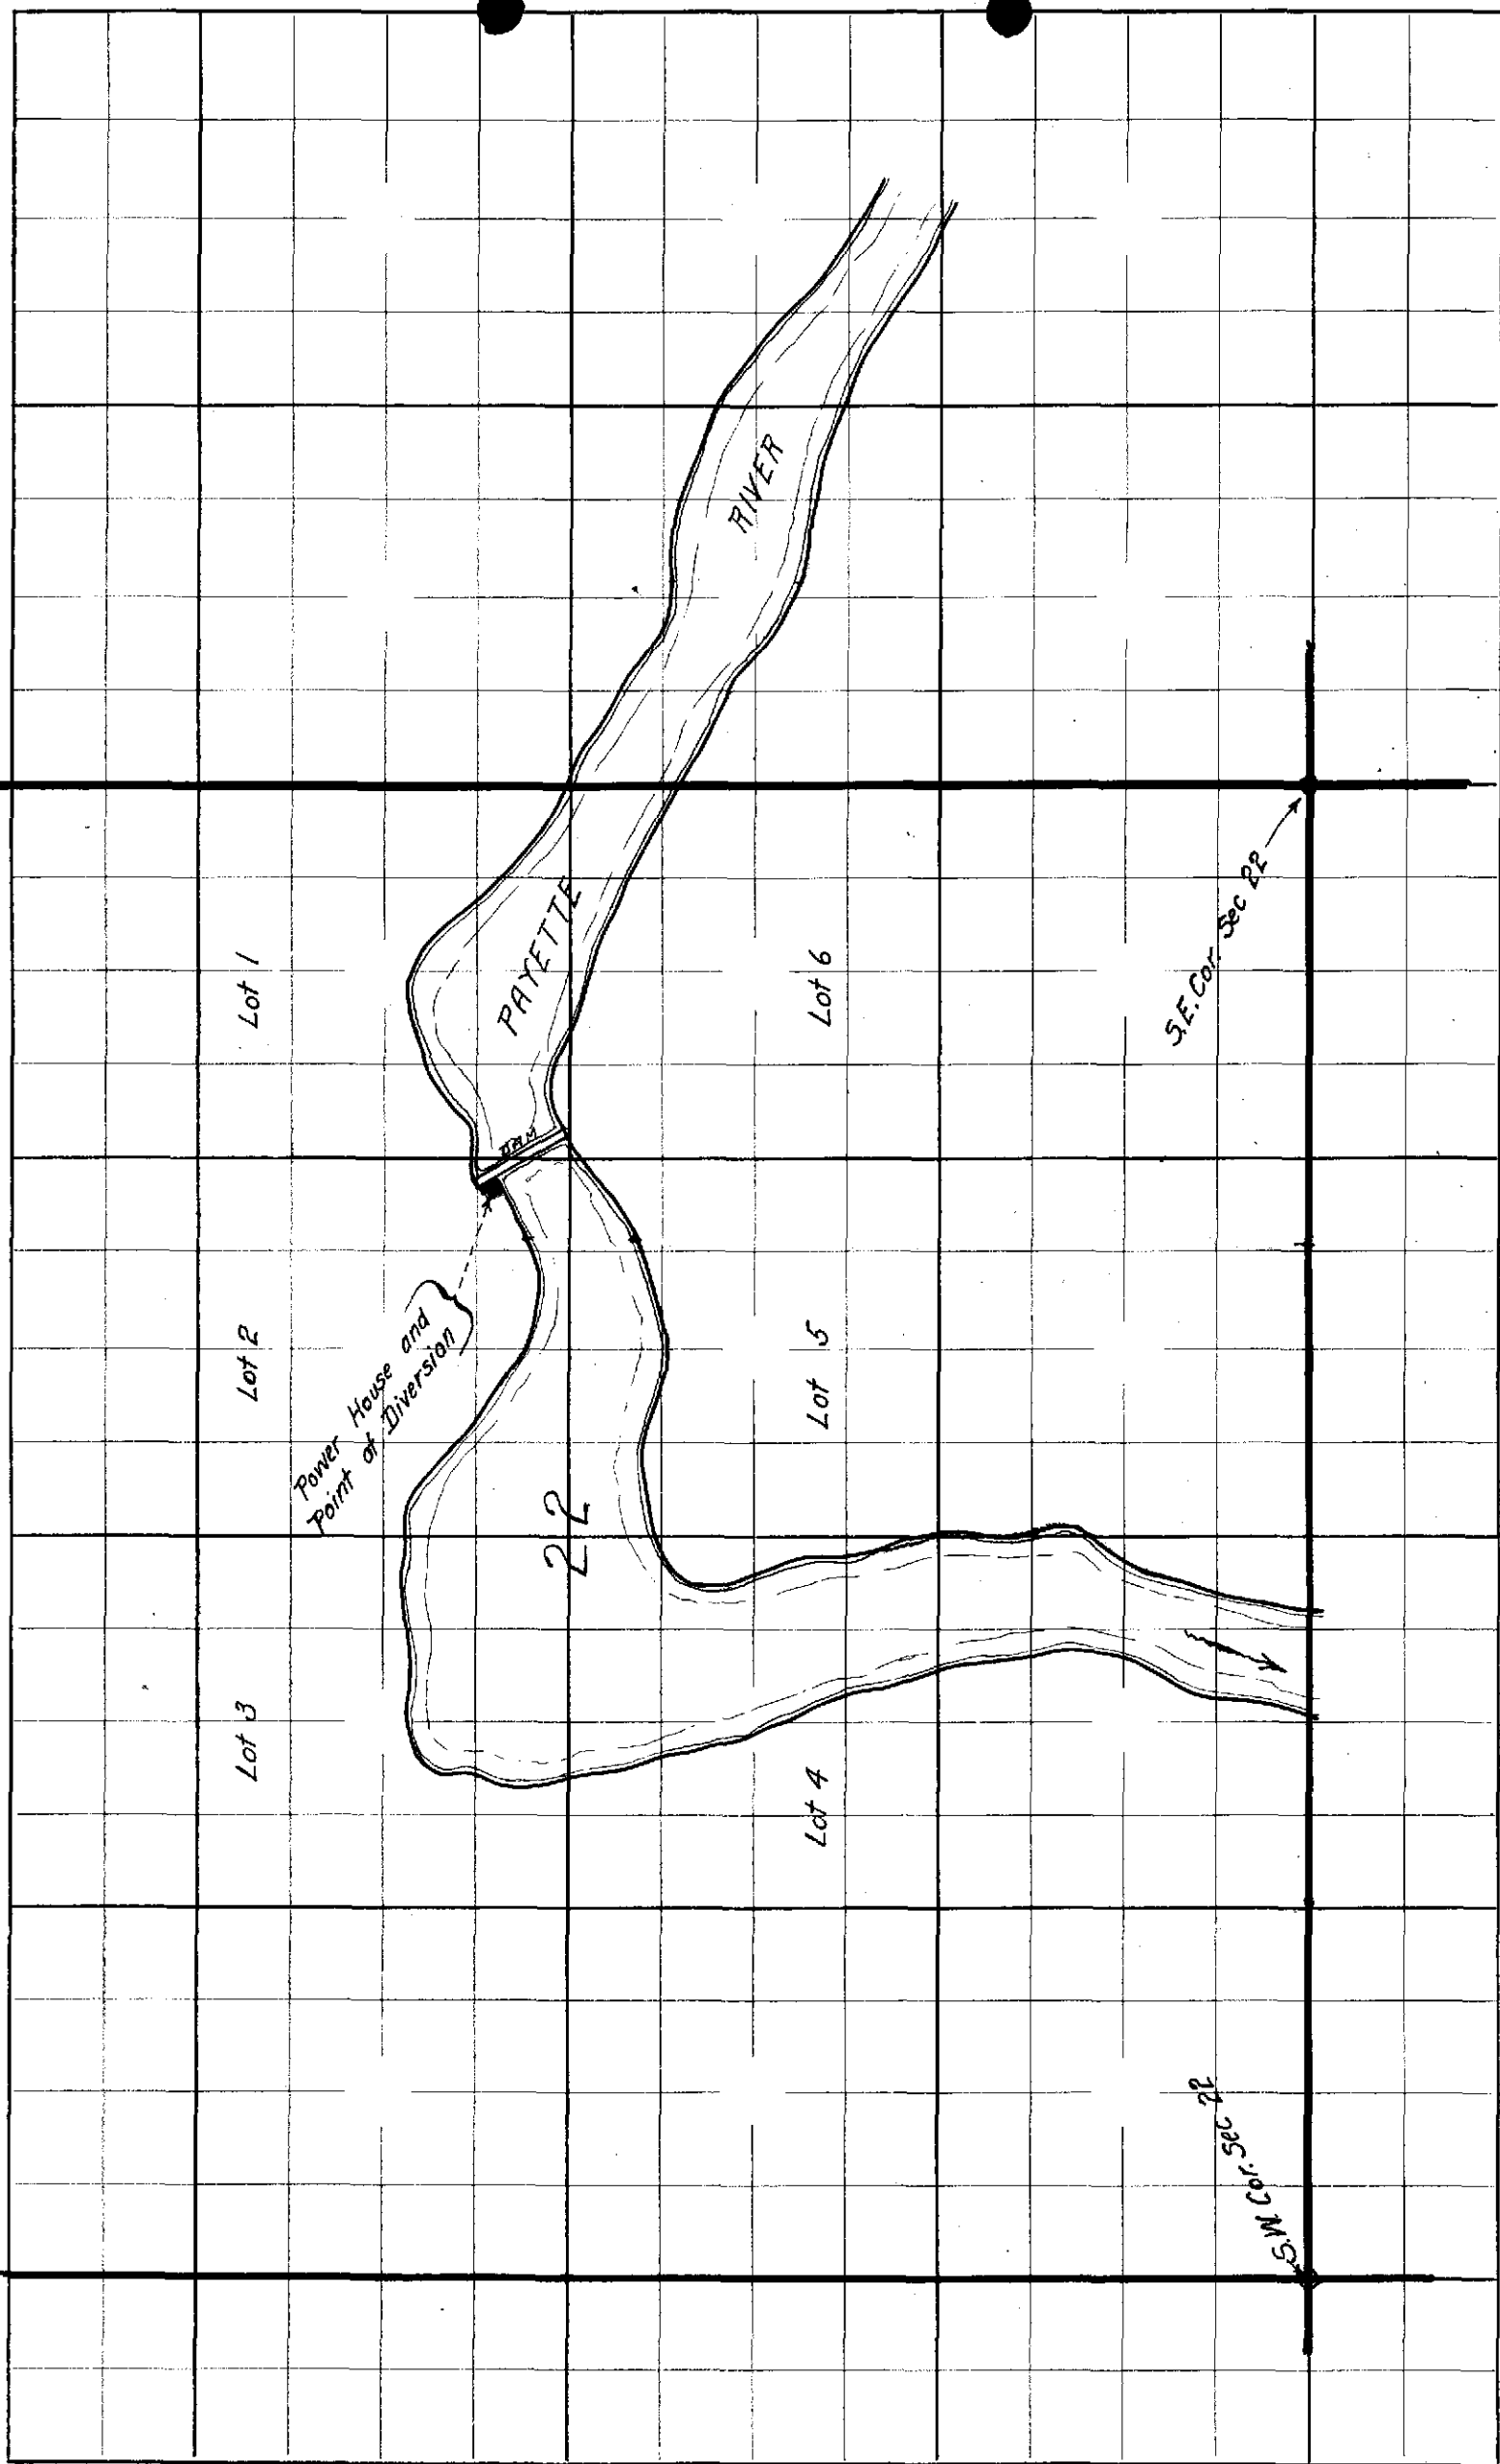

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make a plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

PERMIT NO. 15182

REPORT ON PROOF OF Beneficial Use

June 17, 1936

Re: Permit No. 15182

R. J. Newell, Const. Engr.
U. S. Bureau of Reclamation
Ontario, Oregon

Dear Mr. Newell:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office, you will be further notified as to fees due before issuance of the license.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO THE BENEFICIAL USE

Notice is hereby given that at 10 a. m. on the 1st day of June, 1936, at Emmett, County of Gem, State of Idaho, before Karl Mann, notary public, proof will be submitted of the applications to beneficial use of Thirteen Hundred (1300) cubic feet per second of the waters of Payette River in accordance with the terms and conditions of Permit No. 15182 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are United States of America acting through B. E. Stoutemyer, District Counsel, Bureau of Reclamation, Post Office Building, Portland, Oregon.

The use to which said water has been applied is generation of electric power.

The amount applied to beneficial use is Thirteen Hundred (1300) cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) in Lot 1, Section 22, Township 7 North, Range 1 West, Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Black Canyon Dam and power plant.

The right to take water from such works is based upon Permit No. 15182.

The source of supply from which water is diverted is Payette River.

The date of the priority which said user is prepared to establish is May 14, 1921.

R. W. FARIS
Commissioner of Reclamation.

AFFIDAVIT OF PUBLICATION

Permit No. 15182

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Robert J. Newell, Ontario, Oregon

Construction Engineer, U. S. Bureau of Reclamation

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. United States Bureau of Reclamation, Washington, D. C. - Construction Engineer

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 15182 - Date Approved, June 1, 1921 - Date of priority, May 14, 1921

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Payette River. Point of diversion, in Lot 6, N. 27°50' W., 2693 feet from SE corner, Sec. 22, T. 7 N., R. 1 W., B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Black Canyon Dam - Concrete masonry, 1040 feet long and 175 feet high. Two steel pipe penstocks 200 feet long and 8 feet in diameter. 1300 sec.-ft. capacity.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For generation of power. Place of use in Lot 1, S. 27°35', 2808 feet, from NE corner Section 22, T. 7 N., R. 1 W., B.M.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For generation of electric power. Capacity of plant 10,000 KVA

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1300 second-feet

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I have been assigned to represent permittee, U. S. Bureau of Reclamation, in place of B. E. Stoutemyer, District Counsel, who made original filing.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Full amount of 1300 second-feet has been diverted and used from March to August inclusive each year since 1926 and available flow varying from 1300 sec.-ft. to 500 sec.-ft. during the balance of the years for the same period.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

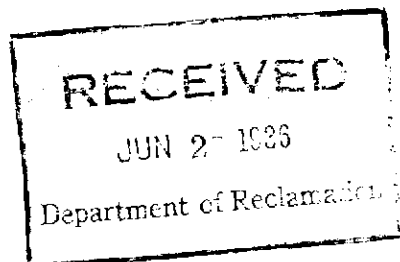

Ans. None

(Sign) Robert J. Newell

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Emmett, County of Gem, State of Idaho, on this 1st day of June, A. PERMIT NO. 15182

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. H. Haylor, Age 77, Residence, Emmett, Idaho,

Occupation, Secretary, Emmett Irrigation District, Emmett, Idaho

Ques. 2. Are you acquainted with U. S. Bureau of Reclamation, the holder of Permit No. 15182? How long have you known him and where does he reside?

Ans. Yes. For 15 years. Headquarters in Washington, D. C.

Ques. 3. Have you read or heard read said Permit No. 15182, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Payette River. At Black Canyon Dam in Lot 6, Sec. 22, T. 7 N., R. 1 W., B.M.

Dam of concrete masonry, 1040 feet long and 175 feet high. Two steel pipe penstocks
about 200 feet long and 8 feet in diameter.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1300 sec.-ft. 1300 sec.-ft.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Generation of electric power

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. Operation of Black Canyon power plant of 10,000 KVA capacity.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. None

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Have no direct interest in works except the district I represent purchases power from the plant.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

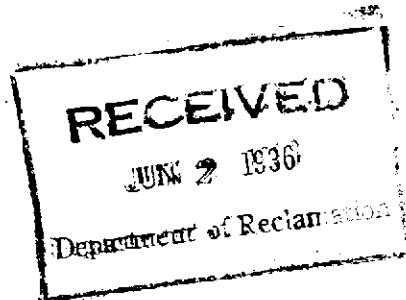

Ans. The plant has been operated to capacity, using 1300 sec.-ft., for a large part of every year since 1926

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO
BENEFICIAL USE

Notice is hereby given that at 10 a. m. on the 1st day of June, 1936, at Emmett, County of Gem, State of Idaho, before Karl Mann, notary public, proof will be submitted of the application to beneficial use of Thirteen Hundred (1300) cubic feet per second of the waters of Payette River in accordance with the terms and conditions of Permit No. 15182 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are United States of America acting through B. E. Stoutemyer, District Counsel, Bureau of Reclamation, Post Office Building, Portland, Oregon.

The use to which said water has been applied is generation of electric power.

The amount applied to beneficial use is Thirteen Hundred (1300) cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) In Lot 1, Section 22, Township 7 North, Range 1 West, Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Black Canyon Dam and power plant.

The right to take water from such works is based upon Permit No. 15182.

The source of supply from which such water is diverted is Payette River.

The date of the priority which said user is prepared to establish is May 14, 1921.

MR. R. J. NEWELL
United States Bureau of Reclamation
Ontario, Oregon

Dear Mr. Newell:

In conformance with our telephone conversation of yesterday, I am enclosing herewith two complete sets of the depositions in regard to proof of application of water to beneficial use.

As you know, proof under this permit is to be taken by Karl Mann, Notary Public, of Emmett, at 10:00 A. M. on June 1. One set of depositions has been furnished Mr. Mann, and that is all that will be required by this office. The ones which we are supplying you at this time are for your office copies.

I think that you have all the information that is necessary with which to complete the proof. However, if there is anything else that comes up in connection with this matter, if you will call this office, we will be glad to furnish it.

Very truly yours,

Chief Clerk & Office Engr.

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO,

May 25, 1936

MR. KARL MANN
Notary Public
Emmett, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 15182

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On June 1, 1936, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Emmett, Idaho before Karl Mann, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

R. N. FARIS
Commissioner of Reclamation.

The Notary Public has no authority to hear or receive any protests, and his duty in the matter is strictly confined to the taking of the depositions and transmitting them to the Department of Reclamation.

Dear Sir:—

I enclose herewith blank notice of proof of application of water to beneficial use under your permit No. **15182**....., which should be filled out and returned to this office at least 60 days before the date upon which you wish to make proof. The date for proof, as set out in your permit, is June 1, 1936....., and, if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Yours truly,

R. W. FARIS

~~EDMOND CARTER~~

Commissioner of Reclamation.

NOTE:—This permit claims 1200 second feet of water for irrigation purposes and 1300 second feet of water for power purposes to be diverted from the Payette River in Lot 6, Sec. 22, T. 7 N., R. 1 W., B. M., County of Gem.

Bond No. 1,920,899.

Messrs. Sudler, Epperson, & Grubb & Co., Inc.
First National Bank Building
Boise, Idaho

Gentlemen:-

Referring to the letter of Mr. W. L. Vernon, relative to the above permit, would say that proof of completion of works was made under the above permit and the certificate granted. The liability under the bond would, therefore, automatically cease.

Very truly yours,
R. W. FARIS
Commissioner of Reclamation.

Re: Permit No. 15182

Mr. R. J. Newell
Acting Superintendent
Bureau of Reclamation
Boise, Idaho

Dear Sir:

This will acknowledge receipt of depositions of holder and two witnesses in the matter of proof of completion of Works under Permit No. 15182.

Upon receipt of fees in the sum of \$392.00, the Certificate of Completion of Works will be issued, showing a capacity of 1300 second feet. The statutes provide that fee of \$5.00 shall be charged for the first ten second feet and Thirty (.30) cents additional for each additional second foot or fraction.

It develops that Mr. Tolman, field examiner for this office, has already made the inspection required by statute upon submitting proof of completion of works. Therefore, the matter of proof can be concluded upon receipt of the fee mentioned above.

However, I am still desirous of accompanying either you or Mr. Keener or both of you to Black Canyon sometime when you are making a regular trip over there.

Very truly yours,

Assistant Commissioner of
Reclamation

Notice for

Notice is hereby given that at 10 A. M. on the 1st day of June, 1926, at Boise, County of Ada, State of Idaho, before I. W. Stoddard, a Notary Public, proof will be submitted of the completion of works for the diversion of 1300 cubic feet per second of the waters of Payette River in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is United States of America.

2. The postoffice address of such person or principal place of business of such corporation is Boise, County of Ada, State of Idaho.

3. The number of such Permit is No. 15182, and the date set for the completion of such work is June 1, 1926.

4. Said water is to be used for Power development.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 1300 cubic feet per second.

6. For power development in Lot 1, Sec. 22, Twp. 7 N., R. 1 W., B. M.

W. G. SWENDSEN,
Commissioner of Reclamation

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R. J. Newell, age 45, residence, Boise, Idaho. Occupation,
Civil Engineer.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting on behalf of the United States of America as Superintendent
of the Bureau of Reclamation, Boise Project, Boise, Idaho.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. Permit No. 15182, dated May 14, 1921, to divert 1,300 second-feet
from Payette River at Black Canyon in Lot 1, Section 22, Twp. 7 N., R. 1 W.
B. M.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Power.

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. Varying diversions up to full amount of 1,300 second-feet have
been made since November 17, 1925.

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. Diversion works are fully complete and comply with terms of permit,

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. -----

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Concrete gravity dam 1,100 feet long and 183 feet high, two 96"
steel penstocks, two 6,000 H. P. turbines and two 4,000 K. W. Generators.
Total cost \$1,770,000.00

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

**J. B. Bond, Superintendent,
Bureau of Reclamation,**

**c/o I. W. Stoddard,
Boise, Idaho.**

BOISE, IDAHO, **May 20, 1926**

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works under Permit No. **15182**-----

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On **June 1, 1926**-----, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at **Boise, Idaho, before I. W. Stoddard, notary public.**-----

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

-----**W. G. SWENDSEN,**-----
Commissioner of Reclamation,
~~**State Engineer.**~~

Date April 23, 1926.

Emmett Index,

Emmett, Idaho.

DEAR SIR:

Enclosed you will find notice for publication once a week for four consecutive weeks prior to June 1st, 1926, the date set for proof, the expense of the publication to be paid by the applicant, J. E. Bond, Supt. Bureau of Reclamation, Boise, to whom you should furnish proof of publication on or prior to the date set for proof.

Please acknowledge receipt of this notice and furnish this office with a copy of the first publication.

Very truly yours,

W. G. SWENDSEN,

Commissioner of Reclamation.

15182

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. 15182

This proof is for **COMP. WORKS**

In Water District No. 20.B

1. Name of applicant: **Dept. of Reclamation, U. S. of America**

2. Source of water supply: **Payette River**

3. Location of point of diversion: Is in ~~the~~ **Lot 6** of Section **22**

T. **7 N.** R. **1. W.** B. M. County of **GEM**

4. Describe works as they exist, giving dimensions and capacities of same:

Concrete gravity section dam 1020 ft. long, 183 ft. Max height, with 3-64'x14½' movable drum crests with Max. control of 40,000 S.Ft.; Power house 32x102½ ft x 38 ft, inside ht Annex 25'x41' both of concrete. Also 2-5000 K.V.A. generators, rated at 6100 HP. under 80 ft head. 4-3333 K.V.A. outdoor type transformers. Water Capacity of turbines is 640 Sec.Ft. each or 1320 Sec.Ft. for the plant

5. Water is used for: **Power Development**

6. State whether or not water has been turned into works of diversion: *see note * under remarks.*

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? **Snake River**

Remarks: *Water for the Last Chance Ditch is conducted from the P.O.D. thru (temporary) siphon superceding the original siphon which crossed the river from the North Side Canal. The power output is transmitted about 4 miles at 66,000 volts to the line of the Idaho Power Company.*

* *Noted by G. N. Carter Sept. 1, 1926. that water has been turned into works of diversion "during the season of 1926"*

This examination was made on the **13th** day of **April**, 19**26**

(Signed) *Frederick J. Dolman*

Examiner.

Bureau Reclamation
Boise

Permit No. 15182

Examination for COMPLETION WORKS

County GEM

INSTRUCTIONS TO EXAMINERS

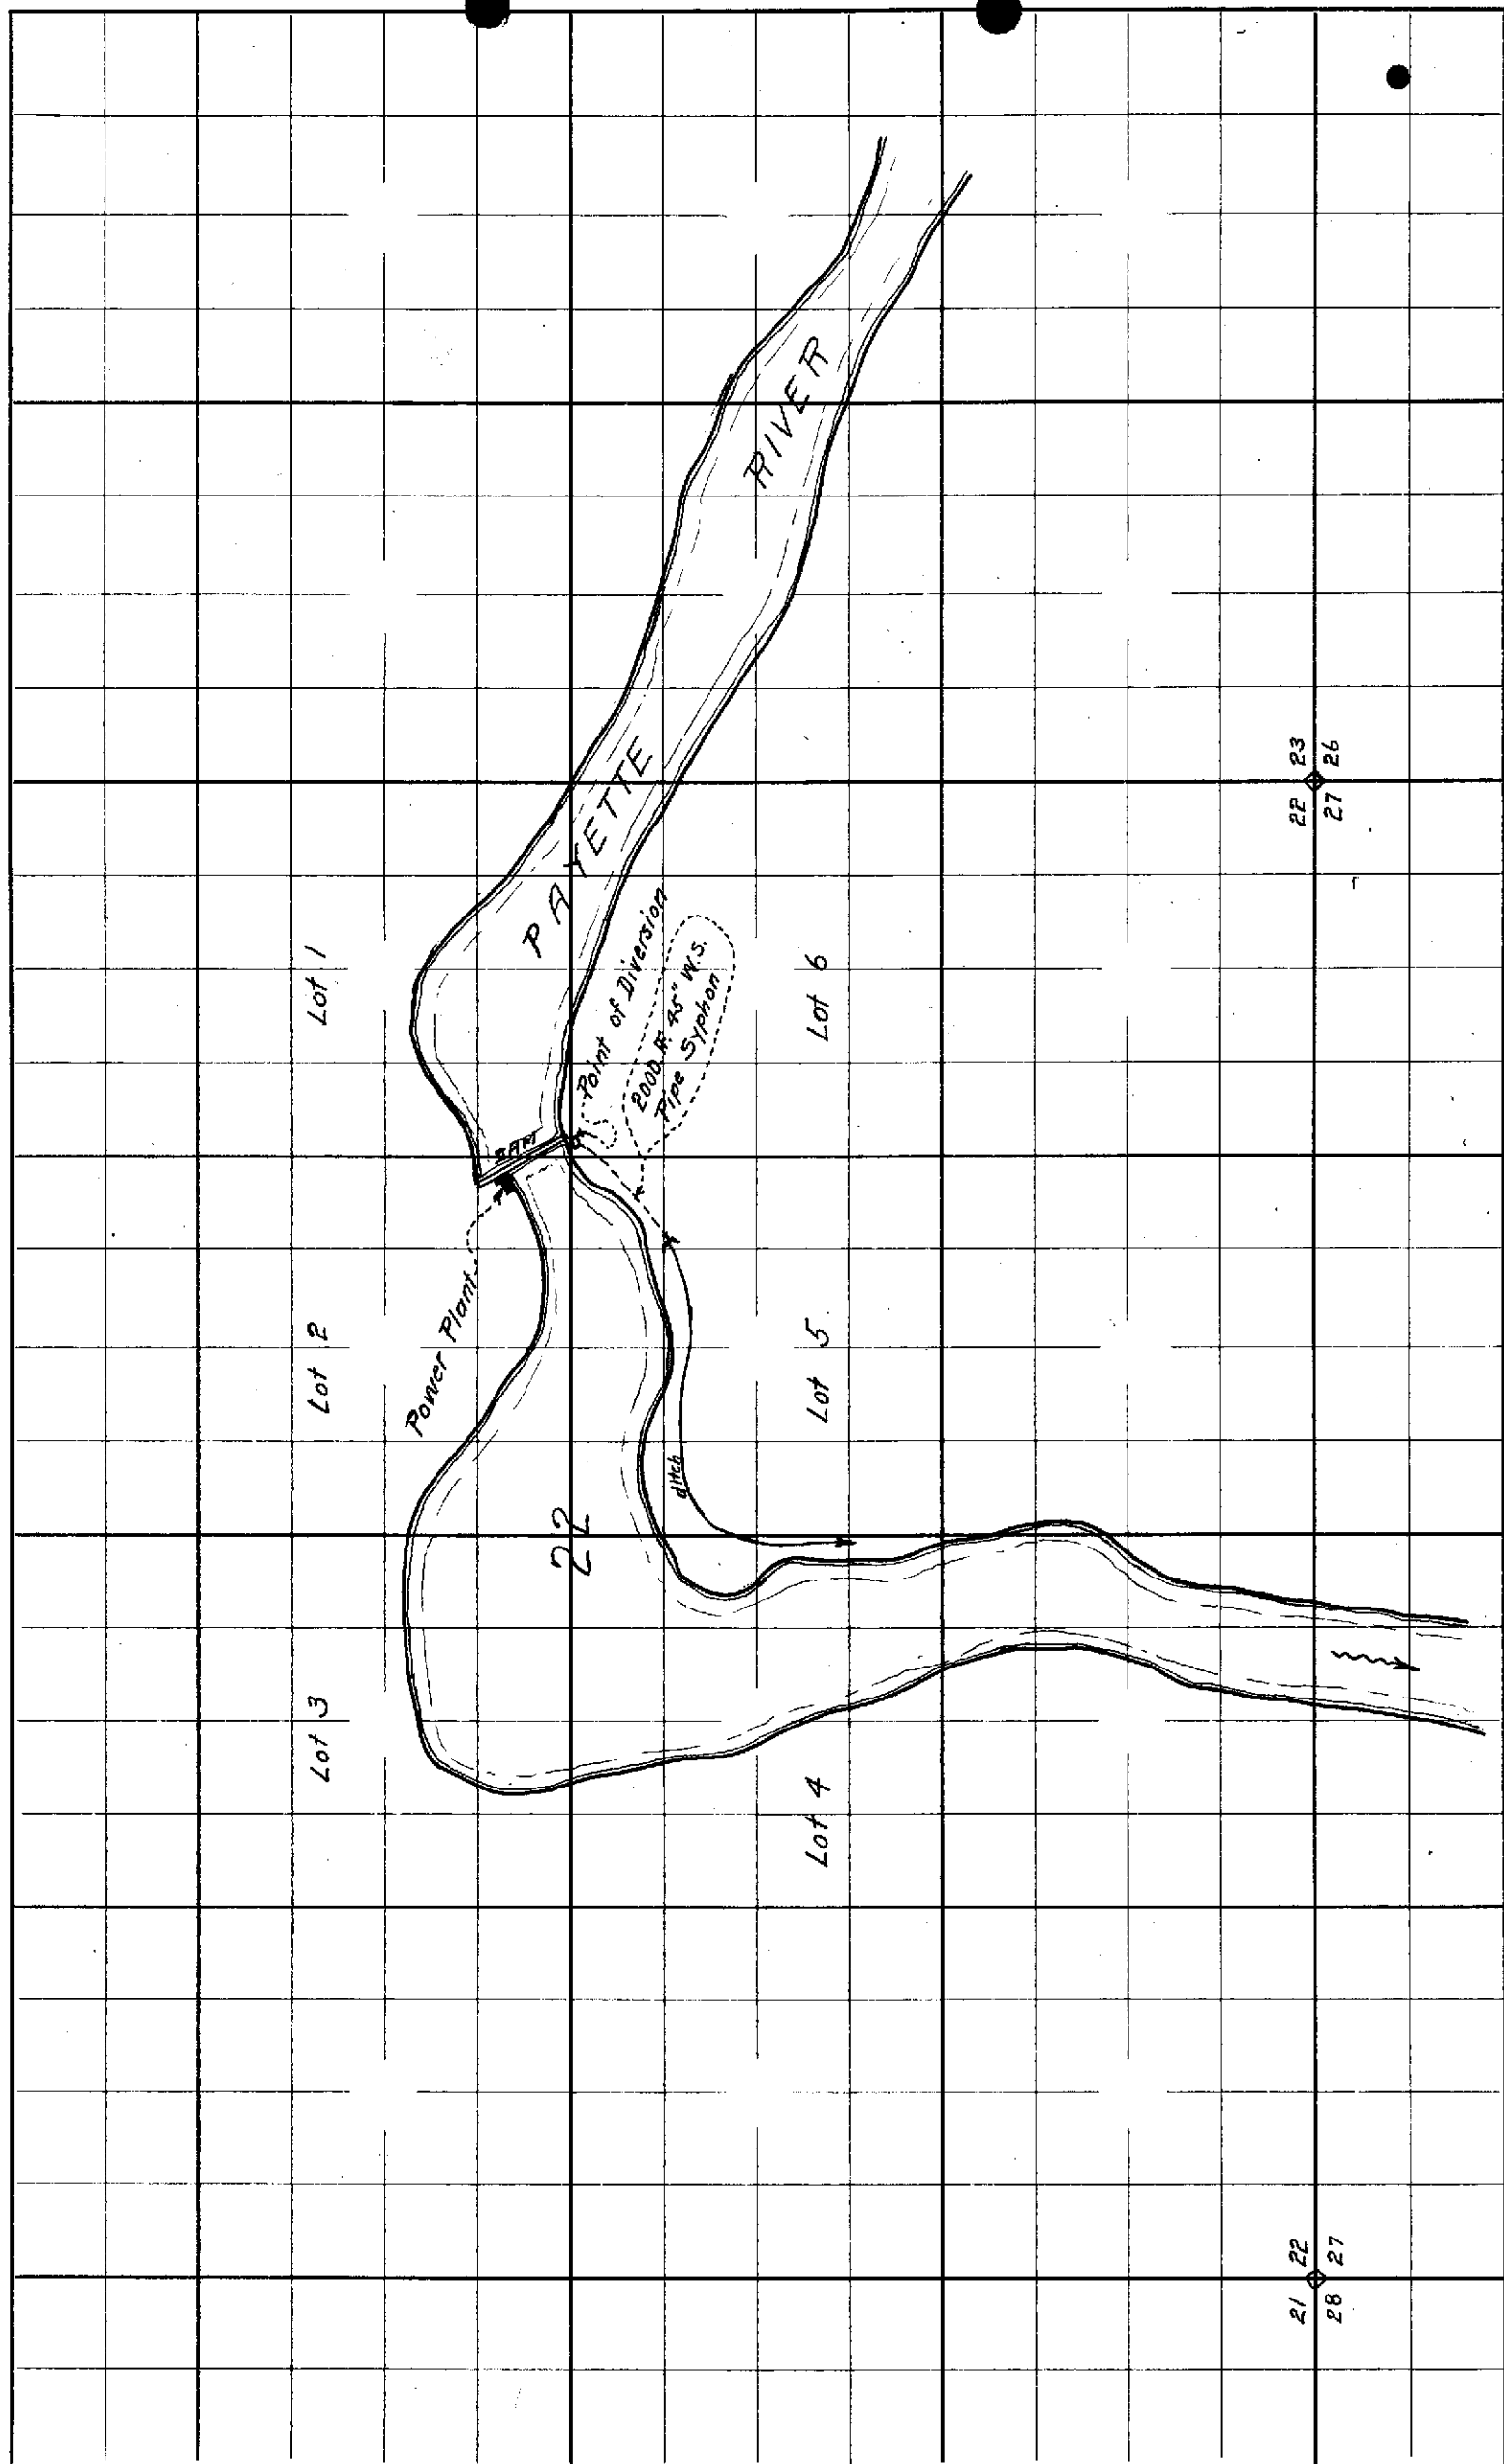

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make a plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

(Date) March 27, 1926.

(P. O.) Boise, Idaho.

TO THE COMMISSIONER OF RECLAMATION:

Boise, Idaho.

Dear Sir:

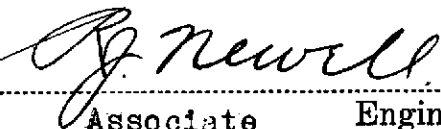

You are hereby authorized to have the attached notice published at my expense in the
Emmett Index of Emmett, Idaho, published in
the county in which the works are situated.

Superintendent,
Bureau of Reclamation.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Associate Engineer.

15182

Notice for Publication

Notice is hereby given that at 10 A. M., on the 1st day of June, 1926, at Boise, County of Ada, State of Idaho, before I. W. Stoddard, a Notary Public, proof will be submitted of the completion of works for the diversion of 1300 cubic feet per second of the waters of Payette River in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is United States of America.
2. The postoffice address of such person or principal place of business of such corporation is Boise, County of Ada, State of Idaho.
3. The number of such Permit is No. 15182, and the date set for the completion of such work is June 1, 1926.
4. Said water is to be used for Power development ~~irrigation~~.
5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 1300 cubic feet per second.

6. The amount of lands for which said water is available is ----- acres, particularly described as follows:

For power development in Lot 1, Sec. 22, Twp. 7 N.,
R. 1 W., B.M.

Lot 6 - Sec. 22 - 7N - 1W

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

March 1, 1926

Boise, Idaho,

U. S. Reclamation Service,
c/o B. E. Stoutemeyer, District Counsel,
Boise, Idaho

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 15182

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before June 1, 1926. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

W. G. SWENDSEN
Commissioner of Reclamation.

Commissioner of Reclamation

Fidelity and Deposit Company

OF MARYLAND.

HOME OFFICE: BALTIMORE, MARYLAND.

KNOW ALL MEN BY THESE PRESENTS, THAT United States of America,
acting through B.E. Stoutemyer, District Counsel, U.S. R. S.

(hereinafter called the "PRINCIPAL"), and the FIDELITY AND DEPOSIT COMPANY OF MARYLAND,

a corporation under the laws of the State of Maryland, having its principal office in the City of Baltimore,

Maryland, (hereinafter called the "SURETY"), represented by BRUCE & FULD, INC.,

General Agent, in the City

of Boise and State of Idaho

are held and firmly bound unto The State of Idaho

~~xxx~~

(hereinafter called the "OWNER") in the full and just sum of One Thousand - - - - -

(\$1000.00) - Dollars,

to the payment of which said sum of money, well and truly to be made and done the said PRINCIPAL

binds himself, his heirs, executors and administrators, and the said SURETY binds itself, its successors

and assigns, jointly and severally, firmly by these presents; Signed, sealed and dated this

5th day of July A. D. 19 21;

WHEREAS, said PRINCIPAL on the 14th day of May, 1921, filed in the
office of the Commissioner of Reclamation, in Boise, Idaho, a certain
application for permit to appropriate the public waters of the
State of Idaho, the said application being thereupon numbered
No. 21578, in accordance with which said application the Commissioner
of Reclamation granted and issued to the said principal herein a
certain permit numbered No. 15182, a full, true and complete copy
of which said application No. 21578 and permit No. 15182 is of record
in the office of the Commissioner of Reclamation, in Book 53 of
Permits, at Page 15182,

15182

NOW THEREFORE THE CONDITION OF THIS OBLIGATION IS SUCH, that if the said

PRINCIPAL shall faithfully perform said contract on his part, according to the terms, covenants and conditions thereof (except as hereinafter provided), then this obligation shall be void; otherwise to remain

in full force and effect;

THIS BOND IS EXECUTED BY THE SURETY UPON THE FOLLOWING EXPRESS

CONDITIONS, which shall be conditions precedent to the right of the OWNER to recover hereunder;

THE OWNER shall keep, do and perform each and every, all and singular, the matters and things

set forth and specified in said contract, to be by the OWNER, kept, done and performed exclusively at

the times and in the manner as in said contract specified;

THE said SURETY shall be notified in writing of any act on the part of said PRINCIPAL, or his

agents or employees, which may involve a loss for which the said SURETY is responsible hereunder, im-

mediately after the occurrence of such act shall have come to the knowledge of said OWNER, or to any

representative duly authorized to oversee the performance of said contract; and a registered letter mailed

to the President of said SURETY, at its principal office in Baltimore City, Maryland, shall be the notice

required within the meaning of this bond;

If the said PRINCIPAL shall voluntarily abandon said contract, or be lawfully compelled by the

OWNER to cease operation thereunder, by reason of his non-performance of any of its terms or conditions

then the SURETY shall have the right, in its option, to assume the said contract and to sublet or complete

the same, and if said contract shall be assumed by the SURETY, then as such contract is duly performed,

any reserve, deferred payments and all other monies provided by said contract to be paid to the

PRINCIPAL, shall be paid to the SURETY, at the times and under the same conditions as by the terms

thereof, such monies would have been paid to the PRINCIPAL had the contract been duly performed by

him; AND if said OWNER shall complete or relet the said contract, then any forfeitures provided in said

contract against the PRINCIPAL shall not be operative as against the SURETY, but all reserves, deferred

payments and all other monies provided in said contract, which would have been paid to the PRINCIPAL

had he completed the contract in accordance with its terms, shall be credited upon any claim the said

OWNER may make upon said SURETY;

THE SURETY shall not be liable under this bond to any one except the OWNER, but it is agreed

that the OWNER, in estimating his damage, may include the claims of mechanics and material men, arising

out of the performance of the contract, and paid by him only when the same, by the Statutes of the State

where the contract is to be performed, are valid liens against his property.

THE said OWNER shall retain the last payment and reserve due said PRINCIPAL until the com-

plete performance by said PRINCIPAL of all the terms, covenants and conditions of the contract on said

PRINCIPAL'S part to be performed, and until the expiration of the time within which liens or notices of

liens may be filed, by reason of anything done in or towards the performance of said contract, and until

the cancellation and discharge of such liens, if any, and said SURETY shall be notified, in writing, before

said last payment shall be made or said reserve paid;

THE SURETY shall not be liable for any damages resulting from an Act of God, or from a mob,

riot, civil commotion or a public enemy; or from so-called "strikes or labor difficulties; or from accident,

69 fire, lightning, tornado or cyclone, and the SURETY shall not be liable for the reconstruction or repair of
70 any work or materials damaged or destroyed by said causes or any of them.

71 THIS bond does not cover any provisions of the contract or specifications respecting guarantees of
72 efficiency or wearing qualities or for maintenance or repairs, nor does it obligate the SURETY to furnish
73 any other bond covering such provisions of the contract or specifications.

74 THAT any suits at law or proceedings in equity brought on this bond to recover any claim
75 hereunder must be instituted within twelve months after the completion of said contract;

CONTRACTOR'S BOND

ON BEHALF OF

TO

In re Permit #15182

July 2, 1921

O R D E R

WHEREAS, the above stated permit #15182, was issued to the United States of America upon application for permit filed for and on behalf of the United States by B. E. Stoutemyer, District Counsel for the United States Reclamation Service, and was approved by the Commissioner of Reclamation under date of June 1, 1921; and,

WHEREAS, pursuant to the provisions of Section 5570 of the Compiled Statutes of Idaho, and in accordance with the rules and regulations of the Department of Reclamation and under the provisions of said permit, bond was fixed at \$5,000.00; and,

WHEREAS, upon reconsideration of the said bond as fixed, the Department of Reclamation is convinced that the State will be afforded sufficient assurance of good faith upon the part of said permit owner provided the bond is reduced to \$1,000.00;

NOW, THEREFORE, in view of these conditions, it is hereby ordered that the bond requirement, as indicated in said permit #15182, be changed to \$1,000.00 and that the rules and regulations of the Department, in reference to the amount of bond to be given under the permits in so far as the same may appertain to the bond of this permit, be and the same are, for this express purpose and this express purpose only, suspended.

Commissioner of Reclamation
