WATER RIGHT LICENSE
WATER RIGHT NO. 63-10326

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
6. Use of water under this right is subject to the control of the watermaster of Water District 63, Boise River and tributaries.
7. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
8. The right holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this right.
9. Use of water under this right for irrigation purposes may require the purchase of stored water as determined by the watermaster.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 9TH
day of APRIL, 1994.

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof
of beneficial use for a water right permit

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 63-10326

Name(s) of Permit Holder: Lakeharbor Master Association, Inc., an Idaho nonprofit corporation

Post Office Address: c/o Washington Federal Savings & Loan, 1001 W. Idaho, P.O. Box 1460, Boise, ID
83701 Telephone No. 338-7300

Date Proof is Due: January 1, 1991

Describe what work has been completed toward the development of this water right: _____
(This must be filled out! If no work has been completed, show "none".)

The permit applies to the entire Lakeharbor Project, a large commercial/office/residential
subdivision. A pumping system for supplying water to the entire project has been installed.

Water is being pumped to approximately one-half the project. One or two more pumping stations
will be installed to help pump water to the remainder
of the project as it is developed. Costing \$ 94,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The project has not been fully developed due to financial difficulties of the original
developer and the general economic trends of Boise. Development is continuing as
economically feasible and is expected to be complete in the next five years.

Permit holder(s) request an extension to January 1, 19 96.
(1 yr. minimum)

APPLICATION FOR PERMIT

Ident. No. 63-10326

RECEIVED

OCT 4 1985

To appropriate the public waters of the State of Idaho

Department of Water Resources

1. Name of applicant Lakeharbor Partners, Ltd. Phone 344-6315

Post office address 405 S. 8th Street, Suite 295, Boise, ID 83702

* See Remarks

2. Source of water supply Boise River Ground water Unnamed Lake DRT 12/11/85 which is a tributary of Snake River n/a Boise River 12/11/85 DRT
(SESE, SWSE, NWSE, NESE)

3. Location of point of diversion is SE $\frac{1}{4}$ of $\frac{1}{4}$ of $\frac{1}{4}$ Govt. Lot

Sec. 30 Township 4N Range 2E B.M. Ada County; additional

points of diversion if any: SW 1/4 of the SW 1/4, Sec 29, T 4N R 2E, B.M., in Ada County.

4. Water will be used for the following purposes:

Amount 1030AF for storage for aesthetics purposes from 1/1 to 12/31 (both dates inclusive)

conv. *385AF storage for & from (for) 1/1 to 12/31

Amount 1030AF for irrigation purposes from 4/1 to 11/1 (both dates inclusive)

Amount 3.0 CFS for aesthetics and purposes from 1/1 to 12/31 (both dates inclusive)

Amount 0.6 CFS for irrigation purposes from 4/1 to 11/1 (both dates inclusive)

5. Total quantity to be appropriated is (a) 3.0 CFS and 1030 AF
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. The diversion from ground water is a lake, consisting of former gravel pits, that has been excavated into the ground water zone to a depth of approximately 40 feet. There is no dam involved. The lake naturally fills with water by a continuous ground water flow of approximately 3 CFS. Water is released from the lake through outlet pipes on the western side of the lake, one of which supplies a pump serving applicant's irrigation system.

b. Height of storage dam n/a feet; active reservoir capacity 1030 acre-feet; total

reservoir capacity 1030 acre-feet; period of year when water will be diverted to storage:

1/1 to 12/31 inclusive.

c. Proposed well diameter is inches; proposed depth of well is feet.

d. Is ground water with a temperature of greater than 90°F being sought? No.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year).

MICROFILMED

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in KW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- Domestic; show number of households. _____

e. Other; describe fully. Direct flows into and through the lake on applicant's property for aesthetic and recreational purposes (windsurfing, canoeing, swimming, fishing, ice skating, etc.) and for irrigation of gardens, lawns, landscaped areas and open space within the development. Storage for these purposes, and to refill the lake. A portion of this water will be used for irrigation by diverting it through a pipe and pump system located as specified on the attached map.

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS

		31	J,R A-7	J,R A-7															14

Total number of acres to be irrigated approx. 70 ^{77*} Per
phone conv. w/Jeff Fereday-10/17/85 JS

10. Describe any other water rights used for the same purposes as described above. Applicant presently holds the right to receive approximately 0.5 CFS of irrigation water from the Boise Valley Irrigation Ditch Company.

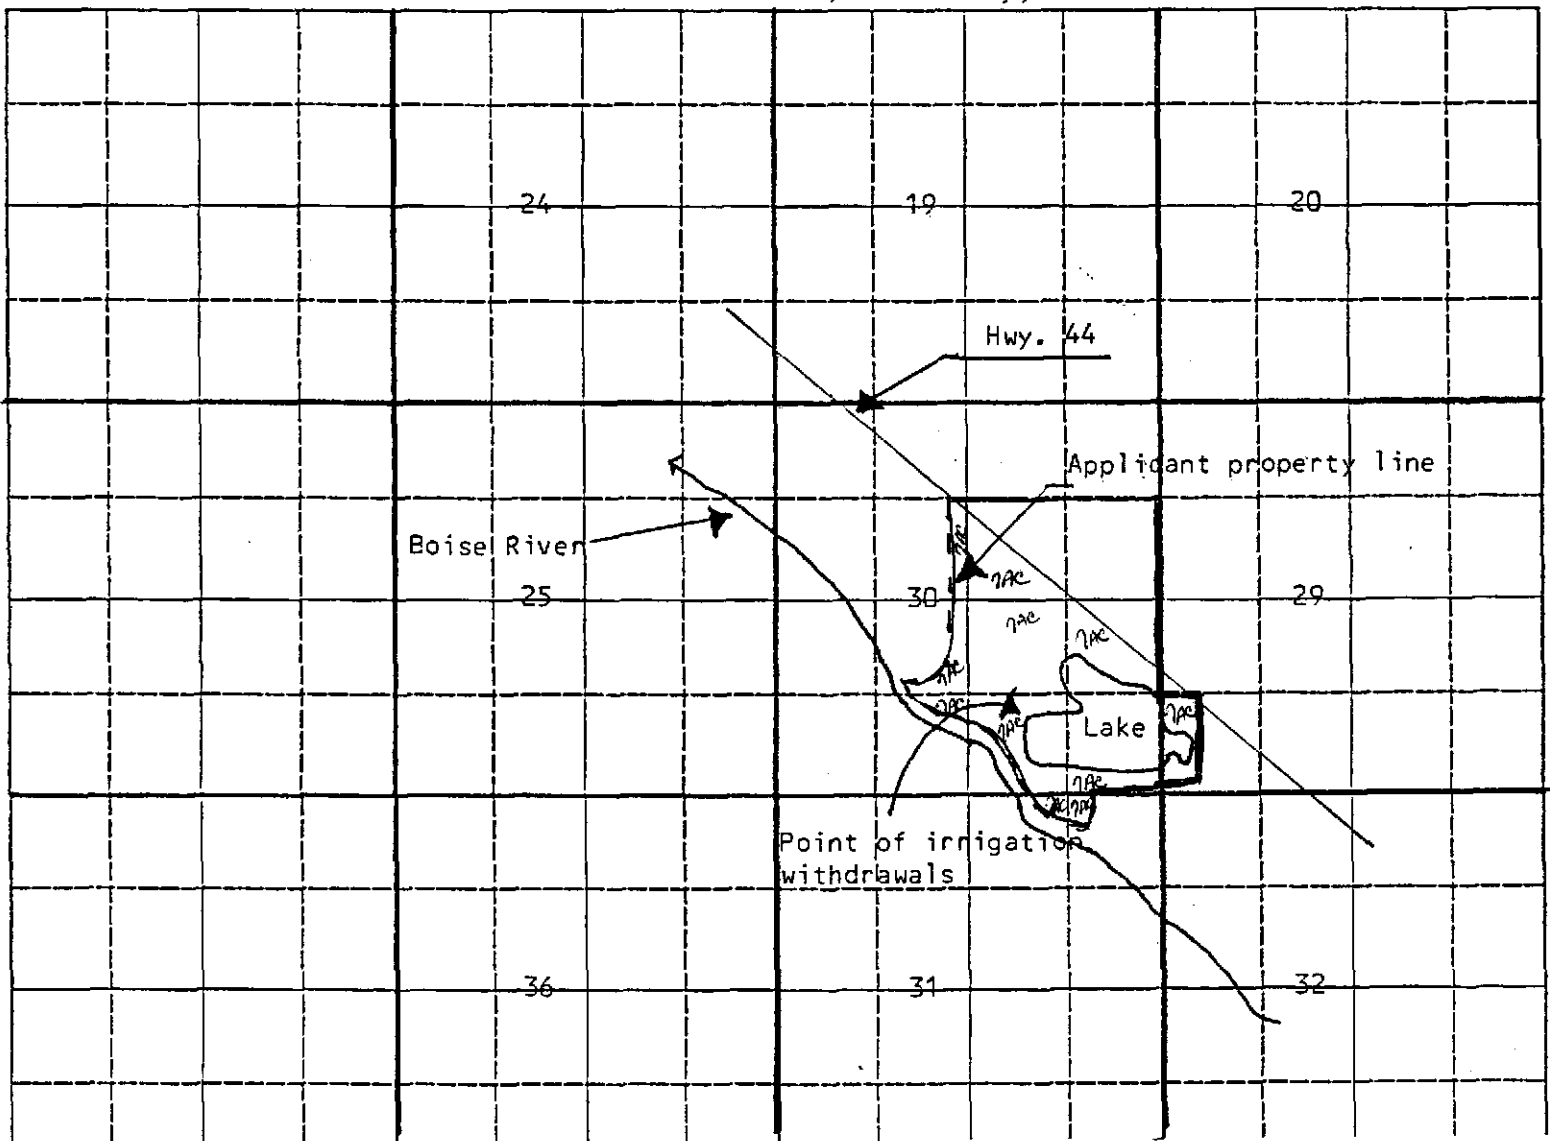

- Who owns the property at the point of diversion? Applicant.
- Who owns the land to be irrigated or place of use? Applicant.
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. _____

12. Remarks: On a previous study it was determined that the groundwater flows are upgradient to the lake and flow down from the foothill area. *Per phone conversation with Jeff Fereday. 11/22/85 JS

MICROFILMED

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

T4N R2E B.M., Ada County, Idaho

The lake as a whole constitutes the point of diversion of the ground water involved in the application. In addition, ground waters from the lake for irrigation purposes will be diverted by means of a pipe and pump system at the point designated on the map. The lands to be irrigated are lawns, landscaped areas and open space which will be situated throughout the development. If necessary, this map can be supplemented later to show the exact locations of such irrigated areas as they are developed.

Scale: 2 inches equal 1 mile.

MICROFILMED

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

LAKE HARBOUR PARTNERS, LTD

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10326, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 19 91.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
Use of water under this permit for irrigation purposes may require the purchase of stored water as determined by the watermaster.
Use of water under this permit is subject to control by the watermaster of State Water District No. 63, Boise River.

Witness my hand this 7th day of January, 1986.

J. Glen Saxton
Chief, Operations Bureau

RE: WATER RIGHT NO. 63-10326

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 14 days.

If you do not concur with this information, please contact me as soon as possible.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', written over a horizontal line.

APR 13 1994

E. NARRATIVE/REMARKS/COMMENTS

Silver Lake occupies 32.96 acres and is approximately 42 foot deep. Water enters the lake from the subsurface as ground water inflow. The sides of the lake are relatively steep where not flattened for recreation. An inlet to a 60" sump is located in the NE 1/4 SE 1/4 Sec 30 T4N R2E for irrigation of shrubs, lawns and trees around the development. The sump is equipped with two 10 HP submersible jacuzzi pumps capable of producing .68 cfs at 200 feet T.D.H. Acreage calculations and surface area calculations for Silver Lake were made from an Engineering plot map, scale 1"=100' using a planimeter after field mapping. Volume calculations for aesthetics and recreation were made using a 32 foot average depth (1054 acft)

Have conditions of permit approval been met? ☐ yes ☒ no meter not yet installed but is in process

PROOF DUE NOTICE

RE: PERMIT NO. 63-10326

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: Water Right No. 63-10326

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement.

APR 13 1994

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

Gentlemen:

Re: Permit No. 63-10326

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to January 1, 1994. Note that the permit has been reinstated with an advance in priority, since the extension was received after the proof of beneficial use date.

The department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

LAPSE NOTICE

RE: PERMIT NO. 63-10326

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated October 31, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-10326

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Re: Assignment of Water Permits 63-10326 and 63-10327

Dear David:

On behalf of our client, Lakeharbor Partners Limited Partnership, I am sending copies of the Assignment of Water Permits dated August 3, 1987 and the notice to the Department entitled "Assignment of Permit" dated August 18, 1987 notifying the Department of the assignment. Please include these materials in your case file for these permits.

As you can see, this Assignment shifts the ownership of the permits from the partnership which developed the Lakeharbor project to the Lakeharbor Master Association, which is the property owners' association on the project. Please let me know if you have any questions.

Sincerely,

Jeffrey C. Fereday

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-10326

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE AND LOCKABLE CONTROLLING WORKS THAT WILL ENABLE THE WATERMASTER TO CONTROL YOUR RATE OF DIVERSION.

PLEASE NOTE THE REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

MEMORANDUM

TO: 63-10326 *DMK*
FROM: Dave Tuthill & Lee Sisco *6/5*
DATE: December 9, 1985
Re: Source of Water Right No. 63-10326

Based on an analysis of information in this and other related files, this memorandum has been prepared to discuss the source of this water right.

The original application described the source as "groundwater which is a tributary of n/a." The initial analysis by this office resulted in the addition of a second source as "Boise River which is a tributary of Snake River." Based on further analysis of this water right application it appears that modification of the source name may be required.

One common technique used by the Department for differentiating between groundwater and surface water is to determine whether the water proposed to be diverted existed on the surface or below the surface at the time the original application was filed. In this case, because the lake from which the water is to be diverted existed at the time of filing, this technique would result in the description of the water source as surface water, even though it is recognized that the lake is recharged by flows from the groundwater aquifer. This situation is similar to that of water right no. 63-9718 in the name of Riverside Village Associates, for which the source is shown as "Village Lake tributary to the Boise River."

Our conclusion is that the source for water right no. 65-10326 should be identified as a lake, tributary to the Boise River. Because the lake is named neither on the USGS 7 1/2 minute quadrangle nor on the application, it should be identified as "Unnamed Lake tributary to the Boise River."

Regarding the need for readvertisement of the new source, in this case, because (1) the source has been clarified but not changed by the rename, (2) the original advertisement showed both groundwater and the Boise River as sources, and (3) the applicant owns the property surrounding the lake, no readvertisement is considered to be required.

Dan Bradshaw
Orbanco Real Estate Services, Co.
P. O. Box 873
Boise, ID 83701

Dear Mr. Bradshaw:

Re: Applications for Permit Nos. 63-10326 and 63-10327
Lakeharbor Partners, Ltd.

You recently contacted the department relative to the status of the above-referenced applications for permit.

The applications provide for maintaining an existing lake in Sec. 30, Twp. 4N, Rge. 2E, Ada County, Idaho to be used for aesthetic purposes and for irrigation purposes. The sources of water described on the applications are an unnamed spring, ground water and the Boise River.

The applications have been advertised and no protests have been filed against the approval of either application. The final date for filing protests was November 11, 1985.

The department's review of the applications does not indicate any problem with approval of that portion of the applications for aesthetic purposes. Since keeping the lake full will not be a change from the conditions as they have existed in the past, there is not any reason to expect that ground water will not continue to naturally fill the lake and to be available for maintaining the lake.

The department does have concerns about the irrigation portion of the applications since this may represent a new consumptive use of water from the Boise River surface water system which is essentially fully appropriated during certain portions of the year. The department may place specific requirements on the applications regarding proposed irrigation but this should not jeopardize the use of water for non-consumptive maintenance of the lake.
