Re: Permit No. 37-20797

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm that the use being made meets the permitted beneficial use.

Upon review of your proof, I find that you paid \$50.00 for the license examination fee. The department waives the license exam fee for groundwater rights with a diversion rate of 0.04 cfs or less. Since this waiver applies to your right, I have requested that the State of Idaho issue you a check for \$50.00. This check will be mailed to you within 7-10 business days.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033. If you have any questions regarding the refund or the processing of this proof, please contact me at (208) 327-7953.

PROOF DUE NOTICE

RE: PERMIT NO. 37-20797

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 01, 2003. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

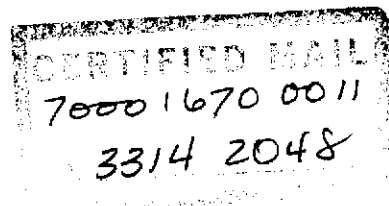

Sincerely,

Deborah J. Gibson, Administrative Assistant

RE: Permit No. 37-20797

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

During my review of your application for permit, I found that the department issued you a drilling permit for a single domestic use. If our records are correct, this permit should have been for a multiple domestic use. The fee paid at the time was \$75.00. The correct fee for multiple domestic use is \$200.00. Please pay the balance of the fee to either this office, or the regional office in Twin Falls.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

JAN 8 9 2003

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Permit Review

During my review I found that surface water rights are appurtenant for this property. I called the applicant and asked him if he had use of the surface water rights. He stated that he had a 10 year lease for 100 acre feet of surface water. He wants to irrigate up to 1/2 acre of property with the ground water, and irrigate a tree farm. I informed him that the surface water rights would need to be used, before the ground water, he said that would be ok. He also said the number of lots would be 4-5. The lots at this time are approximately 1 acre each.

Also, the drilling permit fee the applicant paid was \$75.00 which is for a domestic well for one home. Since there are more than one home the region said that we need to collect an additional \$125, to total the correct fee of \$200. The transmittal letter for the approved permit will contain a paragraph notifying the permit holder that an upgrade of the drilling permit is appropriate.

Finally, the second problem is that an official plat has not been prepared and the region asked for a copy upon its completion. The permit conditions that the plat be finalized and a copy filed with the department, prior to diversion.

Re: Application for Permit filed in the name of Eric R. Alberdi

Dear Mary:

This office has received your letter seeking comments and/or recommendations for the above referenced application for permit.

It appears the application is for a private domestic well with potential to serve three additional homes.

Well siting and plans for this private well or small subdivision (>2 but <9 connections) will be submitted to the South Central District Health for review and approval. At their discretion, or if the well site or plans indicate that there may be potential problems with well siting or construction, the District may elect to defer review to this office. In that situation, the applicant would be informed that plans and specifications, prepared and stamped by an engineer licensed to practice in Idaho, should be submitted to the Idaho Department of Environmental Quality (IDEQ), Twin Falls Regional Office.

Following review of the plans, an approval/comment letter would be sent to the applicant, recommending changes or approving the design as submitted.

Following construction, AS-BUILT plans and monitoring analyses would need to be submitted to IDEQ for review and approval.

If you have any questions, please do not hesitate to contact this office at 736-2190.

Sincerely,

Gregory T. Misbach, P.E.

Re: Application for Permit No. 37-20797

Dear Applicant:

The Department of Water Resources acknowledges receipt of your water right application. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office has scheduled advertising the application in the **Wood River Journal** for 9/4 & 9/11/02. A period of ten days following the second publication will be allowed for the submittal of protests. (September 23, 2002)

If an application is protested the applicant will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If an application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify the applicant of the outcome of this review. If a permit is issued, the applicant will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

RE: Request for expedited approval to drill domestic well.

Dear Gary,

As per our conversation this morning, I am submitting a written request for an expedited approval to drill a domestic well that will service one residence and possibly three additional residences in the event of a subdivision (see application for permit submitted in conjunction with this letter). I understand that the permit for multiple dwellings will be processed in 6 to 8 weeks, however, I would ask for permission to service a single residence during this process period. I am working with Mr. Mark Koffer of Walker Water Systems. He has scheduled the drilling of the well on June 26, 2002. He will be submitting a drilling permit application with this request. Please contact me with questions.

Thank You,

Comment Report

37-20797

1. jstanton 8/30/2002 Comment/Analysis

Comment: This well was drilled under Permit 779409 as a exempt domestic well (\$75 fee). The well is not exempt from the filing requirements, however, so the correct fee is \$200. The additional fee needs to be collected prior to issuance of the water permit. This land is near Carey, and is outside any areas of special groundwater rules.

The applicant told me that he has not determined the exact lot size or configuration yet, so the proposed p/u is just a general representation. Local regs require lots to be at least 1 acre in size, however.

Our standard table for domestic use shows 0.08 cfs for 4 homes, but this is just for culinary use. So the 0.13 cfs applied for seems reasonable, as it includes lawn watering; the legal limit is of course 1/2 acre per lot.

The application appears to be exempt from the current moratorium, and approvable as filed.

2. jstanton 8/30/2002 Legal Notice Remarks

Comment: This application proposes the drilling of a new domestic well to serve 4 homes on Block 1 Lot 7 of the Lakeview Subdivision between the city of Carey and Carey Lake.
